Questions

• What discipline data are collected by the CSDE?

• What is the trend for the three important sanctions of in-school suspension (ISS), out-of-school suspensions (OSS), and expulsions in Connecticut over the past five years?

• Who is suspended/expelled? Do suspensions rates vary by grade, race/ethnicity, gender? Also, are there differences among these subgroups within different district categories (e.g., Ed-Reform, Charter, RESC)?
Questions (cont’d)

• Of the total number of suspensions, what is the percentage of ISS, OSS and Expulsion within the different district categories?

• Why are students being suspended/expelled? What types of incidents are resulting in suspensions/expulsions? Do these vary by district categories and race/ethnicity?

• How long do suspensions and expulsions last? What do the data say regarding the rate of suspensions and the length of sanctions for the various district categories?
Definitions per C.G.S. 10-233a

• **Removal** “means an exclusion from a classroom for all or part of a single class period, provided such exclusion shall not extend beyond ninety minutes.”

• **In-school suspension** “means an exclusion from regular classroom activity for no more than ten consecutive school days, but not exclusion from school...”

• **Out-of-School suspension** “means an exclusion from school privileges or from transportation services only for no more than ten consecutive school days...”

• **Expulsion** “means an exclusion from school privileges for more than ten consecutive school days...”
Background

• October 2008 – Original CSDE Guidelines for ISS and OSS
  • CSDE provided workshops to assist districts in implementation
  • District feedback indicated an interest in gaining ideas and guidance for developing effective ISS programs.
  • Districts expressed an appreciation for the inclusion of case studies and sought additional scenarios to help inform and guide the decision-making process.

• Guidelines revised in December 2010 to help districts implement Connecticut General Statutes Section 10-233c.
  • Section 10-233c aims to lower the number of students who are suspended from school by setting new standards for sending students home for violating school or district rules.
  • The law is not meant to take away a district’s prerogative or need to remove students from school, but rather to urge administrators to think carefully about their decisions, and to find ways to keep students connected to school by placing them in programs designed to keep them learning, while still holding them accountable for improper behavior.
Subsection (g) of C.G.S. Section 10-233c

“Suspensions pursuant to this section shall be in-school suspensions, unless during the hearing held pursuant to subsection (a) of this section, (1) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (2) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (A) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (B) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies.”
What data are collected?

• Discipline data are collected at the incident level. For example, if a 10th grader brings a knife to school and receives an out-of-school suspension, that would be reported to the CSDE as one disciplinary incident (type of incident would be “weapon”) that resulted in one sanction (i.e., out of school suspension).

• The State Assigned Student Identifier (SASID) is collected and verified against PSIS for each student involved in each incident; this ensures data integrity and provides additional data.

• Information regarding the location of the incident, the number of days sanctioned, whether the student was arrested, and whether the incident was a bullying incident (beginning with 2012-13) are also collected.

• Districts are expected to report to the CSDE any incident that results in an ISS, OSS or Expulsion. In addition, all "serious" incidents and those involving Alcohol, Drugs or Weapons must be reported regardless of the type of sanction imposed.
What data are collected? (cont’d)

• Collecting data at this granular level enables determination of:
  • the frequency and triggers for disciplinary incidents;
  • the types of sanctions used for those incidents;
  • the actual unduplicated count of students involved in one or more incidents; and
  • the duration of the sanctions.

• Both incident/sanction level data and the unduplicated number of students involved in those incidents are needed to fully understand the disciplinary practices of a school.

• For example, a student received two in-school suspensions (one in week 10 and another in week 20) and then received one out-of-school suspension (in week 30) from his school; this would be counted as three sanctions but only one student.
TREND IN ISS, OSS, AND EXPULSIONS
Total Number of Sanctions (ISS, OSS, and Expulsions) (duplicated count)
Total Number of Sanctions Disaggregated by ISS, OSS, and Expulsions (duplicated count)
Unduplicated Number of Students Receiving at least one ISS, OSS, or Expulsion

- 2009-10: 50,000
- 2010-11: 45,000
- 2011-12: 45,000
- 2012-13: 40,000
- 2013-14: 40,000
Trend Observations

- Over the past five years, the total number of suspensions (ISS and OSS) and expulsions has reduced by 17.1% from 127,000 in 2009-10 to 105,000 in 2013-14. The individual sanction types have also evidenced reductions during the same period:
  - OSS by 22.7%
  - ISS by 13.2%
  - Expulsions by 10.7%
- The unduplicated count of students receiving at least one suspension or expulsion has also declined by 19.4% from 51,000 in 2009-10 to 41,000 in 2013-14.
WHO IS BEING SUSPENDED/EXPELLED?

This section looks at the unduplicated count of students who are being suspended and/or expelled.
Suspension/Expulsion Rate

Unduplicated number of students receiving at least one ISS, OSS or Expulsion in the fiscal year

Total number of students enrolled per October count
Suspension/Expulsion Rates by Grade Range

Elementary (PK-5)  Middle (6-8)  High (9-12)

- 2011-12
- 2012-13
- 2013-14
Analyses by District Categories

- **Educational (ED) Reform Districts** — 10 districts with the lowest performance statewide. They are Bridgeport, East Hartford, Hartford, Meriden, New Britain, New Haven, New London, Norwich, Waterbury and Windham. These districts are also considered Alliance Districts.

- **Non Ed-Reform Alliance Districts** — There are 30 total Alliance Districts. In addition to the 10 ED Reform Districts, this category includes Ansonia, Bloomfield, Bristol, Danbury, Derby, East Haven, East Windsor, Hamden, Killingly, Manchester, Middletown, Naugatuck, Norwalk, Putnam, Stamford, Vernon, West Haven, Winchester, Windsor and Windsor Locks.

- **All Other LEAs** — All remaining local and regional school districts.

- **Regional Education Service Centers (RESC)** — ACES, CES, CREC, EASTCONN, Education Connection, and LEARN.
Analyses by District Categories

• **Public Charter Schools**

• **Endowed Academies** – They are Norwich Free Academy, The Gilbert School and Woodstock Academy

• **Connecticut Technical High School System**

• **State School Districts** which includes the Unified District #1 (Department of Corrections), Unified District #2 (Department of Children and Families) and Unified District #3 (Department of Developmental Services).
Suspension/Expulsion Rates in the **Elementary Grades (PK-5)** by District Category

- **State Average**
- **Ed-Reform**
- **Non Ed-Reform Alliance**
- **All Other Districts**
- **RESC**
- **Public Charters**

![Bar chart showing suspension/expulsion rates across different categories with years 2011-12, 2012-13, and 2013-14 indicated.]
Suspension/Expulsion Rates in the Middle Grades (6-8) by District Category
Suspension/Expulsion Rates in the High Secondary Grades (9-12) by District Category
Observations

- The overall suspension/expulsion rate has declined from around 9.0% in 2009-10 to 7.5% in 2013-14.

- Suspension/expulsion rates in the middle (10.1%) and high secondary (12.3%) grades are significantly greater than in the elementary grades (3.0%).

- Over the past three years, the rate has declined in the middle and high secondary grades, but has remained flat in the elementary grades.

- The rate in the elementary grades in the Public Charter Schools (14.0%) is almost twice that in the 10 Ed-Reform districts (7.3%), both of which are substantially greater than the state average (3.0%).

- The rate in the middle grades in the 10 Ed-Reform districts (22.3%), the Public Charter Schools (26.3%) the Endowed Academies (18.5%) and the State School Districts (24.3%) are substantially greater than the state average (10.1%). Declines have been noted in all local school district types and the Endowed Academies.

- The rate in the high secondary grades in the Public Charter Schools (29.9%) and in the 10 Ed-Reform districts (25.6%) are substantially greater than the state average (12.3%). A substantial decrease is evidenced in the CT Technical High Schools from 25.4% in 2011-12 to 16.0% in 2013-14. All local school district types have also seen declines in rates.

Suspension/Expulsion Rates by Race/Ethnicity

- American Indian or Alaska Native
- Asian
- Black or African American
- Hispanic Latino of any race
- Native Hawaiian or Other Pacific Islander
- Two or More Races
- White

State Average

2011-12 2012-13 2013-14
Suspension/Expulsion Rates by Race/Ethnicity and Gender, 2013-14

The chart depicts suspension/expulsion rates by race/ethnicity and gender for the years 2013-2014. The races/ethnicities included are Statewide, Asian, Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, Two or More Races, White, American Indian or Alaska Native, and Other Pacific Islander. The gender is indicated by color: blue for female and yellow for male. The rates are shown as percentages.
Similar Pattern of Disparity Exists Within District Categories, 2013-14
Observations

• Gender
  • Suspension/expulsion rate for males is about twice that of females.
  • Similar disproportionality is evidenced in all racial/ethnic groups except Native Hawaiian/Pacific Islander and within all district categories.

• Race/Ethnicity and Gender
  • Suspension/expulsion rates for black and Hispanic males are two to three times that of their White counterparts.
  • Rates for black and Hispanic females are four to six times that of as their White counterparts.
  • Similar disproportionalities are evidenced in all district categories.

Sanctions by Race/Ethnicity (duplicated count), 2013-14

- Black or African American: 15742
- Hispanic/Latino of any race: 15494
- White: 8022
- Other: 1394

ISS: 19562, 21869, 19779, 2372
OSS: 289, 281, 328, 41
EXP: 0, 0, 0, 0
School Policy Violations Sanctions by Race/Ethnicity (duplicated count), 2013-14

- **Black or African American**: 15249, 7108
- **Hispanic/Latino of any race**: 17482, 7596
- **White**: 14338, 3498
- **Other**: 1751, 645

Bars represent different types of sanctions: ISS, OSS, EXP.
Observations

• Two-thirds of all ISS, OSS, and Expulsions statewide result from School Policy Violations. This pattern holds in all district categories except RESCs.

• Black and Hispanic students receive OSS at a greater rate than White students. This pattern remains when only analyzing sanctions stemming from school policy violations.
HOW LONG DO SUSPENSIONS AND EXPULSIONS LAST?

A student who is sanctioned receives, on average, 2.5 sanctions in a year.

*The number days sanctioned for an expulsion is determined pursuant to an expulsion hearing as prescribed in C.G.S 10-233d. Expulsion days may be carried over and served in the next school year.*
Attendance of Students Receiving OSS or Expulsion by Grade Range: Percent of Students (unduplicated) 2013-14

- **Elementary**: 60% Chronically Absent, 30% At-Risk, 10% Satisfactory
- **Middle**: 50% Chronically Absent, 30% At-Risk, 20% Satisfactory
- **High**: 40% Chronically Absent, 30% At-Risk, 30% Satisfactory
Attendance of Students Receiving OSS or Expulsion by Race/Ethnicity: Percent of Students (unduplicated), 2013-14
Attendance of Students Receiving OSS or Expulsion by District Type: Percent of Students (unduplicated), 2013-14

[Bar chart showing attendance percentages for different district types, including Ed-Reform, Non Ed-Reform Alliance, All Other Districts, RESC, Public Charters, Endowed Academies, CT Technical High Schools, and State School Districts. The chart indicates the percentage of students chronically absent, at-risk, and satisfactory.]
Observations

• Public Charter Schools evidence the lowest average number of days sanctioned for OSS and the second lowest rate of chronic absenteeism* for students receiving at least one suspension/expulsion.

• 50 percent of students in the high secondary grades (9-12) who are suspended/expelled are chronically absent (state average chronic absenteeism rate for grades 9-12 is 15.4%). Nearly 30 percent in each of the grade ranges are also at-risk (i.e., missing between 5 and 10 percent of enrolled days).

• Approximately 40 percent of Black and White students and 50 percent of Hispanic students who are suspended/expelled are chronically absent. These rates far exceed the statewide averages for these subgroups (Black 15.7%, Hispanic 18.1% and White 7.2%).

*Chronic absenteeism rate is the percent of students missing 10 percent or greater of the total number of days enrolled in the school year for any reason.

Number of Children (unduplicated) Under Age 7 Sanctioned by Race/Ethnicity and Gender

![Chart showing the number of children under age 7 sanctioned by race/ethnicity and gender from 2011-12 to 2013-14 for Black, White, and Hispanic groups. The chart includes data for males and females in 2011-12, 2012-13, and 2013-14.]
Incident Types Resulting in OSS for Children Under Age 7, 2013-14

- Fighting / Battery: 36.1%
- School Policy Violations: 36.6%
- Physical / Verbal Confrontation / Conduct Unbecoming: 20.7%
- Personally Threatening Behavior: 2.2%
- Other: 4.4%
Observations

• Contrary to the overall trend among all students, the number of OSS is greater than ISS among these young children.

• Of the 1217 young children who were suspended, 926 (76.1%) were Black or Hispanic; 746 (61.3%) were Black or Hispanic boys.

• The number of students receiving at least one ISS or OSS has increased in each of the past two years.
What We Are Learning

• Successful practices in schools achieving substantial reductions in ISS and OSS from 2011-12 to 2013-14 in children under 7:
  • Professional learning for staff on diffusion, de-escalation, behavioral management, reducing challenging behavior, improving communication and repairing relationships
  • Teaching students pro-social skills and self-regulation strategies
  • Addressing disproportionality (Black/Hispanic) and understanding challenges of special education students
  • Shift away from zero-tolerance policies
  • Increased Social Work and Special Education staff

• Community forums, focus groups with parents and students convened to discuss disproportionality in discipline practices
CSDE Actions to Turn the Curve
Professional Learning

- Trainings on Culturally Responsive Pedagogy and Discipline – Bridgeport, Hartford, Waterbury, Manchester, New London, Norwich, CTHSS

- Workshops on Positive School Climate Development (Basic, Advanced, School Climate Team training) – 48 districts

- Positive Behavioral Interventions and Supports (PBIS) trainings through SERC – 39 schools in 3 year cycle
CSDE Actions to Turn the Curve

Internal Collaborations

• Charter School Renewals
  • Assessment of effective behavior management, ISS, OSS and expulsions included in School Performance measures

• Alliance Districts
  • Coordinate actions with Office of Student Supports and Organizational Effectiveness, Performance Office and Turnaround Office:
    • Convene and engage Alliance Districts in positive and effective discipline conversations
    • Incorporate strategic actions in Alliance District Plans to address and reduce suspensions and expulsions
    • Align efforts to reduce chronic absenteeism in Alliance Districts with addressing suspensions and expulsions
CSDE Actions to Turn the Curve Guidance and Partnership Collaborations

• 2nd Revision of the Guidelines for In-School and Out-of-School Suspension: Positive and Effective Discipline – Promoting Equity in Student Engagement and Success

• Engage partners, identify best practices in and provide training on family engagement, mental health referrals, de-escalating confrontation and restorative justice.

• Promising Practices/Partnerships:
  • State-District Partnerships
    • IDEA Indicator 4 Stakeholder Group
  • Community-based partnerships
    • Hartford Public Schools & Hartford Communities that Care, Inc.
  • State agency partnerships
    • School-Based Diversion Initiative (SBDI)
