Scoping Notices

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated.

The following Scoping Notice has been submitted for review and comment.

1. Notice of Scoping for the Stony Brook Water Treatment Plant Facility Upgrades

Municipality where proposed project might be located: Montville

Address of Possible Project Location: 260 Cherry Lane

Project Description: Norwich Public Utilities is improving the Stony Brook surface Water Treatment Plant (WTP) by retrofitting the existing non-buoyant filter media contact clarifiers with Dissolved Air Flotation (DAF) clarifier units. The retrofit will be housed in a building addition adjoining the existing water treatment plant. The project also includes modifications to the interior and exterior piping as required to accommodate the proposed retrofit. There will be no change in the production capacity of the WTP.

Written comments from the public are welcomed and will be accepted until the close of business on: **Friday, November 7, 2014.**

Any person can ask the sponsoring agency to hold a Public Scoping Meeting by sending such a request to the address below. If a meeting is requested by 25 or more individuals, or by an association that represents 25 or more members, the sponsoring agency shall schedule a Public Scoping Meeting. Such requests must be made by **October 17, 2014.**

Written comments and/or requests for a Public Scoping Meeting should be sent to:

Post-Scoping Notices: Environmental Impact Evaluation Not Required

This category is required by the October 2010 revision of the [Generic Environmental Classification Document](#) for State Agencies. A notice is published here if the sponsoring agency, after publication of a scoping notice and consideration of comments received, has determined that an Environmental Impact Evaluation (EIE) does not need to be prepared for the proposed project.

No Post-Scoping Notice has been submitted for publication in this edition.

EIE Notices

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts. This is called an [Environmental Impact Evaluation](#) (EIE).

No Environmental Impact Evaluation has been submitted for publication in this edition.

State Land Transfer Notices

Connecticut General Statutes [Section 4b-47](#) requires public notice of most proposed sales and transfers of state-owned lands. The public has an opportunity to comment on any such proposed transfer. Each notice includes an address where comments should be sent. [Read more about the process.](#)

No State Land Transfer Notice has been submitted for publication in this edition.
