

Transportation Information

Agricultural Science and Technology Education (ASTE) Students:

Families with students attending students attending an ASTE program in Bloomfield, Glastonbury, and Suffield, please find where you live and when you registered in the two tables on this page for your transportation information.

| School the Student Attends | Where the Student Lives (Resident Town) | Who is Responsible for Transportation |
|--|--|--|
| Bloomfield Agriscience and Technology Center | Bloomfield, East Granby, West Hartford | Bloomfield Agriscience and Technology Center provides transportation |
| | Hartford | RSCO Transportation provides transportation |
| Glastonbury Agriscience and Technology Center | Andover, Glastonbury, East Hartford, Hebron, Manchester, Marlborough, Newington, Wethersfield, Windsor | Glastonbury Agriscience and Technology Center provides transportation |
| | Hartford | RSCO Transportation provides transportation |
| Suffield Agriscience and Technology Center | Avon, Canton, East Granby, East Windsor, Enfield, Granby, Hartland, Simsbury, Suffield, Windsor Locks | Suffield Agriscience and Technology Center provides transportation |
| | Hartford | RSCO Transportation provides transportation |

| When the Student Registers | When the Student's Transportation Starts |
|--|--|
| Register before July 1st | Transportation usually starts on the student's first day of school. |
| Register after July 1st | Transportation may not start on the student's first day of school. Parents/guardians should plan to transport their child to and from school until transportation starts. |
| Returning students | If a student's address is the same as last school year, transportation should start on the student's first day of school. |
| | If student's address has changed since last school year, the start transportation may not start on the student's first day of school. Communicate any changes to your school as soon as possible because your child may need to be assigned to a different bus stop. |

Additional Information

Students are generally assigned to centralized bus stops, which are in or near the student's town, often in a public place, and most likely, not within walking distance from the student's home. Families are notified of their child's specific transportation information, including:

- the start date
- bus stop location
- drop-off/pick-up times
- if the school participates in after-school transportation
