

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

This document summarizes the U.S. Department of Agriculture's (USDA) Smart Snacks nutrition standards for competitive foods in schools required by the USDA's final rule, *National School Lunch Program and School Breakfast Program: Nutrition Standards for All Foods Sold in School as Required by the HHSFKA of 2010* (Federal Register, Vol. 81, No. 146, July 29, 2016). The Smart Snacks nutrition standards apply to all competitive foods sold to students during the school day in all areas of the school campus and in all schools that participate in the National School Lunch Program (NSLP) and School Breakfast Program (SBP), including public schools, private schools, and residential child care institutions (RCCIs).

- “Competitive foods” are all foods and beverages available for sale to students on the school campus during the school day, other than meals served in the USDA’s school nutrition programs. This includes cafeterias, vending machines, school stores, fundraisers, and any other sources where foods and beverages are available for sale to students. **Note:** Some state requirements are stricter and supersede the Smart Snacks requirements for competitive foods (refer to “[Additional State Requirements for Competitive Foods](#)” and “[Additional state beverage requirements for public schools](#)” in this document).
- “Sale” means the exchange of foods and beverages for a determined amount of money or its equivalent, such as tickets, coupons, tokens, and similar items. If students can redeem tickets, tokens, or similar items for foods and beverages, all foods and beverages must comply with Smart Snacks. Sales also include any activities that suggest a student donation in exchange for foods and beverages.
- The “school day” is the period from midnight before to 30 minutes after the end of the official school day.
- The “school campus” is all areas of the property under the jurisdiction of the school that are accessible to students during the school day.

The Smart Snacks standards include three categories: 1) entrees sold only a la carte; 2) snacks and side dishes; and 3) beverages. The food standards are the same for all grades. They include general standards (refer to [table 1](#)) and specific nutrient standards for calories, fat, saturated fat, trans fat, sugar, sodium, and caffeine (refer to [table 2](#) for snacks and side dishes, and [table 3](#) for entrees sold only a la carte). The beverage standards include different categories and portion size limits for elementary, middle, and high schools (refer to [table 4](#)). To be allowed for sale to students:

- competitive foods must meet at least one general standard and all nutrient standards; and
- competitive beverages must meet the category requirements and portion size limits.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Foods and beverages are evaluated for compliance with Smart Snacks based on the amount of the food/beverage item as served, including any added accompaniments such as butter, cream cheese, syrup, ketchup, mustard, and salad dressing. Some food categories have exemptions for specific nutrient-rich foods that are naturally higher in fat (such as reduced-fat cheese, seafood, nuts, seeds, and whole eggs) or sugars (such as dried fruit). If applicable, these are indicated in the “Exemptions” column for each standard. There are no exemptions for the beverage categories.

The CSDE’s guides for competitive foods (*Guide to Competitive Foods in Non-HFC Public Schools*; and *Guide to Competitive Foods in Private Schools and Residential Child Care Institutions*) provide detailed information on how the state and federal requirements apply to sales of foods and beverages. The CSDE’s [List of Acceptable Foods and Beverages](#) webpage identifies foods and beverages that comply with the federal and state requirements.

Requirements for Fundraisers

The Smart Snacks nutrition standards apply to all fundraisers selling foods and beverages to students on school campus during the school day. “Fundraisers” are any activities during which money or its equivalent (such as tickets, coupons, tokens, and similar items) is exchanged for the purchase of a product in support of the school or school-related activities. This includes any activities that suggest a student donation in exchange for foods and beverages, since funds may be raised as a result.

- Foods and beverages that comply with the Smart Snacks standards can be sold at fundraisers on school campus during school hours, provided they comply with the state competitive foods regulations and any additional state restrictions.
- Foods and beverages that do not comply with the Smart Snacks standards can only be sold at fundraisers on the school campus after the end of the school day, provided they comply with any additional state restrictions.
- The Smart Snacks standards do not apply to foods and beverages sold during non-school hours, weekends, or off-campus fundraising events. However, some additional state restrictions apply.

For more information on the state restrictions for competitive foods, refer to “[Additional State Requirements for Competitive Foods](#)” in this document. For detailed guidance on complying with the Smart Snacks fundraiser requirements, refer to the CSDE’s competitive foods guide for the appropriate type of school or institution: *Guide to Competitive Foods in Non-HFC Public Schools* and *Guide to Competitive Foods in Private Schools and Residential Child Care Institutions*.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Additional State Requirements for Competitive Foods

Some stricter provisions of Connecticut statutes and regulations supersede Smart Snacks and require additional restrictions for foods and beverages sold to students in schools.

- **Public schools** that choose the healthy food option of Connecticut’s Healthy Food Certification (HFC) under [Section 10-215f](#) of the Connecticut General Statutes (C.G.S.) must comply with the Connecticut Nutrition Standards (CNS), which exceeds Smart Snacks. HFC public schools must also comply with the Smart Snacks beverage standards and the stricter provisions of state statutes and regulations, including the state beverage statute (C.G.S. [Section 10-221q](#)), the state statute requiring healthy food choices (C.G.S. [Section 10-221p](#)), and the [state competitive foods regulations](#) (Sections 10-215b-1 and 10-215b-23 of the Regulations of Connecticut State Agencies). For more information, refer to the CSDE’s *Allowable Beverages in Connecticut Public Schools*, *Overview of Connecticut Competitive Foods Regulations*, and *Requirements for Competitive Foods in HFC Public Schools*.
- **Non-HFC public schools** must comply with the Smart Snacks standards for foods and beverages and the stricter provisions of state statutes and regulations, including the state beverage statute (C.G.S. [Section 10-221q](#)), the state statute requiring healthy food choices (C.G.S. [Section 10-221p](#)), and the [state competitive foods regulations](#) (Sections 10-215b-1 and 10-215b-23 of the Regulations of Connecticut State Agencies). For more information, refer to the CSDE’s *Allowable Beverages in Connecticut Public Schools*, *Overview of Connecticut Competitive Foods Regulations*, and *Requirements for Competitive Foods in Non-HFC Public Schools*.
- **Private schools and RCCIs** must comply with the Smart Snacks standards for foods and beverages and the stricter provisions of the [state competitive foods regulations](#) (Sections 10-215b-1 and 10-215b-23 of the Regulations of Connecticut State Agencies). For more information, refer to the CSDE’s *Overview of Connecticut Competitive Foods Regulations* and *Requirements for Competitive Foods in Private Schools and RCCIs*.

For more information, visit the CSDE’s [HFC](#), [CNS](#), and [Beverage Requirements](#) webpages. The CSDE’s guides for competitive foods provide detailed guidance on complying with the state and federal requirements for competitive foods for each type of school or institution guides (refer to “[Resources](#)” in this document).

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

General Standards for Foods

The general standards in table 1 apply to all competitive foods in the categories of entrees sold only a la carte and side dishes. Entree items offered as part of the NSLP or SBP are exempt from all competitive food standards if they are sold as a competitive food on the day of service or the day after service in the lunch or breakfast program, and are offered in the same or smaller portion sizes as the NSLP and SBP, and with the same accompaniments. For information on the nutrient standards for entrees, refer to [table 3](#).

Table 1. General standards for competitive foods	
Standard	Exemptions
<p>To be allowable, a competitive food item must meet all of the competitive food nutrient standards (refer to table 2 and table 3) AND:</p> <ol style="list-style-type: none"> 1. be a grain product that contains 50 percent or more whole grains by weight or has whole grains as the first ingredient*; OR 2. have as the first ingredient* one of the non-grain main food groups: fruits, vegetables, dairy, or protein foods (meat, beans, poultry, seafood, eggs, nuts, seeds, etc.); OR 3. be a combination food that contains at least ¼ cup fruit and/or vegetable. <p>* If water is the first ingredient, the second ingredient must be one of the above.</p>	<ul style="list-style-type: none"> • Fresh fruits and vegetables with no added ingredients except water are exempt from all nutrient standards. • Canned and frozen fruits with no added ingredients except water, or that are packed in 100 percent juice, extra light syrup, or light syrup, are exempt from all nutrient standards. • Low sodium/no salt added canned vegetables with no added fats are exempt from all nutrient standards.

Public schools that choose to implement the healthy food option of HFC under C.G.S. [Section 10-215f](#) must comply with the CNS instead of the USDA Smart Snacks standards. For more information, visit the CSDE's [CNS](#) and [HFC](#) webpages.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Nutrient Standards for Foods

The nutrient standards in table 2 apply to all competitive foods in the category of snacks and side dishes. This category includes all foods that do not meet the definition of entree items. Examples include, but are not limited to:

- fruits and vegetables (fresh, frozen, canned, and dried);
- pasta, rice, and cooked cereal grains, e.g., quinoa, bulgur, and bulgur;
- snack foods such as chips, crackers, popcorn, rice cakes, hard pretzels, pita chips, snack mix, and trail mix;
- breakfast cereals, e.g., cold ready-to-eat (RTE) cereals and cooked hot cereals such as oatmeal;
- nuts and seeds;
- peanut butter and other nut butters, e.g., almond butter and sunflower seed butter;
- dried meat snacks, e.g., beef jerky and meat sticks;
- bakery items, e.g., pastries, toaster pastries, muffins, waffles, pancakes, French toast, soft pretzels, rolls, and buns;
- desserts, e.g., cookies, brownies, cake, pie, and pudding;
- frozen desserts, e.g., frozen fruit bars, ice cream, and ice cream novelties;
- cereal bars and granola bars;
- cheese, e.g., low fat cheese sticks and low-fat cheese cubes;
- yogurt and soy yogurt; and
- school-made fruit/vegetable smoothies. **Note:** Smoothies that also contain a meat/meat alternate such as yogurt or peanut butter meet the entree definition (refer to [table 3](#)).

Exemption for sugar-free chewing gum

Sugar-free chewing gum is exempt from all Smart Snacks standards, provided the sales comply with the state competitive foods regulations. Section 10-215b-23 of the Regulations of Connecticut State Agencies requires that the income from any foods and beverages sold to students anywhere on school premises from 30 minutes before up through 30 minutes after any of the USDA's school nutrition programs must accrue to the nonprofit food service account. For more information, refer to the CSDE's [Overview of Connecticut Competitive Foods Regulations](#), the CSDE's guides for competitive foods (refer to "[Resources](#)" in this document), and [CSDE Operational Memorandum No. 1-18: Accrual of Income from Sales of Competitive Foods in Schools](#).

Public schools that choose to implement the healthy food option of HFC under C.G.S. [Section 10-215f](#) must comply with the CNS instead of the USDA Smart Snacks standards. For more information, visit the CSDE's [CNS](#) and [HFC](#) webpages.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 2. Nutrient standards for snacks and side dishes

Snacks and side dishes are evaluated for compliance with the Smart Snacks nutrient standards based on the amount of the food item as served, including any added accompaniments such as butter, margarine, oil, cream cheese, jam, jelly, syrup, sugar, salt, ketchup, mustard, relish, salad dressing, barbeque sauce, gravy, dipping sauce, sour cream, and whipped cream.

Standard	Exemptions
Calories: No more than 200 calories per item as served, including any added accompaniments such as butter, cream cheese, and salad dressing.	Entree items served as a NSLP or SBP entree are exempt on the day of or day after service in the program meal.
Total fat: No more than 35 percent of calories from total fat as served, including any added accompaniments.	<ul style="list-style-type: none"> • Reduced fat cheese (including part-skim mozzarella) is exempt from the total fat standard. • Nuts and seeds and nut/seed butters are exempt from the total fat standard. • Products consisting of only dried fruit with nuts and/or seeds with no added nutritive sweeteners or fats are exempt from the total fat standard. • Seafood with no added fat is exempt from the total fat standard. • Whole eggs without added fat are exempt from the total fat standard. <p>Combination products other than paired exempt foods are not exempt and must meet all the nutrient standards.</p>

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 2. Nutrient standards for standards for snacks and side dishes, <i>continued</i>	
Standard	Exemptions
<p>Saturated fat: Less than 10 percent of calories from saturated fat as served, including any added accompaniments.</p>	<ul style="list-style-type: none"> • Reduced fat cheese (including part-skim mozzarella) is exempt from the saturated fat standard. • Nuts and seeds and nut/seed butters are exempt from the saturated fat standard. • Products consisting of only dried fruit with nuts and/or seeds with no added nutritive sweeteners or fats are exempt from the saturated fat standard. • Whole eggs without added fat are exempt from the saturated fat standard. <p>Combination products other than paired exempt foods are not exempt and must meet all the nutrient standards.</p>
<p>Trans fat: Zero grams of trans fat as served (no more than 0.5 gram per portion), including any added accompaniments.</p>	<p>None</p>
<p>Sugar: No more than 35 percent of weight from total sugar, as served.</p>	<ul style="list-style-type: none"> • Dried whole fruits or vegetables; dried whole fruit or vegetable pieces; and dehydrated fruits or vegetables with no added nutritive sweeteners are exempt from the sugar standard. • Dried whole fruits or pieces, with nutritive sweeteners that are required for processing and/or palatability purposes (i.e., dried cranberries, tart cherries, or blueberries) are exempt from the sugar standard. • Products consisting of only exempt dried fruit with nuts and/or seeds with no added nutritive sweeteners or fats are exempt from the sugar standard.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 2. Nutrient standards for standards for snacks and side dishes, <i>continued</i>	
Standard	Exemptions
Sodium: No more than 200 milligrams of sodium per item as served, including any added accompaniments.	None
Accompaniments: Use of accompaniments is limited when competitive food is sold to students in school. The accompaniment must be included in the nutrient profile as part of the food item served and meet all proposed standards. Examples of accompaniments include butter, margarine, oil, cream cheese, jam, jelly, syrup, sugar, salt, ketchup, mustard, relish, salad dressing, barbeque sauce, gravy, dipping sauce, sour cream, and whipped cream.	None
Caffeine <ul style="list-style-type: none"> • Elementary and Middle Schools: Foods and beverages must be caffeine-free with the exception of trace amounts of naturally occurring caffeine substances. • High School: Foods and beverages may contain caffeine. * <p>* Public schools: The stricter caffeine standards of C.G.S. Section 10-221q supersede the Smart Snacks beverage standards. The state beverage statute prohibits sales of caffeinated beverages (such as tea and coffee) to students in public schools at all times, unless the beverages meet specific exemption criteria. For more information, refer to “Additional state beverage requirements for public schools” in this document and visit the CSDE’s Beverage Requirements webpage.</p>	None

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 3. Nutrient standards for entrees sold only a la carte

Any entree item offered as part of the NSLP or SBP is exempt from all competitive food standards if it is sold as a competitive food on the day of service or the day after service in the lunch or breakfast program. Exempt entrees that are sold as competitive foods must be offered in the same or smaller portion sizes as the NSLP and SBP, and with the same accompaniments. Entrees are evaluated for compliance with the Smart Snacks nutrient standards based on the amount of the food item **as served**, including any added accompaniments such as butter, margarine, oil, cream cheese, jam, jelly, syrup, sugar, salt, ketchup, mustard, relish, salad dressing, barbeque sauce, gravy, dipping sauce, sour cream, and whipped cream.

An “entree item” is a main dish food from one of following three categories:

- a combination food of meat/meat alternate and whole grain-rich food;
- a combination food of vegetable/fruit and meat/meat alternate; or
- a meat/meat alternate alone, with the exception of yogurt, low-fat or reduced fat cheese, nuts, seeds, nut and seed butters and meat snacks.

School-made fruit/vegetable smoothies that also contain a meat/meat alternate such as yogurt or peanut butter meet the entree definition.

Grain-only items at breakfast: At **breakfast only**, the entree definition also includes whole grain-rich grain-only items, such as bagels, muffins, and waffles. Schools can determine which grain-only items are defined as entree items for breakfasts offered as part of the SBP.

Standard	Exemptions
Calories: No more than 350 calories per item as served including any added accompaniments.	Entree items served as a NSLP or SBP entree are exempt on the day of or day after service in the program meal.
Total fat: No more than 35 percent of calories from total fat as served including any added accompaniments.	Seafood with no added fat is exempt from the total fat standard.
Saturated fat: Less than 10 percent of calories from saturated fat as served including any added accompaniments.	None

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 3. Nutrient standards for entrees sold only a la carte, *continued*

Standard	Exemptions
Trans fat: Zero grams of trans fat as served (no more than 0.5 gram per portion) including any added accompaniments.	None
Sugar: No more than 35 percent of weight from total sugar as served.	None
Sodium: No more than 480 milligrams of sodium per item as served including any added accompaniments.	None
<p>Caffeine Elementary and middle school: Foods and beverages must be caffeine-free with the exception of trace amounts of naturally occurring caffeine substances. *</p> <p>* Public schools: The stricter caffeine standards of C.G.S. Section 10-221q supersede the Smart Snacks beverage standards. The state beverage statute prohibits sales of caffeinated beverages (such as tea and coffee) to students in public schools at all times, unless the beverages meet criteria. For more information, refer to “Additional state beverage requirements for public schools” in this document and visit the CSDE’s Beverage Requirements webpage.</p>	None

Nutrient Standards for Beverages

The Smart Snacks nutrition standards define five categories of beverages that may be sold to elementary and middle students, and seven categories of beverages that may be sold to high school students. There are no exemptions to these beverage categories.

For **high schools only**, no calorie or low-calorie beverages in the category of “flavored and/or carbonated beverages” are evaluated for compliance with the Smarts Snacks nutrition standards based on the amount of the beverage item as served, including any added accompaniments, e.g., coffee with milk, cream and sugar, tea with milk, cream and honey, and hot chocolate with milk and marshmallows.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Private schools and RCCIs must comply with the Smart Snacks beverage standards. Public schools (HFC and non-HFC) must comply with the Smart Snacks beverage standards and the stricter provisions of the additional state beverage requirements indicated below.

Additional state beverage requirements for public schools

In addition to complying with Smart Snacks, all Connecticut public school districts must comply with the state beverage requirements of C.G.S. [Section 10-221q](#). Some stricter provisions of the state beverage statute supersede the Smart Snacks beverage standards. **Beverages that do not comply with C.G.S. Section 10-221q cannot be sold to students in public schools even if they meet the Smart Snacks standards.** This statute does not apply to private schools or RCCIs.

The Smart Snacks beverage standards apply only to beverages sold to students separately from school meals during the school day, in schools and institutions that participate in the USDA's school nutrition programs. The state beverage statute applies to all public schools, regardless of whether they participate in the USDA's school nutrition programs, and to all beverages available for sale to students at all times, either as part of school meals or separately from school meals.

Beverages that do not meet the requirements of state statute can only be sold to students in public schools if the local board of education or school governing authority votes to allow exemptions, and the beverages are sold at the location of an event that occurs after the school day or on the weekend, provided they are not sold from a vending machine or school store. An "event" is an occurrence that involves more than just a regularly scheduled practice, meeting, or extracurricular activity, e.g., soccer games, school plays, and school debates are events but soccer practices, play rehearsals, and debate team meetings are not. For more information on beverage exemptions, refer to the CSDE's resource, [Exemptions for Foods and Beverages in Public Schools](#).

For more information on the state beverage requirements for public schools, refer to the CSDE's [Allowable Beverages in Connecticut Schools](#) and visit the CSDE's [Beverage Requirements](#) webpage. The CSDE's guides for competitive foods (refer to "[Resources](#)" in this document) provide detailed guidance on complying with the state and federal requirements for beverages in schools.

Beverages that comply with federal and state requirements are included on the CSDE's [List of Acceptable Foods and Beverages](#) webpage.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 4. Standards and portion size limits for beverages

Beverage category	Elementary	Middle	High	Additional state requirements for public schools (C.G.S. Section 10-221q) ¹
Water, plain, with or without carbonation	Unlimited	Unlimited	Unlimited	Cannot contain added sugars, sweeteners, artificial sweeteners, or caffeine.
Milk, low-fat and fat-free, unflavored or unflavored, including nutritionally equivalent milk alternatives permitted by the school meal requirements	8 fluid ounces (fl oz)	12 fl oz	12 fl oz	<ul style="list-style-type: none"> • Milk cannot exceed 4 grams of sugar per ounce and cannot contain artificial sweeteners. • Nondairy milk alternatives cannot contain artificial sweeteners and cannot exceed 4 grams of sugar per ounce, 35 percent of calories from fat, and 10 percent of calories from saturated fat. For more information on allowable products, refer to the CSDE's <i>Allowable Milk Substitutions for Children without Disabilities in School Nutrition Programs</i>.
100% fruit or vegetable juice, with or without carbonation	8 fl oz	12 fl oz	12 fl oz	Cannot contain added sugars, sweeteners, or artificial sweeteners.
100% fruit or vegetable juice diluted with water and no added sweeteners, with or without carbonation	8 fl oz	12 fl oz	12 fl oz	Cannot contain added sugars, sweeteners, or artificial sweeteners, and must also meet the requirements specified in the CSDE's <i>Requirements for Beverages Containing Water and Juice</i> .

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 5. Definitions

a la carte sales (also known as “competitive foods”): Foods and beverages that are sold separately from reimbursable meals in the USDA’s school nutrition programs. A la carte items include, but are not limited to, foods and beverages sold in the cafeteria serving lines, a la carte lines, kiosks, vending machines, school stores, and snack bars located anywhere on school grounds.

artificial sweeteners: A category of nonnutritive sweeteners used as sugar substitutes to sweeten foods and beverages. The six artificial sweeteners approved by the Food and Drug Administration (FDA) include acesulfame potassium (Ace-K) (e.g., Sweet One®, Sunett®, and Sweet & Safe®); advantame; aspartame (e.g., Nutrasweet®, Equal®, and Sugar Twin®); neotame (e.g., Newtame®); saccharin (e.g., Sweet and Low®, Sweet Twin®, and Necta Sweet); and sucralose (Splenda®). These nonnutritive sweeteners are calorie-free except for aspartame, which is very low in calories

competitive foods (applies to Smart Snacks only): All foods and beverages available for sale to students on the school campus during the school day, other than meals served in the USDA’s school nutrition programs. This includes cafeterias, vending machines, school stores, fundraisers, and any other sources where foods and beverages are available for sale to students. **Note:** Some state requirements are stricter and supersede the Smart Snacks requirements for competitive foods (refer to “[Additional State Requirements for Competitive Foods](#)” and “[Additional state beverage requirements for public schools](#)” in this document).

entree items (applies to Smart Snacks only): A main dish food item that belongs to one of the following three categories: 1) a combination food of meat/meat alternate and whole grain-rich food; 2) a combination food of vegetable/fruit and meat/meat alternate; and 3) a meat/meat alternate alone, except for yogurt, low-fat or reduced fat cheese, nuts, seeds, nut and seed butters, and meat snacks. At breakfast only, the entree definition also includes whole grain-rich grain-only items, such as bagels, muffins, and waffles.

nonnutritive sweeteners: Ingredients without calories that are hundreds of times sweeter than sugars and that are used as sugar substitutes to sweeten foods and beverages. Nonnutritive sweeteners include the six FDA-approved artificial sweeteners (acesulfame potassium (Ace-K), advantame, aspartame, neotame, saccharin, and sucralose) and three plant-based sweeteners (stevia, monk fruit, and thaumatin) that are [Generally Recognized as Safe \(GRAS\)](#) by the FDA. For more information on nonnutritive sweeteners, refer to “[Additional Information about High-Intensity Sweeteners Permitted for Use in Food in the United States](#)” on the FDA’s webpage.

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

Table 5. Definitions, *continued*

paired exempt foods(applyes to Smart Snacks only): Foods that when packaged together and sold with other products (without added ingredients) retain their individually designated exemption for total fat, saturated fat, and sugar. For example, peanut butter is exempt from the total fat and saturated fat requirements. When peanut butter is paired with a vegetable or fruit, such as celery or apples, the paired snack retains the total fat and saturated fat exemptions and may be served if the calorie and sodium limits are met. For more information, refer to [CSDE Operational Memorandum No. 59-14: *Smart Snacks Standards for Exempt Foods when Paired Together*](#).

portion size: The amount of the item as packaged or served. The individual serving size or package cannot exceed 480 calories for entrees or 200 calories for all other foods.

reimbursable school meal: A meal that meets the requirements of the USDA’s National School Lunch Program (NSLP) or School Breakfast Program (SBP).

Sale (applyes to Smart Snacks only): The exchange of foods and beverages for a determined amount of money or its equivalent, such as tickets, coupons, tokens, and similar items. If students can redeem tickets, tokens, or similar items for foods and beverages, all foods and beverages must comply with Smart Snacks. Sales also include any activities that suggest a student donation in exchange for foods and beverages.

school day: The period from midnight before to 30 minutes after the end of the official school day.

school campus: All areas of the property under the jurisdiction of the school that are accessible to students during the school day.

total sugars: All sources of sugars including the naturally occurring sugars in foods (such as fruits, vegetables, and milk) and sugars added to foods (e.g., brown sugar, corn sweetener, corn syrup, dextrose, fructose, glucose, high fructose corn syrup, honey, invert sugar, lactose, malt syrup, maltose, molasses, raw sugar, sucrose, sugar, and syrup).

Summary of Smart Snacks Nutrition Standards for Competitive Foods in Schools

For more information, visit the CSDE's [Smart Snacks Nutrition Standards](#) and [Beverage Requirements](#) webpages or contact the [school nutrition programs staff](#) at the Connecticut State Department of Education, Bureau of Child Nutrition Programs, 450 Columbus Boulevard, Suite 504, Hartford, CT 06103-1841.

This document is available at https://portal.ct.gov/-/media/SDE/Nutrition/CompFoods/Summary_Smart_Snacks_Nutrition_Standards.pdf.

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/ad-3027.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail: U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or
2. fax: (833) 256-1665 or (202) 690-7442; or
3. email: program.intake@usda.gov

This institution is an equal opportunity provider.

The Connecticut State Department of Education is committed to a policy of equal opportunity/affirmative action for all qualified persons. The Connecticut Department of Education does not discriminate in any employment practice, education program, or educational activity on the basis of race; color; religious creed; age; sex; pregnancy; sexual orientation; workplace hazards to reproductive systems, gender identity or expression; marital status; national origin; ancestry; retaliation for previously opposed discrimination or coercion, intellectual disability; genetic information; learning disability; physical disability (including, but not limited to, blindness); mental disability (past/present history thereof); military or veteran status; status as a victim of domestic violence; or criminal record in state employment, unless there is a bona fide occupational qualification excluding persons in any of the aforementioned protected classes. Inquiries regarding the Connecticut State Department of Education's nondiscrimination policies should be directed to: Attorney Louis Todisco, Connecticut State Department of Education, by mail 450 Columbus Boulevard, Hartford, CT 06103-1841; or by telephone 860-713-6594; or by email louis.todisco@ct.gov.
