Scoping Notice

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated. [Read more about the regulations for a Scoping Notice.](#)

The following Scoping Notices have been submitted for publication in this edition.

Notice of Scoping for Mount Pleasant Redevelopment

Address of possible action location: 100 Richard Street, New Britain, CT 06053

Municipality where the action might be located: New Britain

Description: The site is a 22.7-acre property split between the existing Mount Pleasant and Bond Street Public Housing complex and the former Stanley Black plus Decker block nestled between Bond and Armistice Streets in central New Britain. The portion of the project site run by the New Britain Housing Authority (NBHA) currently holds twenty-two (22) barrack-style residential buildings housing 251 dwelling units and two (2) additional free-standing buildings that accommodate NBHA administrative and maintenance offices. Originally constructed circa 1941, the Mount Pleasant Redevelopment intends to demolish the entire site in five separate phases, thus paving the way for new construction that is state-of-the-art, energy-efficient, aesthetically engaging, and safe. Approximately 350 residential units are planned, occupying a range of affordability and size. Consisting of 79 units, the first phase is slated to submit a funding application in 2025.

The State Historic Preservation Office (SHPO) reviewed the project and found that "The Subject Property, known as Mount Pleasant Housing Development (1941) is eligible for listing on the National Register as an intact example of a public housing complex constructed in response to the United States Housing Act of 1937 and the National Defense Act of 1940. Following review of the project scope, the proposed undertaking will have an adverse effect to historic resources, specifically the demolition of the complex. Following discussions with the Project Proponent, the Project Proponent and SHPO agree that the following mitigation measures will resolve the adverse effect:

- The Project Proponent, at its expense, shall commission a Cultural Resource Report for Mount Pleasant. The consultant selected to draft the report must meet the minimum professional qualifications for architectural historian, as outlined in the Secretary of the Interior's Historic Preservation Professional Qualification Standards and Guidelines, part of the larger Secretary of the Interior's Standards and Guidance for Archeology and Historic Preservation. The report shall include, at a minimum: Criteria of Significance, Resource boundaries; Description of contributing and non-contributing resources; and Themes within a period of significance. The final report shall be provided to SHPO for permanent archiving and public accessibility. The report shall be submitted and accepted by SHPO prior to any demolition.
- The Project Proponent shall, at their own cost, sponsor an interpretive exhibit/panel on the history of Mount Pleasant. The exhibit/panel shall be created by a professional that meets the minimum professional qualifications for architectural historian, as outlined in the Secretary of the Interior's Historic Preservation Professional Qualification Standards and Guidelines, part of the larger Secretary of the Interior's Standards and Guidance for Archeology and Historic Preservation. The exhibit/panel shall be installed within the new development, in an area chosen in consultation with SHPO. Final design will be submitted to SHPO for review and comment prior to installation."

A Post-Scoping Notice of its decision will appear in a future edition of the *Environmental Monitor*.

Scoping Notice - Post-Scoping Notice (Need More Time)

If an agency is unable to publish a Post-Scoping Notice within six months after the comment period for scoping, the agency will publish an update with an action status and an estimate as to when a Post-Scoping Notice will be published. Such an update will be published by the agency at six-month intervals until the Post-Scoping Notice is published. [Read more about the regulations for a "need more time" notice.](#)

No notice for additional time has been submitted for publication in this edition.

Post-Scoping Notice

A Post-Scoping Notice is the determination by a sponsoring agency, after publication of a Scoping Notice and consideration of comments received, whether an [Environmental Impact Evaluation \(EIE\)](#) needs to be prepared for a proposed State action. [Read more about the regulations for a Post-Scoping Notice.](#)

The following Post-Scoping Notice has been submitted for publication in this edition.

Post-Scoping Notice for Proposed Modification of Easements to Allow a 199-psig Natural Gas Distribution Pipeline Within Portions of Hurd State Park and Connecticut Valley Railroad State Park Trail, East Hampton, Haddam/Higganum, and Middletown

Addresses of possible action locations: River Road, Middletown, CT (Connecticut Valley Railroad State Park Trail), 74 Hurd Park Rd, East Hampton, CT (Hurd State Park), and Clarkhurst Road, Higganum, CT (George D. Seymour State Park Scenic Reserve/Higganum Meadows Wildlife Management Area)

Municipalities where the action might be located: Middletown, Haddam/Higganum, and East Hampton

Connecticut Environmental Policy Act (CEPA) Determination: On August 19, 2025, the Department of Energy and Environmental Protection (DEEP) published a [Notice of Scoping](#) to solicit public comments for this proposed action in the *Environmental Monitor*.

A public scoping meeting was held on **September 9, 2025**. Comments were received during the public comment period and at the Public Scoping Meeting. [Access a summary of public comments received, and DEEP's responses.](#)

After consideration of the comments received, DEEP has determined **to proceed with the preparation of an Environmental Impact Evaluation (EIE).**

E-Mail: caleb.hamel@ct.gov

What Happens Next:

DEEP will proceed with the preparation of an EIE for the proposed modification of easements within portions of Hurd and Connecticut Valley Railroad State Parks for the purpose of accommodating the operation and maintenance of a 199-psig natural gas distribution line. When an EIE is completed, a notice of the availability of the EIE will be published in a future edition of the *Environmental Monitor*.

EIE Notice

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts, which is called an [Environmental Impact Evaluation \(EIE\)](#). [Read more about the regulations for an Environmental Impact Evaluation.](#)

The following EIE Notice has been submitted for publication in this edition.

Revised Notice of an Environmental Impact Evaluation (EIE) for Rehabilitation/Replacement of the William F. Cribari Memorial Bridge

Revised: Contact information for Freedom of Information Act requests has been updated.

Address of possible action location: Bridge No. 01349 (William Cribari Memorial Bridge) carrying Route 136 over the Saugatuck River

Municipality where the action might be located: Westport

Description: The purpose of the project is to provide a resilient structure that: addresses the structural and functional deficiencies of the existing bridge; and accommodates safe vehicular, bicycle, pedestrian, and marine traffic.

Five alternatives are examined in the EIE document:

- No Build Alternative
- Conservation Alternative (restoring the bridge to a similar condition to that of the 1990's rehabilitation project)
- Rehabilitation Alternative
- On-Alignment Replacement Alternative
- Off-Alignment Replacement Alternative

Details of each alternative and a discussion of the environmental impacts associated with each are found in the EIE.

The Cribari Bridge is listed on the National Register of Historic Places.

- Westport Library, 20 Jesup Road, Westport, CT 06880
- Western CT Council of Governments, 1 Riverside Road, Sandy Hook, CT 06482

There will be a public hearing for the EIE:

DATE: Thursday, March 19, 2026

TIME: 6:00 p.m. Open House, presentation begins at 7:00 p.m.

PLACE: Westport Town Hall Auditorium, 110 Myrtle Avenue, Westport, CT 06880

NOTES: The hearing location is ADA accessible. Persons needing ADA accommodations or language assistance may contact CTDOT's Language Assistance Call Line at (860) 594-2109. Requests should be made at least 5 business days prior to the hearing. ADA accommodations and/or language assistance is provided at no cost to the public and efforts will be made to respond to timely requests for assistance. Persons with hearing and/or speech disabilities may dial 711 for Telecommunications Relay Services (TRS).

Other information: Since the project involves funding through the Federal Highway Administration (FHWA), the project must comply with the National Environmental Policy Act (NEPA), therefore the document is a joint NEPA/CEPA Environmental Assessment/ Environmental Impact Evaluation (EA/EIE).

Comments/Questions about the EIE and/or the public hearing should be sent to (E-mail preferred):

Name: Mr. James Barrows, Project Manager

Agency: CT Department of Transportation, Bureau of Engineering and Construction

Address: 2800 Berlin Turnpike, Newington, CT 06131-7546

What Happens Next:

The CTDOT will review the comments received and may conduct further environmental study and analysis or amend the evaluation. The CTDOT will prepare responses to the substantive issues raised in review of and comment on the EIE and any supplemental materials or amendments. Those responses and all supplemental materials and comments shall be made available in a "Record of Decision", the notice of which will appear in the *Environmental Monitor* for public inspection.

Agency Record of Decision

After an [Environmental Impact Evaluation \(EIE\)](#) is developed, an agency will prepare a concise public record of decision, which takes into consideration the agency's findings in the EIE, and any comments received on that evaluation. [Read more about the regulations for a Record of Decision.](#)

The following Record of Decision Notice has been submitted for publication in this edition.

Record of Decision for a Regional Composting Facility in Kent

Address of possible action location: 44 Maple Street, Kent CT 06757

Municipality where the action might be located: Kent

Description: Utilizing a grant award from the State of Connecticut Department of Energy and Environmental Protection (DEEP) through its MMI Grant Program, the Housatonic Resources Recovery Authority (HRRRA) proposes to site an in-vessel composting unit at the Kent transfer station where food scraps are collected. The in-vessel unit will be solar powered. HRRRA believes that municipalities can create a closed-loop sustainable composting system to manage food waste locally, reducing the carbon footprint of offsite disposal and contributing to the waste diversion goals of the state. On behalf of Kent, the HRRRA is currently in discussions to expand collection with neighboring adjacent, non-HRRRA member communities to bring their material for processing therefore expanding the municipalities being served beyond HRRRA. In addition, food scraps collected from the satellite metroSTOR containers in the Northern HRRRA region will be transported to the Kent transfer station, rather than trucking to more distant processing facilities. This infrastructure will improve, expand, and provide waste reduction for organics management services to this part of the region and beyond. In addition, this will significantly reduce the carbon footprint of food scraps collection and reduce the operating cost to the Town.

State Land Transfer Notice

[Connecticut General Statutes Section 4b-47](#) requires public notice of most proposed sales and transfers of state-owned lands. The public has an opportunity to comment on any such proposed transfer. Each notice includes an address where comments should be sent. [Read more about the land transfer process.](#)

Notice of Proposed Land Transfer in Rocky Hill

Complete Address of Property: 286 Meadow Road, Rocky Hill, CT a/k/a A certain parcel of land more particularly described in a deed recorded at Volume 676 at Page 366 of the Rocky Hill Land Records.

Commonly used name of property or other identifying information: A portion of Quarry Park running north along a rail line in Rocky Hill. Said land is a portion of Quarry Park. The easement is off Goff Brook Lane east of Dexter Road.

Number of acres to be transferred: 0 Acres Fee Simple; 20'± wide, 600'± long Easement

Access a [map of the property location](#).

Description of Property

Below is some general information about the property. It should not be considered a complete description of the property and should not be relied upon for making decisions. If only a portion of a property is proposed for sale or transfer, the description pertains only to the portion being sold or transferred.

Brief description of historical and current uses: The subject area is a portion of a parcel (Map-Block-Lot 04-495) that is held by the Department of Energy and Environmental Protection, hereinafter "DEEP", and principally composed of and used as an open vacant strip of land which is part of Quarry Park. The premises are subject to an easement benefitting adjacent property owned by Rocky Hill Estates, LLC ("RHE") as further set forth in the State's deed described above, as originally granted pursuant to an Easement and Covenants recorded at Volume 90 Page 459 and described in a Stipulated Judgment between DEEP and RHE recorded at Volume 744 Page 830. This easement predates State ownership of the premises. The proposed easement would authorize the operation and maintenance of a sewer line to serve RHE's property and two other residential lots by The Metropolitan District ("MDC") within RHE's existing easement area.

The property to be sold or transferred contains the following:

Buildings/structures:

- Building(s) in use ___ Building(s) not in use ___
- No buildings/structures Unknown ___

Other Features:

- Paved areas ___ Wooded land
- Nonagricultural fields Active agriculture ___
- Ponds, streams, other water, wetlands ___

Utilities:

- Public water supply On-site well Water supply unknown
- Served by sewers On-site septic system Waste disposal unknown

The property is in the following municipal zone(s):

- Residential Commercial Industrial
- Institutional Other: [identify "other" zone]
- Unknown Not Zoned

[Access an aerial view of property.](#)

Is the property in an aquifer protection area and/or a public water supply watershed? No

Is the property in an area identified by the Natural Diversity Data Base as containing state-listed species and/or significant natural communities? No

Is the property or any buildings on the property listed on the National/State Register of Historic Places or designated as a National Historic Landmark? No

Links to other available information: [Property Transfer Survey.](#)

Special features of the property, if known: None

Value of property, if known: Unknown

Type of sale or transfer:

- Sale or transfer of property in fee
- Sale or transfer of partial interest in the property (such as an easement). Description of interest: A 20'± wide easement will be granted to The Metropolitan District, hereinafter "MDC" for an 8" sanitary sewer line.

Proposed recipient, if known: The Metropolitan District

Proposed use by property recipient, if known: Construction of a sewer line by RHE and the operation and maintenance thereof by MDC.

Is the agency imposing restrictions or conditions upon the transfer of the land or land interest? Yes **If yes, describe:** The proposed easement contains DEEP's standard requirements for utility easements and specifies the lots that may be served through the easement area. The proposed easement also protects DEEP's ability to develop the area in the future to public benefit, such as enhancing public access to Quarry Park.

Reason the state of Connecticut is proposing to transfer this property: The DEEP property at issue is subject to an existing easement benefitting RHE's adjacent property, currently being developed as a residential subdivision. The easement will provide for continued operation and maintenance by the Metropolitan District of the development's sanitary sewer after buildout.

Comments from the public are welcome and will be accepted until the close of business on **March 19, 2026.**

Comments may include (but are not limited to) information you might have about significant natural resources or recreation resources on the property, as well as your recommendations for means to preserve such resources.

Written comments* about the proposed property transfer should be sent to:

Agency: Department of Energy and Environmental Protection
Address: 79 Elm Street, 6th Floor, Hartford, CT 06106-5127
E-Mail: Lindsay.Suhr@ct.gov

***E-Mail submissions are preferred.**

(Comments from state agencies must be on agency letterhead and signed by agency head.)

What Happens Next:

When this comment period closes, the proposed land transfer can take one of three tracks:

- If no public comments are received, the sale or transfer can proceed with no further public comment and no further notices in the *Environmental Monitor*, unless the Department of Energy and Environmental Protection (DEEP) elects to conduct a review of the property (see #3).
- If public comments are received, the Office of Policy and Management (OPM) will respond to those comments. The comments and responses will be published in the *Environmental Monitor*. Fifteen days after publication of the comments and responses, the proposed sale or transfer can proceed, unless DEEP elects to conduct a review of the property (see #3).
- If DEEP elects to conduct a further review of the property, it may submit to OPM a report with recommendations for preserving all or part of the property. The report and recommendations will be published in the *Environmental Monitor*, and there will be a 30-day public comment period. DEEP will publish its responses to any comments received and its final recommendation about the property in the *Environmental Monitor*. OPM will then make the final determination as to the ultimate disposition of the property and will publish that determination in the *Environmental Monitor*. Fifteen days after publication of that final determination, the sale or transfer can proceed.

To find out if this proposed transfer is the subject of further notices, check future editions of the *Environmental Monitor*. [Sign up for e-alerts](#) to receive a reminder email on *Environmental Monitor* publication dates.
