Dr. Betty J. Sternberg, Commissioner

For Immediate Release

EMBARGOED

Wednesday, September 7, 2005 @ 10AM

State Department of Education Releases District AYP Results

(Hartford, Connecticut) – Eighty-two percent of Connecticut’s school districts made adequate yearly progress (AYP) for the 2004-05 school year under the requirements of the federal No Child Left Behind (NCLB) Act. A total of 141 of the state’s 171 local, regional and statewide school districts met the AYP standards. Last year, 75 percent of Connecticut’s school districts made AYP.

The AYP and “in needs of improvement” identifications are based on the districtwide percentage of students scoring at or above the proficient level in reading and/or mathematics in Grades 4, 6 and 8 on the 2004 Connecticut Mastery Test (CMT) and in Grade 10 on the 2004 Connecticut Academic Performance Test. In addition, the identifications are based on CMT writing scores (70 percent at or above the basic level or improvement over the previous year), the district graduation rate (70 percent or improvement over the previous year) and participation rates on the tests (95 percent participation required).

“While the trend is good, we still have a lot of work to do for districts not making AYP,” said Commissioner of Education Betty J. Sternberg. “We hold high expectations for all students and will continue to support districts as they improve their instructional programs.”

For a district to make AYP, the AYP criteria must be met on either the CMT or CAPT by all students and by each subgroup at the district level. Subgroups include Hispanic, black and white students, students with disabilities, economically disadvantaged students and English language learners. Districts must meet the standards on a total of 29 variables on the CMT or 29 variables on the CAPT in order to achieve the overall AYP standard.

This year, 30 districts were identified as not making AYP. This includes three districts that previously made AYP. Of the 30 districts identified as not making AYP:

- 6 were identified due to whole district math and reading achievement;
- 0 were identified due to whole district math achievement;
- 2 were identified due to whole district reading achievement;
- 19 were identified due to subgroup math and reading achievement;
- 2 were identified due to subgroup math achievement; and
- 1 was identified due to subgroup reading achievement.

Twenty-seven of the 30 districts have now been identified as not making AYP for two consecutive years in the same content area and therefore are “in need of improvement” under NCLB. All 27 districts identified as “in need of improvement” are Title I districts and are in Year 2 of district improvement. The following sanctions will apply:

- the district must revise its district improvement plan within 90 days of identification;
- the district must reserve 10 percent of its Title I funds for professional development designed to improve classroom teaching;
- the district must inform parents that it has been designated as “in need of improvement;” and
- the district can no longer serve as a provider of supplemental education services.

Last year, 43 out of 171 Connecticut districts (not including charter schools) were designated as not making AYP, and this year 16 of those districts made AYP. Of those 16 districts, 12 were identified as “in need of improvement” last year. While the districts remain “in need of improvement,” the consequences do not increase, but remain at last year’s level. If these districts also make AYP next year, they will no longer be designated “in need of improvement.”

A major reason for the decrease in the number of districts identified “in need of improvement” is their increase in participation rates from the 2003 to the 2004 CAPT administration. “We are pleased that more students are participating in the test,” said Dr. Sternberg.

It is possible for a district to be designated as not making adequate yearly progress while none of its schools is designated as not making AYP. This is because subgroup results are reported for AYP only when subgroups contain at least 40 students. It is possible that no schools reach that number, but when subgroup numbers for all schools in the district are totaled, the district as a whole has subgroups of 40 or larger and may then be cited for inadequate student performance by one or more subgroups.

“We will continue to work in partnership with districts that do not make AYP in our relentless efforts to raise the achievement of all students,” added Dr. Sternberg.

Connecticut Public School Districts Not Making Adequate Yearly Progress, 2004-05 School Year

As per No Child Left Behind Legislation and Connecticut's K-12 Accountability System

Based on the fall 2004 Connecticut Mastery Test (CMT) results attributed to the district attended in 2003-04 and
spring 2004 Connecticut Academic Performance Test (CAPT) results

Connecticut Public School Districts Not Making Adequate Yearly Progress, by Category: 2004-05 School Year

As per No Child Left Behind Legislation and Connecticut's K-12 Accountability System

Based on the fall 2004 Connecticut Mastery Test (CMT) attributed back to school attended in 2003-04 and spring 2004 Connecticut Academic Performance Test (CAPT)

Whole district reading academic achievement

Number of Districts: 2 (Number Districts Last Year = 1)

Area Cooperative Educational Services
Windham School District

Whole district math and reading, academic achievement

Number of Districts: 6 (Number Districts Last Year = 5)

New Haven School District
Bridgeport School District
Hartford School District
New Britain School District
New London School District
Waterbury School District

Subgroup reading academic achievement

Number of Districts: 1 (Number Districts Last Year = 3)

Windsor School District

Subgroup math and reading academic achievement

Number of Districts: 19 (Number Districts Last Year = 30)

Middletown School District
Bristol School District
Danbury School District
East Hartford School District
Enfield School District
Groton School District
Hamden School District
Manchester School District
Naugatuck School District
Meriden School District
Vernon School District
Ansonia School District
West Haven School District
Norwalk School District
Norwich School District
Stamford School District
Stratford School District
Torrington School District
Mansfield School District

Subgroup math academic achievement

Number of Districts: 2 (Number Districts Last Year = 1)

Connecticut Technical High School System
Regional School District 19

¹ Year represents the fall of the school year

² No districts were identified as "in need of improvement" in 2002

³ A district will have "Not Achieved" under AYP status if it fails AYP on BOTH the CMT and CAPT. The AYP Reason indicates which area(s) the district failed AYP for both CMT and CAPT. A blank cell indicates the district made AYP for that test.
