

Dear Dr Grawatt;

Swampake St  
Campton Mass

This is a photo of one of the  
Asiatic chestnuts you sent me in 1931. Photo  
taken Sept 15. About 45 are alive - some  
growing fine - and some havent made any  
growth at all.

PHOTOGRAPH BY

CHAS. F. RIORDAN, JR.

This specimen  
planted on a steep dry gravel slope - in a thick  
growth of young red oak, birch + poplar.

Hope to see you on my next trip to  
Washington - Best regards  
J. F. Jones
