Professional Development and Evaluation Committee (PDEC)

An effective PDEC is composed of certified teachers, administrators and other appropriate school personnel including representatives selected by the respective bargaining units. Members of a PDEC collaboratively define a shared vision and establish collective responsibility for the development, evaluation and updating of a local comprehensive professional learning plan and participation in the development or adoption of the district educator evaluation and support program. The PDEC designs and regularly updates a comprehensive plan that clearly describes how professional learning is developed, implemented, monitored and evaluated within a district.

A district-level PDEC is required by statute; however, school-based PDECs may also exist. Those educators who sit on the PDEC have and/or gain a fundamental knowledge base about good practice that helps develop and implement their professional learning plan as aligned with the Connecticut Standards for Professional Learning. Members are expected to understand Connecticut’s definition and standards for professional learning. Figure 4 describes what a district and school-based PDEC should know and be able to do when designing and implementing a professional learning plan.

NOTE: This chart should be used as guidance only. This is a tool that provides an opportunity for valuable professional learning as PDEC members work with one another to enhance their district’s professional learning system. PDECs can reference the descriptions below to this to identify clear short-term and long-term goals as a committee. While all items in the chart are important, every district is in a different place and PDECs must identify their current practices based on their district’s context to identify focus areas for the committee’s growth and development.
