

[Copy of memo by G.F. GRAVATT] Chestnut orchard is his hobb. Just starting 1 Van Fleet hybrid, diseased for 4 years but producing nuts. Expects to receive more trees from Bissett this spring. Now has a number of chinquapins Native second growth chestnut nearby. Possibility of cleaning this out and using orchard as blight control demonstration. Bartlett very much interested and willing to do anything we desire. To be written to about plan.

Has a resistant native chestnut at Tarrytown, N.Y. and resistant Spanish chestnut at Dobbs Ferry, N.Y. Anyone wishing to see these will be taken over by auto from Stamford. [No date on this memo]
