Hi.

Dr. Steven Rogers from Connecticut children's medical center approached me to discuss the possibility of a playground funded by Aetna. He originally proposed \$150,000-\$200,000. However this money was not guaranteed. His offer to sponsor the building of the playground was premature. I forwarded his proposal to the town. This has not come to fruition. Please remove this proposal from your database. Having had patients who died during this tragedy, I am sincerely sorry for the prematurity of this proposal. Thank you.

Rick
