J. J. Bird
Cumberland Homesteads

4/9/36 30 MAH *Castanea mollissima*

May, 1936 "It was necessary to heel in the seedlings for about four weeks due to late land clearing. These were put out May 13. One was discarded at planting time, remainder looking OK at present. I will water them occasionally."

Located 6 mi South of Crossville.

12/6/44 - Trees dead; competition too great
Some of the trees lived several years
before dying. Planted on wild range
land, the "Cumberland Plateau"
