Scoping Notices

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated.

The following Scoping Notice has been submitted for review and comment.

1. Notice of Scoping for: I-84 Hartford Project

Municipality where proposed project might be located: Hartford, CT

Address of Project Location: I-84 from approximately Hamilton Street to I-91 interchange in downtown Hartford.

Project Description: The I-84 Hartford Project was initiated by the Connecticut Department of Transportation (CTDOT) to address structural deficiencies, improve traffic operations and safety, and reduce congestion on I-84 mainline and its interchanges from approximately Hamilton Street to I-91 in the City of Hartford. At the same time, the I-84 Hartford Project will strive to reduce the highway's adverse impact and

footprint on the City, while integrating it more closely into the regional multimodal and interstate transportation system, both existing and planned.

Post-Scoping Notices: Environmental Impact Evaluation Not Required

This category is required by the October 2010 revision of the [Generic Environmental Classification Document](#) for State Agencies. A notice is published here if the sponsoring agency, after publication of a scoping notice and consideration of comments received, has determined that an Environmental Impact Evaluation (EIE) does not need to be prepared for the proposed project.

No Post-Scoping Notice has been submitted for publication in this edition.

EIE Notices

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts. This is called an [Environmental Impact Evaluation](#) (EIE).

No Environmental Impact Evaluation has been submitted for publication in this edition.

State Land Transfer Notices

Connecticut General Statutes [Section 4b-47](#) requires public notice of most proposed sales and transfers of state-owned lands. The public has an opportunity to comment on any such proposed transfer. Each notice includes an address where comments should be sent. [Read more about the process.](#)
