

The Performance Office

Data Collection, Assessment, Information Technology, Reporting, Research, and Accountability

Mission:

Improve student outcomes through the use of data and technology

Goal #1: Data Collection

Collect accurate data in a highly efficient, secure, and timely manner

Goal #2: Student Assessments

Implement high-quality assessments that are aligned to standards, inclusive, efficient, reliable, and enable valid interpretations of achievement and growth

Goal #3: Information Technology

Utilize the latest technologies to implement robust data systems and reliable infrastructure that reduces district burden and increases agency efficiencies

Goal #4: Data Integration/Reporting

Aggregate data and deliver accurate information in a secure, timely, and transparent manner

Goal #5: Research and Analyses

Analyze and report data trends and insights to support informed decision-making and action by schools, districts, the CSDE, and other stakeholders

Goal #6: Accountability

Develop performance models and metrics, establish targets, and publish reports that enable a suite of differentiated supports and interventions for schools/districts
