Scoping Notices

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated.

The following Scoping Notice has been submitted for review and comment.

1. Notice of Scoping for the U.S. National Coast Guard Museum Pedestrian Overpass Project

Municipality where proposed project might be located: New London

Address of Possible Project Location: Waterfront Park, New London, CT

Project Description: The State of Connecticut has committed to provide financial assistance for the construction of a pedestrian bridge overpass that will be integral to the success of the U.S. National Coast Guard Museum Project, access to the site, and overall improvement to New London's regional intermodal transportation center. State funds may also be used for ancillary work associated with the project, including property purchases, feasibility studies, traffic redesigns and other necessary project components.

The pedestrian overpass will provide a safe handicapped accessible connection between the Ferry Terminal and Museum on the waterfront and public parking garage located to the west across the railroad tracks. It will be fully enclosed and have three access points: 1) adjacent to the Union Station; 2) on the platform of the north-bound passenger track; and 3) between the Museum and Ferry Terminal. The present rail crossing situation is less than satisfactory. The overpass will be enclosed and protected from the weather. The three access points will each have stairs and an elevator. The overpass will be ADA compliant and, in addition to serving the Museum, the Ferry Terminal, the waterfront Promenade, the recreational boating docks and the City Pier, it will provide AMTRAK with safe access to trains traveling in both directions.

Post-Scoping Notices: Environmental Impact Evaluation Not Required

This category is required by the October 2010 revision of the [Generic Environmental Classification Document](#) for State Agencies. A notice is published here if the sponsoring agency, after publication of a scoping notice and consideration of comments received, has determined that an Environmental Impact Evaluation (EIE) does not need to be prepared for the proposed project.

No Post-Scoping Notice has been submitted for publication in this edition.

EIE Notices

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts. This is called an [Environmental Impact Evaluation](#) (EIE).

No EIE has been submitted for publication in this edition.

State Land Transfer Notices

Connecticut General Statutes [Section 4b-47](#) requires public notice of most proposed sales and transfers of state-owned lands. The public has an opportunity to comment on any such proposed transfer. Each notice includes an address where comments should be sent. [Read more about the five-step process...](#)
