## Scoping Notice

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated. [Read More](#)

### 1. Cancellation Notice for Additional Landings of Helicopters at East Haven Rifle Range

**Address:** 591 North High Street

**Municipality where it would have been located:** East Haven

**Agency Determination:** The Military Department has decided to cancel the additional helicopter landings, as described the last time a notice appeared in the *Environmental Monitor* on [July 19, 2016](#), because of issues unrelated to the environmental review requirements of the Connecticut Environmental Policy Act (CEPA), including but not limited to, additional helicopter landings are no longer required.

**Agency contact:**

**Name:** Robert Dollak

**Agency:** Connecticut Military Department

**Address:** 360 Broad Street, Hartford Armory, Hartford, Connecticut

**Phone:** 860-524-4945

**E-Mail:** robert.f.dollak.nfg@mail.mil

**What Happens Next:** The proposed project is cancelled. Should the project be proposed at a future date, the CEPA process will be initiated again with a new Scoping Notice announcing that intent.

### 2. Notice of Scoping for Hop River State Park Trail

**Municipalities where proposed action might be located:** Columbia and Coventry

**Project Description:** The project is located on the existing Hop River State Park Trail, beginning at its current terminus on Kings Road in Coventry and extending easterly to the trail bridge over the Willimantic River in Columbia. The total length of the project is approximately 4,400 feet.

The project includes the construction of a multi-use trail with a 10 foot wide stone dust surface. Also included in the project, is the construction of a new bridge over the Hop River, just east of Kings Road in Coventry, to replace a former railroad bridge (No. 2.53) that has failed, the replacement of a short bridge (referred to as a "cattle crossing") with concrete pipes, and the replacement of a culvert under Flanders Road in Columbia with a larger one. Signage, fencing, bollards, landscaping, and access control gates will be installed throughout the project limits as appropriate. The addition of a parking lot to the project is being considered north of where Route 66 passes over the Willimantic River. The bridge and the trail lie within right of way owned by the Connecticut Department of Transportation (CTDOT) and the Connecticut Department of Energy and Environmental Protection.

Bridge No. 2.53 is eligible for listing in the National Register of Historic Places, and the CT State Historic Preservation Office (CTSHPO) has determined that its replacement will result in an Adverse Effect to Historic Properties. CTDOT will work with CTSHPO to implement the proposed mitigation measures required for the impact to the bridge. The SHPO determination including the proposed mitigation measures can be Bridge No. 2.53 is eligible for listing in the National Register of Historic Places, and the CT State Historic Preservation Office (CTSHPO) has determined that its replacement will result in an Adverse Effect to Historic Properties. ## EIE Notice

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts. This is called an [Environmental Impact Evaluation \(EIE\)](#). [Read More](#)

### 1. Notice of an Environmental Impact Evaluation (EIE) for City of Bridgeport Facilities Planning for East Side and West Side Wastewater Treatment Plants

**Addresses of Possible Project Locations:** East Side WPCF, 695 Seaview Avenue, Bridgeport, CT 06607 and West Side WPCF, 205 Botswick Avenue, Bridgeport, CT 06607

**Municipality where proposed action is to be located:** Bridgeport

**Project Description:** The scoping notice for this project was published in the October 6, 2020 edition of the Environmental Monitor and a virtual public scoping meeting was held on October 29, 2020. The post scoping notice for this project was published January 5, 2021.

The City of Bridgeport owns and operates two wastewater treatment plants that serve the combined sewer overflow (CSO) community, where both sanitary sewage and stormwater are carried in a single pipe. The wastewater treatment plants are the subject of Administrative Order AOWRMU19001 issued by DEEP on March 1, 2019. In response to this order, a facilities plan was submitted to DEEP on November 24, 2020. Through the Council on Environmental Quality website, the engineering report was submitted for scoping and post-scoping, and a Public Hearing was held. Based on the engineering report, comments received during scoping and post-scoping, and comments from the public hearing, an environmental impact evaluation was completed.

Updates will be made to two wastewater treatment plants (the 13.9-acre West Side plant and the 8.3-acre East Side plant) in southern Bridgeport to bring the facilities into compliance with public safety and environmental health compliance. Work will include the retention and retrofitting of much of the existing facilities, as well as the construction of new buildings, and demolition of several buildings and structures on the sites which will occur entirely within the current parcel boundary. Following local and state approvals of the concepts, the design phase is expected to start Spring 2021 with completion of both plants expected by October 2028.

The City of Bridgeport is already under an enforcement action to upgrade both wastewater treatment plants. The enforcement will be updated to memorialize the schedule of the treatment plant upgrades.

**Project Map:** [Map of Project Area](#)

**The public can view a copy of this EIE [here](#).**

**Scoping Notice and Post Scoping Notice:** The Department of Energy and Environmental Protection published a Scoping Notice on [October 6, 2020](#) and a Post-Scoping Notice on [January 5, 2021](#) for the proposed project in the Environmental Monitor.

Comments on this EIE will be accepted until the close of business on: **Friday, July 23, 2021**

A public hearing may be requested by 25 persons or by an association having more than 25 members within 10 days of this notice's publication, **June 18, 2021**. If you have questions about a public hearing, or other questions about this project, contact Ms. Straut, as directed below.

**Send your written comments via email about this EIE to:**

**Name:** Ann Straut, Sanitary Engineer 3

**Agency:** Department of Energy and Environmental Protection

**E-Mail:** ann.straut@ct.gov

**If you have questions about this EIE, or similar matters, please contact:**

**Name:** Ann Straut, Sanitary Engineer 3

**Agency:** Department of Energy and Environmental Protection

**Address:** 79 Elm Street, Hartford CT 06106

**E-Mail:** ann.straut@ct.gov

**What happens next:** The Department of Energy and Environmental Protection (DEEP) will review the comments received and may conduct further environmental study and analysis or amend the evaluation. DEEP will prepare responses to the substantive issues raised in review of and comment on the EIE and any supplemental materials or amendments. Those responses and all supplemental materials and comments shall be made available in a "Record of Decision" which will appear in the *Environmental Monitor* for public inspection.
