Part I. Prekindergarten (PreK) Needs Assessment Information and Requirements

Purpose

The purpose of the Needs Assessment: Prekindergarten Programs for Children Three, Four and Five-Years Old in Which Individual Education Programs are Implemented is to identify the current state and landscape of programs in the State of Connecticut in which young children with IEPs receive special education and related services. Under the Individuals with Disabilities Education Act (IDEA) school districts are required to provide a free and appropriate public education (FAPE) for young children ages three, four, and five who qualify for special education in the least restrictive environment (LRE).

The intent of this grant is to identify strengths and weaknesses in the aforementioned programs to inform professional learning opportunities and guidance in an effort to ensure that young children that qualify for special education and related services are receiving services in high-quality early childhood settings. This will assist the Connecticut State Department of Education (CSDE) in providing supports, guidance and technical assistance to districts for quality improvement. Connecticut’s goal is to improve quality in the early learning years as a means to improve outcomes for young children as they move through the educational system.

The needs assessment should answer the following question:

What is the quality of the prekindergarten environments in which children with individualized education programs (IEPs) are served?

The scope of work includes development of an instrument(s) to determine the current state and landscape of programs in the State of Connecticut in which young children with IEPs receive special education and related services in preK programs. This will include programs that are located in school districts as well as community-based programs in which IEPs are implemented and locations that itinerant services are provided.

Background

The CSDE Bureau of Special Education monitors compliance to IDEA and actively supports planning and placement teams (PPTs) to provide FAPE in the LRE for students who are eligible for special education and related services, including young children ages three, four and five (preschoolers) that are eligible under IDEA 619 Part B. Data gathered through this needs assessment will be used to plan supports and guidance to assist school districts, as well as community partners in providing high-quality services for preschoolers in high quality early childhood environments.

The public agency responsible for providing FAPE to a preschool child with a disability must ensure that FAPE is provided in the LRE where the child’s unique needs (as described in the child’s IEP) can be met, regardless of whether the LEA operates public preschool programs for children without disabilities. An LEA may provide special education and related services to a preschool child with a disability in a variety of
settings, including a regular kindergarten class, public or private preschool program, community-based child care facility, or in the child’s home.¹

The IDEA statute includes a requirement that schools provide each disabled student an education that provides "…access to the general curriculum to meet the challenging expectations established for all children."

The Connecticut Office of Early Childhood (OEC) has developed draft criteria for quality in its Quality Recognition and Improvement System (QRIS) that can provide a framework for the development of proxies of quality. The areas of focus for the needs assessment as it relates to QRIS are learning and environments and health and safety.

THE FOLLOWING FORMAT IS REQUIRED FOR ALL APPLICATIONS.

Cover Sheet

Proposal Narratives
Submit detailed plans addressing the following categories on the narrative proposal forms provided in Appendix C.

Development of the Needs Assessment
Describe the content of the needs assessment that will give a robust and accurate picture about the current state of programs in which IEPs are implemented in CT. This should include specific data points that will be considered proxies for quality in these programs. Consideration should be given to implementation of CT’s Early Learning and Development Standards, curriculum and instruction, ratios (both class size and number of students on IEPs/typically developing peers), governance and supervision, LRE, related service provision, IEP development, family engagement, transition, and continuum of services. The OEC’s QRIS criteria should inform the quality criteria for this needs assessment.

Implementation of the Needs Assessment
Describe the specific data collection methods and the sampling methodology(s) that will be used. Include specific information about the efficacy of the methods and sample size to give the most accurate picture of the current state of programs in which IEPs are implemented in CT. CSDE has data available about the environments in which IEPs are implemented as reported to the Office of Special Education Programs (OSEP) for IDEA Part B Indicator 6 on CT’s Annual Performance Report.

Final Report
A final written report, including all findings and supporting data, shall be submitted to the CSDE by February 28, 2020. A presentation of the findings shall be scheduled with CSDE upon submission of the written report.

Budget Forms
Use the appropriate forms on pages 14 through 15 to indicate how the grant funds will be expended for each year of funding. A grantee (fiscal agent) with delegate agencies must provide a composite budget that includes proposed expenditures for the delegate agencies. Such fiscal agent must complete individual budget justification sheets and attach for each delegate agency represented in the composite budget.

The alignment of the budget with the purpose and scope of the contract is one of the criteria for award consideration.
