# Opportunities for a Career in Science

There is a unique institution in Connecticut where there are interesting job opportunities for men and women, who are interested in enhancing their scientific backgrounds.

The Connecticut Agricultural Experiment Station, founded in 1875, is devoted to research in agriculture, public health, forestry, environment, and to testing food and other materials for unwanted chemicals.

The Experiment Station has a staff of about 92 men and women, most of whom work in offices, laboratories, field sites, and greenhouses. The main campus is located at 123 Huntington Street, New Haven, near Whitney Avenue. Some employees are assigned to the Experiment Station's Valley Laboratory in Windsor, while others work at research facilities in Hamden and Griswold. In addition, about 50 summer research assistants are employed annually to work with scientists in the field and laboratory.

This mentorship program offers extensive training opportunities. To find out whether the Experiment Station is a place where you would like to work and where you could contribute to science programs, call statewide toll free 877-855-2237 for more information on job opportunities or send information about yourself, your experience, and your aspirations to the Director's Office or to Department Heads.

Below are the departmental disciplines and locations in which you can potentially have a career opportunity in science at The Connecticut Agricultural Experiment Station.

### *Disciplines:*

Analytical Chemistry  
Entomology  
Forestry and Horticulture  
Plant Pathology and Ecology  
Environmental Sciences  
Center for Vector Biology & Zoonotic Diseases

### *Locations:*

Main Laboratories, New Haven  
Lockwood Farm, Hamden  
Griswold Research Center, Griswold  
Valley Laboratory, Windsor

Job notifications are posted on the Experiment Station's website at <https://portal.ct.gov/caes>.

Equal employment opportunity means employment of people without consideration of age, ancestry, color, criminal record (in state employment and licensing), gender identity or expression, genetic information, intellectual disability, learning disability, marital status, mental disability (past or present), national origin, physical disability (including blindness), race, religious creed, retaliation for previously opposed discrimination or coercion, sex (pregnancy or sexual harassment), sexual orientation, veteran status, and workplace hazards to reproductive systems unless the provisions of sec. 46a-80(b) or 46a-81(b) of the Connecticut General Statutes are controlling or there are bona fide occupational qualifications excluding persons in one of the above protected classes. To file a complaint of discrimination, contact Dr. Jason White, Director, The Connecticut Agricultural Experiment Station, 123 Huntington Street, New Haven, CT 06511, (203) 974-8440 (voice), or Jason.White@ct.gov (e-mail). CAES is an affirmative action/equal opportunity provider and employer. Persons with disabilities who require alternate means of communication of program information should contact the Chief of Services, Michael Last at (203) 974-8442 (voice), (203) 974-8502 (FAX), or Michael.Last@ct.gov (e-mail).
