The Student Listing

Once you log in, the system will list the kindergarten students in your school. The list is sorted alphabetically by last name then first name. **To quickly locate a student**, you may enter their first or last name in the search box and click the SEARCH button. Use the **SHOW ALL** link to reset the list to all students. The system will highlight the names if found. Note that all kindergarten students in the school will be listed. If there are multiple kindergarten classes in your school, you will all share the login but should only add performance levels for your own students.

The screenshot shows the 'Kindergarten Inventory' page for Andover Elementary School, Andover School District. It features a search bar with a 'Search (*)' button and a 'Show all' link. Below the search bar are radio buttons for 'Exact phrase', 'All words', and 'Any word'. A table titled 'Add a student' displays a list of students with columns for SASID, Last Name, First Name, Middle Name, Birthdate, Gender, Status, Enrollment Status, Teacher, View, and Done. The table contains 18 rows of student data. At the bottom of the table, there is a page navigation bar showing 'Page 1 of 1' and 'Records Per Page 20'.

Enrollment Status

Enrollment: If a student appears on the list, but is no longer enrolled in your school, click the 'Enrolled' link next to their name and change their enrollment to 'Not enrolled.' You will need to confirm the change of enrollment.

Once you change a student's enrollment status, you may not change it back, nor can you enter in any Performance Levels. You must contact your district liaison to reset any changes to enrollment.

Last Name *	Smith
First Name *	Amanda
Middle Name *	J.
Enrollment *	<input checked="" type="radio"/> Enrolled <input type="radio"/> Not enrolled

or [Cancel and Go Back](#)

Change the enrollment and click **SUBMIT**; you will then need to confirm your change by clicking **CONFIRM**.

PLEASE CONFIRM this change of enrollment.
 Once you mark this student as "Not enrolled", you can not change it back!

Adding a Student

If you cannot find a currently enrolled student in the list, click the **ADD** link (above the listing) to add a student to the database. All fields (except middle name) are required, including the student's 10-digit SASID, and the birthdate must be entered as mm/dd/yyyy. Click **ADD**, then click **CONFIRM** to add the student to the database. Once they are added to the database, you can enter their performance levels. (See the section "**Entering Performance Levels.**") Please note you will need the student's SASID when entering them into the system.

Entering Performance Levels

To enter a student's performance levels, click the **ADD PL's** link on the row of the student. Select

either PL1, PL2, or PL3 under each of the six domains and click the SUBMIT button at the bottom. You must select a PL for each domain; otherwise you will not be able to submit the entry.

After you submit, you can review your entries, and if everything looks ok, click the **CONFIRM** button. If you want to make changes before submitting, click the **CANCEL** button.

Modifying Performance Levels

If you have entered performance levels for a student, you cannot change them until you contact your district coordinator and have the student record unlocked. Once the record is unlocked, click the **'Mod PL's'** link to view and modify the performance levels.

Reports/Printing your Session Information

Every time you add a student, change a student's enrollment, or enter Performance levels, the system will track your activity in a report that you can access by clicking the 'Edits this session' link at the left.

*Be sure to select this link and print the screen **prior** to logging out. If you log out without printing the report, all of the information you entered is saved, but the log file of edits will be cleared for that session, and you will not have a hard copy of the students you edited during that session.*

Frequently Asked Questions

How do I get my username and password?

Your username and password for your school is supplied by your district coordinator. All kindergarten teachers in your school will share the same username and password.

What if a student is missing from the inventory list?

If a student is missing from the list, you may click the **ADD STUDENT** link to add them to the system. You will need to know the student's 10-digit SASID. If you do not know the SASID, please contact your district coordinator or your district PSIS coordinator before adding them into the system. Please do not make up a SASID (e.g., 1234567890) when entering missing students into the database.

What do I do if there is a student listed who is no longer in my school?

For students who are no longer enrolled at your school, click the **ENROLLED** link for that child and choose NOT ENROLLED. If you un-enroll a student by mistake, please contact your district coordinator to change it.

What if a child's name is misspelled in the Kindergarten Inventory system?

All data in the Kindergarten Inventory is supplied by the PSIS system, so you should first check that your district's student information system has the child's name spelled correctly. If it is wrong in the inventory, please have your district coordinator fix the spelling.

How do I go back to edit a student's performance levels once it is marked complete?

If you need to modify a student's levels, you will need to contact your district coordinator and have them unlock the record so you can modify the performance levels.

I accidentally entered the wrong performance levels, or entered them on the wrong student. What can I do?

Contact your district coordinator to edit the student records so that you can go back to fix.

Who do I contact if I have a technical problem that my district coordinator can't fix?

Please contact Tom Schenking at EASTCONN, tschenking@eastconn.org or 860-455-1548.

For questions related to the KEI, contact Kendra Shakir, Education Consultant at the Connecticut State Department of Education at kendra.shakir@ct.gov; office phone: (860)713-6896.

What is the deadline?

Capture a **snapshot** for each of your kindergarten students enrolled in your class as of **October 18, 2021**, by using the Performance Level Descriptor ratings across the six assessment domains. Only provide KEI data for students enrolled in your class on the snapshot date of October 18. The data must be entered even if the student was absent. Data must also be submitted for outplaced students. Enter your student performance levels on the <https://www.ctksurvey.org> by **December 9, 2021**.
