

appearance. In general, all of the trees of native stock are in good condition and are growing well ~~under~~ Illinois soil. Particularly stock obtained from Rochester New York (This stock was obtained by Mr. Riehl many years ago - date unknown by his daughter - Mr. Riehl is dead). The owners believe that they have developed several varieties. Only those which show quality of nut, and good growing qualities ^{tree} etc are named. Others are numbered, tested,

and are discarded if the variety is not desired.

Stock of foreign origin - no trees have been brought into this nursery from foreign countries and the owners are guarding against such introductions.

However, they do have stock with foreign parentage. This was obtained from a Mr. J. Parry. Address unknown. Perhaps Dr. Rud. has this address according to Miss Riehl.

In general the ^{tree} with this parentage
