# **CAREER AND TECHICAL EDUCATION SECONDARY SUPPLEMENTAL ENHANCEMENT APPLICATION**

## **I. Overview**

The Strengthening Career and Technical Education for the 21st Century Act 20 U.S.C. 2322 (Perkins V) was signed into law on July 31, 2018. Perkins V promotes reform, innovation, and continuous improvement in career and technical education (CTE) to ensure that students acquire the skills and knowledge they need to meet challenging state academic standards and industry-recognized skill standards. It prepares students for postsecondary education, further learning, and a wide range of opportunities in high-skill, high-wage, or high-demand industries and occupations.

## **II. Purpose of Perkins V**

The purpose of Perkins V is to develop more fully the academic, technical, and employability skills of secondary and postsecondary education students who elect to enroll in CTE programs and programs of study. Perkins V:

- builds on the efforts of states and localities to develop challenging academic and technical standards and to assist students in meeting such standards, including preparation for high skill, high wage, or in-demand occupations in current or emerging professions;
- promotes the development of services and activities that integrate rigorous and challenging academic and career and technical instruction, and that link secondary education and postsecondary education for participating career and technical education students;
- increases state and local flexibility in providing services and activities designed to develop, implement, and improve career and technical education;
- conducts and disseminates national research and information on best practices that improve career and technical education programs and programs of study, services, and activities;
- provides technical assistance that promotes leadership, initial preparation, and professional development at the state and local levels and improves the quality of career and technical education teachers, faculty, administrators, and counselors;
- supports partnerships among secondary schools, postsecondary institutions, baccalaureate degree granting institutions, area career and technical education schools, local workforce investment boards, business and industry, and intermediaries;
- provides individuals with opportunities throughout their lifetimes to develop, in conjunction with other education and training programs, the knowledge and skills needed to keep the United States competitive; and
- increases the employment opportunities for populations who are chronically unemployed or underemployed, including individuals with disabilities, individuals from economically disadvantaged families, out-of-workforce individuals, youth who are in, or have aged out of, the foster care system, and homeless individuals.

## **III. Purpose of the Career and Technical Education Secondary Supplemental Enhancement Grant**

Section 112 of 20 U.S.C. 2322, Perkins V legislation allows states to distribute a portion of the local funds to foster innovation through the identification and promotion of promising and proven career and technical education programs, practices, and strategies. The supplemental enhancement concept was created to assist Perkins V secondary recipients in offering programs, practices, and strategies that prepare individuals for nontraditional fields and/or promote the development, implementation, and adoption of programs of study or career pathways aligned with State-identified high-skill, high-wage, or in-demand occupations or industries.

#### IV. Career and Technical Education Secondary Supplemental Enhancement Grant Eligible Participants

Only those districts having received Perkins V funds during the 2021–2022 school year may apply for the Career and Technical Education Secondary Supplemental Enhancement Grant.

Eligible participants must reside in a rural area (see table below) or have a high percentage and high number of career and technical students (at least 40 percent, unduplicated CTE enrollment for the 2021-2022 school year). This funding source should assist in the advancement of goals established by the Connecticut State Board of Education and Perkins V legislation to close the achievement gap for CTE students in eligible districts by offering an opportunity for program development.

#### V. Available Competitive Funding

Selected districts will be awarded **a minimum of \$25,000 up to a maximum of \$50,000 to be encumbered by September 30, 2022.** See obligation and liquidation dates on page 3, Section IX. This funding will be made available contingent upon the availability of Perkins V grant funding from the U.S. Department of Education. A sustainability plan must be developed and submitted with the grant application showing how grant initiatives will continue with other than local funding. Also, please note that funding can be used for students participating in CTE courses in **Grades 6–12 only**.

#### VI. Eligibility Requirements

This is a competitive grant and is not an entitlement. The following must be met in order for a district to be eligible to apply for funding:

- Science, Technology, Engineering and Mathematics (STEM); and
- Transportation, Distribution, and Logistics.

**VII. Management Control of the Program and Grant Consultation Role of the State**

The grantee has overall management control of the grant. While state agency staff may be consulted for their expertise, they will not be directly responsible for the selection of subgrantees or vendors, nor will they be directly involved in the expenditure and payment of funds obligated by the grantee or subgrantee.

**VIII. Grant Awards**

The Connecticut State Department of Education (CSDE) reserves the right to make grant and contract awards under this program without discussion with the applicants; therefore, proposals should represent the applicant’s best effort to ensure a quality proposal from both a technical and cost standpoint. All awards are subject to the availability of federal funds. Grants are not final until the award letter is executed. The manager of the CTE unit will issue notification of the grant award. The level of funding and effective dates of the project will be set forth in the notification of the grant award.

**IX. Grant Period**

Grants will be awarded on or after June 1, 2022. All funds must be expended or obligated by September 30, 2022 and liquidated by November 30, 2022. There are no exceptions or waivers to this requirement.
