## Scoping Notice

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated. [Read More](#)

*The following Scoping Notices have been submitted for publication in this edition.*

---

### 1. Notice of Scoping for Webster Block Project

**Address of possible location:** 55 Martin Luther King Jr. Drive

**Municipality where proposed action might be located:** Norwalk

**Project Description:** The Municipal Brownfield Grant will be used to remediate the contaminated soil under a 4.97-acre, city-owned parking lot named Webster Block, located at 55 Martin Luther King Jr. Drive. This remediation will enable the development of 472 mixed-income residential units, 40,000 square feet of commercial space, and 1,159 structured parking spaces. The redevelopment project also includes a 16,500 square foot pedestrian-only alley to be lined with restaurants, cafes, and a 25,000 sq. ft. public park.

**Project Map:** [Click here](#) to view a map of the project area.

Written comments from the public are welcomed and will be accepted until the close of business on: **July 6, 2023.**

Any person may ask the sponsoring agency to hold a public scoping meeting by sending such a request to the address below. If a public scoping meeting is requested by 25 or more individuals, or by an association that represents 25 or more members, the sponsoring agency shall schedule a public scoping meeting. Such requests must be made by: **June 16, 2023.**

## **2. Notice of Scoping for Capitol Area System (CAS) Central Plant Upgrades**

**Address:** 490 Capitol Ave

**Municipality:** Hartford

**Project Description:** The Capitol Area System (CAS) central plant, formerly the Capital District Energy Center Cogeneration Associates (CDECCA) plant, was originally constructed in 1988 as a privately-owned and operated natural gas fired powerplant used to provide peaking energy to the ISO New England power market and to provide hot and chilled water to the CAS thermal loop. The CAS loop circulates hot and chilled water produced by the central plant through a three-mile network of underground pipes to provide heating and cooling for the fifteen (15) state, private, and non-profit facilities currently connected to the loop.

Historically, the state contracted with CDECCA to supply hot and chilled water from their facility to serve the CAS thermal loop. In 2019, in response to escalating costs, the Department of Administrative Services (DAS) conducted a study to evaluate economically feasible options for the continued operation of the thermal loop and its corresponding central plant operations that included maintaining the current arrangement with CDECCA, the state purchasing and renovating the existing facility, and the state building a new thermal energy facility.

Based on that study, it was determined that the option to purchase and renovate the existing facility was the most feasible option and would also allow the state to undertake upgrades and improvement to assist in meeting the goals identified in the Governor’s Executive Order (EO) # 1 and # 21-3. In 2021, the power generation function of

the central plant was decommissioned, and the state purchased the facility in 2022 to continue to provide hot and chilled water to the facilities on the CAS thermal loop.

DAS is in the process of conducting a CAS Decarbonization Study to define, develop, and assess options for upgrading the CAS operations, including an evaluation of both supply and demand side options, and is seeking public comment. DAS is not seeking to restore the facility as power generating station.

Supply side options currently being considered include:

1. Hybrid of Heat pumps and electric boilers;
2. 100% electric boilers;
3. 100% heat pumps (ground source or air source);
4. Hybrid of Heat pumps & Natural Gas Condensing boilers that are capable of transitioning to cleaner fuels;
5. 100% Natural Gas Condensing boilers capable of transitioning to cleaner fuels;
6. Other

Demand side options currently being considered include:

1. Reduce loads via energy efficiency at public and private facilities and reduce heating supply temperature;
2. Reduce loads via energy efficiency at public facilities and keep heating supply temperature as is;
3. Maintain existing status quo.

Written comments from the public are welcomed and will be accepted until the close of business on: **Friday, July 7, 2023.**

Any person may ask the sponsoring agency to hold a public scoping meeting by sending such a request to the address below. If a public scoping meeting is requested by 25 or more individuals, or by an association that represents 25 or more members, the sponsoring agency shall schedule a public scoping meeting. Such requests must be made by the close of business on: **Friday, June 16, 2023.**

**Written comments, and/or requests for a public scoping meeting should be sent to:**

**Name:** Matthew Pafford

**Agency:** Department of Administrative Services

**Address:** 450 Columbus Blvd, Hartford, CT 06103

**E-Mail:** [matthew.pafford@ct.gov](mailto:matthew.pafford@ct.gov)

Inquiries and requests to view and or copy documents, pursuant to the Freedom of Information Act, must be submitted to DAS through the [FOI Records Request Portal](#) or call the Commissioner's Office staff at 860-713-5100.

**What Happens Next:** The sponsoring agency will make a determination whether to proceed with preparation of an Environmental Impact Evaluation (EIE) or that the project does not require the preparation of an EIE under the Connecticut Environmental Policy Act (CEPA). A Post-Scoping Notice of its decision will appear in a future edition of the *Environmental Monitor*.

## EIE Notice

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts.

This is called an [Environmental Impact Evaluation \(EIE\)](#). [Read More](#)

***No EIE Notice has been submitted for publication in this edition.***

---

---

## **Agency Record of Decision**

After an [Environmental Impact Evaluation \(EIE\)](#) is developed, an agency will prepare a concise public record of decision, which takes into consideration the agency's findings in the EIE, and any comments received on that evaluation. [Read More](#)
