

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

This guidance applies to reimbursable meals and snacks served in child care centers, family day care homes, emergency shelters, at-risk afterschool care centers, and adult day care centers that participate in the U.S. Department of Agriculture's (USDA) Child and Adult Care Food Program (CACFP).

For information on the CACFP meal patterns for children and the CACFP adult meal patterns, visit the Connecticut State Department of Education's (CSDE) [Meal Patterns for the Child and Adult Care Food Program](#) webpage. For information on the crediting requirements, visit the CSDE's [Crediting Foods in the Child and Adult Care Food Program](#) webpage and [Crediting Documentation for the Child Nutrition Programs](#) webpage.

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Exhibit A: Grain Requirements for Child Nutrition Programs

The required quantities for the grains component are in ounce equivalents (oz eq). The USDA's chart, [Exhibit A: Grain Requirements for Child Nutrition Programs](#), summarizes the required quantities for nine groups (A-I) of grain foods.

- Groups A-F include baked goods, such as crackers, breads, rolls, taco shells, muffins, waffles, pancakes, and grain-based desserts, e.g., cookies, cake, granola bars, and pastries. Grain-based desserts are not allowed in the CACFP meal patterns.
- Group H includes cereal grains, such as pasta, rice, cooked breakfast cereals, barley, cornmeal, and quinoa.
- Group I includes ready-to-eat cold breakfast cereals.

The CSDE's resource, [Grain Ounce Equivalents Chart for the Child and Adult Care Food Program](#), indicates the applicable Exhibit A quantities and requirements for the CACFP meal patterns.

The Exhibit A quantities are one of the two methods for determining the oz eq of a grain menu item; the other method is the creditable grains per serving. For guidance on both methods for determining oz eq, refer to the CSDE's resource, [Calculation Methods for Grain Ounce Equivalents in the Child and Adult Care Food Program](#).

### Grain-based desserts

The steps in this document do not apply to grain-based desserts because these foods do not credit in the CACFP meal patterns. Examples include breakfast bars, brownies, cakes (including cupcakes and coffee cakes), cereal bars, cinnamon rolls, cinnamon streusel quick breads, cookies (all kinds, including vanilla wafers), doughnuts, gingerbread, granola bars, ice cream cones, marshmallow cereal treats, pastries (e.g., cinnamon buns, Danish, eclairs, sweet buns, sweet rolls, and toaster pastries) piecrusts in sweet pies (e.g., apple, coconut, blueberry, and pecan), sweet biscotti (such as those made with fruits, chocolate, or icing) sweet bread pudding, sweet croissants (e.g., chocolate filled), sweet scones (e.g., blueberry, raisin, and orange cranberry), and rice pudding.

Sweet crackers (like graham crackers and animal crackers) are not included in the restrictions for grain-based desserts. They may be served at any meal or snack. However, as a best practice, the USDA encourages CACFP menus to limit sweet crackers due to their higher sugar

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

content. The CSDE recommends limiting sweet crackers to no more than twice per week, between all meals and snacks served in the CACFP.

For more information on grain-based desserts, refer to [USDA Memo CACFP 16-2017: Grain-Based Desserts in the Child and Adult Care Food Program](#) and visit the USDA's [Grain-based Desserts in the CACFP](#) webpage.

## Exhibit A Oz Eq Calculation Method

CACFP facilities must know the applicable weight or volume of the grain menu item to use the Exhibit A oz eq calculation method. The oz eq contribution is calculated by dividing the grain menu item's serving weight or volume by the required weight or volume for 1 oz eq for the applicable Exhibit A grain group.

### Commercial products

The serving weight or volume of commercial products is determined from the serving information listed on the Nutrition Facts label or the manufacturer's product formulation statement (PFS). Menu planners cannot use the oz eq chart if the ingredients statement and packaging do not provide sufficient information to determine if the product meets the meal pattern crediting criteria. These products require a PFS.

For guidance on when a PFS is required and what it must include, refer to the CSDE's resources, [When Commercial Grain Products Require a Product Formulation Statement to Credit in the Child and Adult Care Food Program](#) and [Using Product Formulation Statements in the Child and Adult Care Food Program](#). Additional guidance on PFS forms is available in the "[Product Formulation Statements](#)" section of the CSDE's Crediting Documentation for the Child Nutrition Programs webpage.

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Foods made from scratch in groups A-G

To use the oz eq chart for foods made from scratch in groups A-G, CACFP facilities must have a recipe on file that indicates the weight of the prepared (cooked) serving. If the recipe does not provide this information, CACFP facilities must use one of the two methods below.

1. Determine the average serving weight by weighing several portions (refer to the CSDE's [\*Yield Study Data Form for the Child Nutrition Programs\*](#)), then use the oz eq chart.
2. Use the creditable grains method for determining oz eq (refer to the CSDE's resources, [\*Calculation Methods for Grain Ounce Equivalents in the Child and Adult Care Food Program\*](#)).

CACFP facilities cannot use the oz eq chart if the grain menu item's serving weight is not known.

The USDA recommends using standardized recipes because they ensure accurate meal component contributions and document that menus meet the meal pattern requirements.

The USDA defines a standardized recipe as one that has been tried, adapted, and retried at least three times and has been found to produce the same good results and yield every time when the exact procedures are used with the same type of equipment and the same quantity and quality of ingredients.

For information on standardized recipes, refer to the CSDE's [\*Guide to Menu Documentation for the Child and Adult Care Food Program\*](#) and the Institute of Child Nutrition's [\*Recipe Standardization Guide for the Child and Adult Care Food Program\*](#), and visit the "[Standardized Recipes](#)" section of the CSDE's Crediting Documentation for the Child Nutrition Programs webpage.

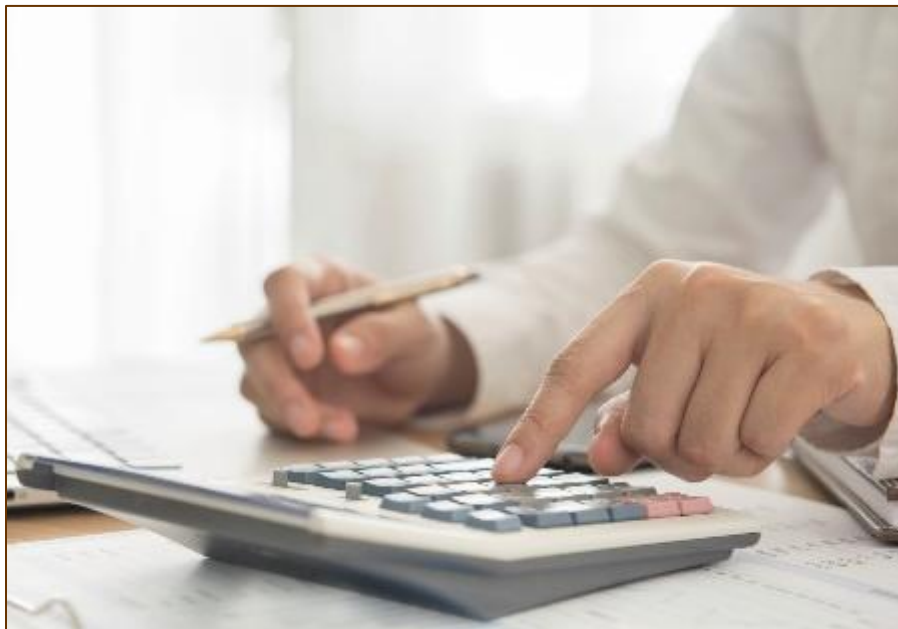

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Rounding rules

CACFP facilities must follow the rounding rules below when calculating the oz eq of a commercial grain product or standardized recipe.

- **Oz eq contribution:** When determining the oz eq of a grain food, always round down to the nearest  $\frac{1}{4}$  oz eq. For example, if the calculation indicates that a bagel contains 1.49 oz eq, round down to 1.25 oz eq.
- **Number of pieces per serving:** When determining the number of pieces needed to credit as 1 oz eq, always round up to the next whole number. For example, if the calculation indicates that 6.7 pretzels credit as 1 oz eq, round up to 7 pretzels.

Menu planners must use the appropriate rounding rule to correctly calculate the grain item's oz eq contribution.

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Overview of Crediting Examples

The examples on pages 6-8 show the steps for using the Exhibit A quantities in the CSDE's oz eq chart to determine the oz eq contribution of grain menu items in groups A-G. These steps are used for commercial grain products and may also be used for recipes if the menu planner knows the weight of the prepared (cooked) serving (refer to "[Foods made from scratch in groups A-G](#)" in this document).

The examples include three different categories of commercial products and standardized recipes: 1) grain items that contain multiple small pieces per serving, such as crackers, hard pretzels, and animal crackers; 2) grain items that contain multiple large pieces per serving, such as pancakes, slices of bread, and waffles; and 3) grain items that contain one piece per serving, such as muffins, bagels, and rolls. The calculation steps are different for each category.

Before determining a menu item's oz eq, menu planners should check that the commercial grain product or recipe is creditable, i.e., whole grain-rich (WGR) or enriched.

## Guidance on identifying WGR and enriched grains

Guidance on identifying WGR and enriched grains is available in the CSDE's [Guide to Meeting the Whole Grain-rich Requirement for the Child and Adult Care Food Program](#) and the CSDE's resources, [Crediting Whole Grains in the Child and Adult Care Food Program](#), [Crediting Enriched Grains in the Child and Adult Care Food Program](#), [Crediting Breakfast Cereals in the Child and Adult Care Food Program](#), and [How to Identify Creditable Grains for the Child and Adult Care Food Program](#).

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Example for Category 1: Multiple Small Pieces Per Serving

For grain items that contain multiple small pieces per serving (such as crackers, hard pretzels, and animal crackers), calculate the number of pieces per oz eq by dividing the required weight (grams) for 1 oz eq of the applicable grain group listed in Exhibit A by the grams per piece. The steps below show an example of this calculation for whole grain-rich crackers in group A.

### Whole Grain-rich Crackers (Group A)

- Serving size: 6 crackers (28 g)

### Exhibit A Oz Eq for Group A

- 1 oz eq = 22 grams or 0.8 ounce

### Steps for Determining Oz Eq for Category 1

1. **Grams per manufacturer's serving:** List the manufacturer's serving size in grams (g) from the Nutrition Facts label or PFS: 28 grams
2. **Pieces per manufacturer's serving:** List the number of pieces per manufacturer's serving from the Nutrition Facts label or PFS: 6 pieces
3. **Calculate grams per piece:** Divide grams per serving (step 1) by pieces per serving (step 2): 28 grams divided by 6 pieces = 4.67 grams per piece
4. **Required weight for 1 oz eq:** List the required weight for 1 oz eq for the product's group (A-G) in Exhibit A. 22 grams
5. **Calculate number of pieces per oz eq:** Divide the required weight for 1 oz eq (step 4) by the grams per piece (step 3): 22 grams divided by 4.67 grams per piece = 4.7 pieces per oz eq
6. **Round up to next whole number:** 5 pieces (crackers) = 1 oz eq

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Example for Category 2: Multiple Large Pieces Per Serving

For grain items that contain multiple large pieces per serving (such as pancakes, slices of bread, and waffles), calculate the oz eq contribution per piece by dividing the required weight (grams) for 1 oz eq of the applicable grain group listed in Exhibit A by the grams per piece. The steps below show an example of this calculation for enriched pancakes in group C.

### Enriched Pancakes (Group C)

- Serving size: 3 pancakes (116 g)

### Exhibit A Oz Eq for Group C

- 1 oz eq = 34 grams or 1.2 ounces

### Steps for Determining Oz Eq for Category 2

1. **Grams per manufacturer's serving:** List the manufacturer's serving size in grams (g) from the Nutrition Facts label or PFS: 116 grams
2. **Pieces per manufacturer's serving:** List the number of pieces per manufacturer's serving from the Nutrition Facts label or PFS: 3 pieces
3. **Calculate grams per piece:** Divide grams per manufacturer's serving (step 1) by pieces per manufacturer's serving (step 2): 116 grams divided by 3 pieces = 38.67 grams per piece
4. **Required weight for 1 oz eq:** List the required weight for 1 oz eq for the product's group (A-G) in Exhibit A. 34 grams
5. **Calculate oz eq per piece:** Divide grams per piece (step 3) by required weight for 1 oz eq (step 4): 38.67 grams divided by 34 grams = 1.14 oz eq per piece
6. **Round down to nearest ¼ oz eq:** 1 oz eq per piece (1 pancake)

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

## Example for Category 3: One Piece Per Serving

For grain items that contain one piece per serving (such as muffins, bagels, and rolls), calculate the oz eq contribution per serving by dividing the grams per serving by the required weight (grams) for 1 oz eq of the applicable grain group listed in Exhibit A. The steps below show an example of this calculation for whole grain-rich blueberry muffin in group D.

### Whole Grain-rich Blueberry Muffin (Group D)

- Serving size: 1 muffin (57 g)

### Exhibit A Oz Eq for Group D

- 1 oz eq = 55 grams or 2 ounces

### Steps for Determining Oz Eq for Category 3

1. **Grams per manufacturer's serving:** List the serving size in grams (g) from the Nutrition Facts label or PFS: 57 grams
2. **Required weight for 1 oz eq:** List the required weight for 1 oz eq for the product's group (A-G) in Exhibit A: 55 grams
3. **Calculate oz eq per serving:** Divide the grams per manufacturer's serving (step 1) by the required weight for 1 oz eq (step 2): 57 grams divided by 55 grams= 1.04 oz eq per muffin
4. **Round down to the nearest ¼ oz eq:** 1 oz eq per muffin

## Grain Crediting Tools

The USDA's online [Food Buying Guide Interactive Web-based Tool](#) provides several resources to help menu planners determine crediting information. The Exhibit A Grains Tool determines the oz eq of commercial grain products. The Recipe Analysis Workbook (RAW) allows menu planners to search for ingredients, develop a standardized recipe, and determine the meal pattern contribution per serving. To access this tool, users must create a free account on the USDA's FBG website.

For more information on oz eq, refer to "[Serving Requirements](#)" in the "Grains" section of the CSDE's Crediting Foods in School Nutrition Programs webpage.

# How to Use the Grain Ounce Equivalents Chart for the Child and Adult Care Food Program

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture  
Office of the Assistant Secretary for Civil Rights  
1400 Independence Avenue, SW  
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
3. email: [program.intake@usda.gov](mailto:program.intake@usda.gov)

This institution is an equal opportunity provider.

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems, gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education's nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email [louis.todisco@ct.gov](mailto:louis.todisco@ct.gov)
