CARL D. PERKINS CAREER AND TECHNICAL EDUCATION IMPROVEMENT ACT OF 2006 20 U.S.C. §2301 <u>et seq</u>.

CAREER AND TECHICAL EDUCATION SECONDARY WORK-BASED LEARNING ENHANCEMENT APPLICATION

I. Overview

Signed into law on August 12, 2006, the Carl D. Perkins Career and Technical Education Improvement Act (Perkins IV) sets a new vision of career and technical education (CTE) for the 21st century. Perkins IV promotes reform, innovation, and continuous improvement in CTE to ensure that students acquire the skills and knowledge they need to meet challenging state academic standards and industry-recognized skill standards. It prepares students for postsecondary education, further learning and a wide range of opportunities in high-skill, high-wage, or high-demand occupations in emerging professions.

Perkins IV supports the alignment of CTE with state and local efforts to reform secondary schools and improve postsecondary education. The implementation of Perkins IV promises to make CTE programs an integral part of these efforts.

II. Purpose of the Act

The purpose of Perkins IV is to further develop the academic, career and technical skills of secondary students and postsecondary students who elect to enroll in CTE programs by:

- building on the efforts of states and localities to develop challenging academic and technical standards within career pathways aligned with state economic projections;
- assisting students in meeting standards, including preparation for high-skill, high-wage or highdemand occupations in current or emerging professions;
- promoting the development of services and activities that integrate rigorous and challenging academic and career and technical instruction and link secondary and postsecondary education for participating students;
- increasing state and local flexibility in providing services and activities designed to develop, implement and improve linkages between CTE and postsecondary options, including College Career Pathways;
- conducting and disseminating national research, providing professional development and disseminating information on best practices that improve CTE programs, services and activities;
- supporting partnerships among secondary schools, postsecondary institutions, baccalaureatedegree-granting institutions and business and industry;
- providing technical assistance that promotes leadership, initial preparation and professional development and improves the quality of CTE teachers, administrators and counselors; and
- providing individuals with opportunities throughout their lifetimes to develop, in conjunction with other education and training programs, the knowledge and skills needed to keep the United States competitive.

In accordance with this purpose, Perkins IV funding will be utilized for students in secondary and postsecondary programs only.

III. Purpose of the Secondary Work-Based Learning Enhancement Grant

The Perkins IV legislation allows states to distribute a portion of the local funds (legislative reference P.L. 109-270 Sec. 112) to achieve an equitable balance of funding in the state. The Work-Based Learning Enhancement Grant has been created to balance the needs of districts statewide through supplemental Perkins IV funding. Only those districts having received Perkins IV funds during the 2018–19 school year may apply for the Career and Technology Education Secondary Work-Based Learning Enhancement Grant.

IV. Career and Technology Education Secondary Work-Based Learning Enhancement Grant Eligible Participants

Eligible participants must reside in a rural area or have a high percentage and high number of career and technical students (at least 40 percent, unduplicated CTE enrollment for the 2018-19 school year). This funding source should assist in the advancement of goals established by the Connecticut State Board of Education and Perkins IV legislation to close the achievement gap for CTE students in eligible districts by offering an opportunity for program development.

This grant is being provided to develop or improve Work-Based Learning programs in CTE.
