

Student Name: **Jonathan Doe**
Grade: **5**
Date of Birth: **05/20/2010**
SASID: **1234567891**

School: **Demo Elementary School**
District: **Demo District**
Test Year: **2021**

Connecticut Smarter Balanced Summative Assessment Results

The 2021 Connecticut Smarter Balanced Summative Assessments are administered to students in Grades 3–8 in English language arts (ELA)/literacy and mathematics. This report shows Jonathan’s achievement on assessments based on the Connecticut Core Standards, which define learning expectations for what students should know and be able to do at each grade level.

Connecticut has a comprehensive plan for college and career readiness that includes challenging academic standards and assessments to measure student progress. Results from the Connecticut Smarter Balanced Summative Assessments are only one indicator of a student’s performance. These results should be used along with other information, such as classwork and other tests, when making educational decisions. Specific questions about individual student results should be directed to local school personnel.

Scale Scores and Performance Levels

Overall scores from ELA/literacy and mathematics tests are reported in scale-score units. Within the scale-score range, four performance levels have been established for each content area. Scoring in the Level 3 or Level 4 range is a challenging, yet reasonable, expectation for Connecticut students.

English Language Arts/Literacy

Jonathan’s overall ELA/literacy scale score is reported as well as the associated performance level. The school and district average scale scores are also reported for comparative purposes. The ELA/literacy test assesses mastery of grade-level English language arts and literacy in three areas of knowledge and skills aligned to the Connecticut Core Standards.

Three Areas of Knowledge and Skills

Reading

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

Listening

Students can employ effective speaking and listening skills for a range of purposes and audiences.

Writing and Research/Inquiry

Students can strengthen writing by revising, editing, and rewriting a range of text. Students can also analyze and integrate evidence-based information to support analysis and research.

What is a Lexile® Measure?

A Lexile® measure represents a student’s reading ability on the Lexile® scale. The Lexile® measure and range can be used at <http://fab.lexile.com> to find books and materials that match a student’s reading ability and interests.

Mathematics

Jonathan’s overall mathematics scale score is reported as well as the associated performance level. The school and district average scale scores are also reported for comparative purposes. The mathematics test assesses mastery of grade-level mathematics in three areas of knowledge and skills aligned to the Connecticut Core Standards.

Three Areas of Knowledge and Skills

Concepts and Procedures

Students can explain and apply mathematical concepts and interpret and carry out mathematical procedures with precision and fluency.

Problem Solving and Modeling & Data Analysis

Students can solve a range of complex, well-posed problems in pure and applied mathematics, making productive use of knowledge and problem solving strategies. Students can analyze complex, real-world scenarios and can construct and use mathematical models to interpret and solve problems.

Communicating Reasoning

Students can clearly and precisely construct viable arguments to support their own reasoning and to critique the reasoning of others.

What is a Quantile® Measure?

A Quantile® measure represents a student’s mathematical ability on the Quantile® scale. It can be used at <http://www.quantiles.com> to find math activities that match a student’s math ability and learning goals.

Frequently Asked Questions

Where can I find more information about Connecticut academic standards and state assessments?

Information about Connecticut academic standards and state assessments is available on the Connecticut State Department of Education Web site (portal.ct.gov/sde).

What are the ELA/Literacy and Mathematics Areas of Knowledge and Skills?

Each area is based on a summary statement about the knowledge and skills students are expected to demonstrate on the assessment. Each relates to a particular aspect of the Connecticut Core Standards. These indicators provide additional information about a student’s overall score.

Where can I find more information about the Smarter Balanced Assessment System?

Information about the Smarter Balanced Assessment System is available at www.smarterbalanced.org.

Jonathan's ELA/Literacy Score for 2021

2590
Level 4
Exceeds

Jonathan has **exceeded the achievement standard** for English language arts and literacy expected for this grade. Students performing at this standard are **demonstrating advanced progress toward mastery** of English language arts and literacy knowledge and skills. Students performing at this standard are on track for likely success in the next grade.

Areas of Knowledge and Skill	Performance
Reading	 Above Standard
Listening	 Approaching Standard
Writing and Research/Inquiry	 Above Standard

Measure	Range
Lexile® 1090L	990L–1140L

Use the Lexile® information at <http://fab.lexile.com> to find books and materials that match your child's reading ability and interests.

A student's test scores can vary if tests are taken several times. If Jonathan were tested again on ELA/literacy, the new scale score would probably fall between 2580 and 2600.

Jonathan's Mathematics Score for 2021

2525
Level 2
Approaching

Jonathan has **nearly met the achievement standard** for mathematics expected for this grade. Students performing at this standard **require further development toward mastery** of mathematics knowledge and skills. Students performing at this standard will likely need support to get on track for success in the next grade.

Areas of Knowledge and Skill	Performance
Concepts and Procedures	 Below Standard
Problem Solving and Modeling & Data Analysis	 Approaching Standard
Communicating Reasoning	 Approaching Standard

Measure	Range
Quantile® 845Q	795Q–895Q

Use the Quantile® information at <http://www.quantiles.com> to find math activities that match your child's math ability and goals.

A student's test scores can vary if tests are taken several times. If Jonathan were tested again on mathematics, the new scale score would probably fall between 2513 and 2537.
