

Evidence of Math Practices in Teacher Actions

Math Practice	Evidence
1 Make sense of problems and persevere in solving them.	
2 Reason abstractly and quantitatively.	
3 Construct viable arguments and critique the reasoning of others.	
4 Model with mathematics.	
5 Use appropriate tools strategically.	
6 Attend to precision.	
7 Look for and make use of structure.	
8. Look for and express regularity in repeated reasoning.
