Attached please find the Environmental Assessment Summary for the above referenced project. Scoping for the project began on April 8, 2014 and ended on May 9, 2014.

The Department of Energy and Environmental Protection received comments from the State Historic Preservation Office (SHPO) on April 30, 2014. SHPO recommended that a Memorandum of Agreement pursuant to the National Historic Preservation Act be drafted for the proposed undertaking, to include specific mitigative measures. No other comments were received.

Based on CTDEEP's environmental assessment and the comments received, it is recommended that an Environmental Impact Evaluation (EIE) is not warranted for this project, and that a post-scoping notice to that effect be prepared.
