REQUEST FOR PROPOSALS

The CSDE is seeking submission of written proposals, on a competitive basis, from an experienced transportation vendor or consulting firm that will assist the State Department of Education with assessing the effectiveness of the current Sheff regional transportation system from both a ridership standpoint and cost standpoint.

PROJECT BACKGROUND

Background and Overview of Sheff v. O’Neill

On July 9, 1996, the Connecticut State Supreme Court, in the landmark school desegregation case, Sheff v. O’Neill, held that the public school students in the City of Hartford attended schools that were racially, ethnically, and economically isolated in violation of the Connecticut Constitution, and urged the State to take prompt steps to seek to remedy the violation. In the spring of 2008, the State and the plaintiffs entered into an agreement known as the Phase II Stipulation and Order, approved by the Court on June 11, 2008.

The goal of the Phase II Stipulation was to increase the number of Hartford-resident minority students in reduced-isolation educational settings, and to move toward meeting the demand of Hartford-resident minority students seeking placement in desegregated educational settings. The following voluntary interdistrict programs being used to attain the goal are: the Open Choice program, which allows students to transfer between Hartford and the suburban school districts when such transfers contribute to the reduction of racial and ethnic isolation; interdistrict magnet schools which presently include host and regional magnet schools; Connecticut Technical High Schools; and Regional Agricultural Science Centers. To support and ensure the success of these voluntary interdistrict programs, the agreement required the establishment of a regional school transportation system. Since the signing of the Phase II agreement, the State entered into a new Phase III agreement in 2013, which has been extended as the Phase III Stipulation Extension of 2015. The regional school transportation system continues to support all of the voluntary interdistrict programs, including those created to meet the goals of the case.

The CSDE currently contracts with the Capitol Region Education Council (CREC) to administer the regional school transportation system and contract with vendors to provide the necessary transportation services. This year, CREC developed a transportation plan that uses six bus companies and runs over 800 routes to transport over 14,300 students to 186 schools in 43 school districts across 1,100 square miles. Some of the challenges in the system beyond the geographic area include: the ability of all students to select any school regardless of location through the lottery process; non-aligned bell times; and a combination of centralized and neighborhood stops depending on an array of factors.
SCOPE OF SERVICES AND SERVICE SPECIFICATIONS

I. SCOPE OF WORK

The work expected of the successful bidder is as follows:

1. Conduct a review and analysis of the existing regional transportation system using current and historical data (analysis must include, but not be limited to, zone size, ridership, costs, demographics, programmatic needs, late buses, afterschool programming, tiered bus routes, school schedules) in order to identify areas of strength, and areas of improvement, modification or elimination.

2. Propose and recommend strategies based on best practices that will reduce costs, improve services and shorten ride times for all students while maintaining the goals of reduced isolation for Hartford-resident students pursuant to the current agreement. Such strategies may include modifications to the size of the zone and should examine strategic linking of geographic areas with specific voluntary interdistrict schools as a means of increasing transportation efficiencies. Alternatives to school bus transportation may be sought and recommended, as appropriate.

3. Based on the recommended strategies develop a plan to pilot proposed modifications to the current regional school transportation system. The proposed plan must include, but not be limited to, projected costs, resources needed, potential impact on school demographics, and timelines.

4. Develop an ongoing evaluation and refinement process for the system.

The work plan developed in response to this Request for Proposal (RFP) must address the following tasks, including a description of how each task will be delivered. Each task must take into consideration the nuances of each of the voluntary interdistrict program options for students in the Sheff Region.

TRANSPORTATION SERVICES
2016–2017
Our goal is to provide transportation services that are safe, efficient, and a comfortable experience for all students. In the 2015–16 school year, RSCO will transport more than 13,000 students via 800 daily scheduled routes, with reputable bus companies.

The CREC Transportation Office’s friendly staff is available to assist parents with concerns and to help acclimate students and their families to the transportation process. The regional transportation customer service center operates from 5 a.m.–8 p.m.

Transportation: Frequently Asked Questions

The Connecticut State Department of Education’s Regional School Choice Office (RSCO) partners with the Capitol Region Education Council (CREC) to operate a regional transportation system that serves the Greater Hartford school choice programs listed in this catalog. The regional transportation system offers various transportation options, including traditional school bus transport, vans, public bus passes, and parent stipends, where appropriate. Every year, RSCO/CREC Transportation may alter bus schedules and/or bus stops. When making such transportation changes, notice will be provided to parents and school personnel.

What is the RSCO Transportation Zone?
The RSCO Transportation Zone was adopted by RSCO. The zone identifies established borders for student transportation for Greater Hartford school choice programming.

Do I have to pay for transportation services?
There is no charge to families.

Which students are eligible to receive transportation services?
Generally, interdistrict transportation is available during regular school hours for K–12 students in Greater Hartford who:

- reside in towns included in the RSCO Transportation Zone; and
- attend out-of-district programs offered through RSCO (the Hartford Region Open Choice Program, interdistrict magnet schools, Connecticut Technical High Schools, and the Suffield Regional Agriscience Center).

For students in grades PK3 and PK4, transportation is available to Hartford resident students attending an out-of-district program only. For non-Hartford resident PK3 and PK4 students, the parent/guardian shall arrange transportation. Non-Hartford resident PK3 and PK4 students whose parents/guardians transport them to school are eligible for a stipend for providing such transportation. The stipend is paid at the end of the school year based on the child’s school attendance.

What options are available for students who do not live within RSCO’s Transportation Zone?
If a student lives outside RSCO’s transportation zone, two options are available. Families may either:

- transport the student themselves to and from school, and then request a stipend from the CREC Transportation Office (http://www.crec.org/transportation). The stipend will be paid at the end of the school year based on the child’s school attendance; or
- transport the student to the closest available bus stop located within RSCO’s Transportation Zone (there is no stipend offered for this option).

If my child attends a magnet school program located in the district where he or she resides, who provides transportation?
Except for Grades PK3 and PK4, the district in which your child lives will provide in-district transportation. You should contact your local board of education for specific information on the school district’s transportation policies.

If my student is eligible for transportation through RSCO, how will I know what the transportation arrangement will be?
If your student is accepted, enrolls in one of the RSCO’s programs, and is eligible for transportation, you will receive notification from the CREC Transportation Office before the start of school. Such notification will include information about bus times and stop locations. Please note that to reduce the length of student bus ride times, stops may be at central locations. If you have questions concerning bus times, stop locations, changes of address or any other transportation issues, please contact the CREC Transportation Office at 860-524-4077. Please do not direct transportation questions to your student’s school because the school is not responsible for coordinating and arranging transportation services. Similarly, transportation questions should not be directed to RSCO’s Parent Information Center.

Are transportation services provided for extracurricular activities or events after school hours?
When a late bus is not provided, parents and guardians are responsible for transporting students to and from extracurricular activities and after-school events.

If I have more detailed questions about my child’s transportation, whom should I contact?
RSCO has contracted with CREC to operate the regional transportation system. Please direct all questions concerning transportation services to the CREC Transportation Office. The CREC Transportation Office operates a customer service center from 5 a.m. to 8 p.m., which provides information and answers questions about your child’s transportation. You can reach a customer service representative by calling 860-524-4077 or you can send an e-mail to transportation@crec.org. CREC transportation staff will be present at RSCO fairs to answer parents’ and guardians’ questions about transportation services.

- RSCO has also established transportation guidelines that outline services provided. These are available on the RSCO Web site, http://www.choiceeducation.org/transportation or at http://www.crec.org/transportation.

What if my child receives a RSCO lottery placement offer between July 1, 2016 and October 1, 2016?
After August 1, 2016, transportation service will likely be delayed. You will receive information that outlines dates when you can reasonably expect transportation to begin for your child. In this case, and until transportation to school is provided, transportation is the family’s responsibility and there is no stipend available.
The transportation zone adopted by the Regional School Choice Office identifies the established borders for towns eligible to receive transportation for RSCO programs and schools.
