

Putting Science to Work for Society

“Safeguarding the Food Supply and Environment”

SPRING 2011—OPEN HOUSE

Wednesday, April 27th, 2011, 1:00 p.m.

THE CONNECTICUT AGRICULTURAL EXPERIMENT STATION
DONALD F. JONES AUDITORIUM
123 HUNTINGTON STREET, NEW HAVEN, CT 06511

Presentations

- ◆ Experiment Station Welcome and Updates, Dr. Louis A. Magnarelli, Director
- ◆ The Deepwater Horizon Oil Spill Response: The Connecticut Agricultural Experiment Station and the US FDA Food Emergency Response Network (FERN), Dr. Jason C. White, Chief Scientist, Department of Analytical Chemistry
- ◆ Examination of the Role that Pesticides Play in the Decline of Honey Bees, Dr. Brian D. Eitzer, Scientist, Department of Analytical Chemistry
- ◆ Nanomaterial Contamination of Agricultural Crops, Mr. Craig L. Musante, Scientist, Department of Analytical Chemistry

Guided Tours

- ◆ The Department of Analytical Chemistry Laboratories, Dr. Jason C. White and staff, Department of Analytical Chemistry
- ◆ CT DEP Mobile Laboratory
- ◆ The New Crops Program, Dr. Abigail A. Maynard, Department of Forestry and Horticulture

Questions Answered in Jones Auditorium

- ◆ Federal Bureau of Investigation (FBI) Weapons of Mass Destruction (WMD) Coordinator
- ◆ Soil Testing
- ◆ Insect Identification
- ◆ Plant Identification and Disease Diagnosis

The Analytical Chemistry Department works with the FBI WMD Coordinator on issues related to food safety and chemical terrorism. Also, bring soil samples for testing and plant, insect, and weed problems for identification

Connecticut Pesticide Credits—2.5 credits. This is for all supervisory licenses and private applicators.

REFRESHMENTS WILL BE SERVED
