RHODE ISLAND FIRE INSTRUCTORS' ASSOCIATION WELCOMES: BILL HOPSON DRILL GROUND INSTRUCTOR ACADEMY

**18 MAR 2017
9am-2pm
WHERE?**

**Rhode Island Fire Academy
4 Green Lane, Exeter, RI 02822**

WHAT?

This highly interactive program is high energy, mega motivational and all about becoming a better Fire Service instructor on the Drill Ground. This presentation targets the active and engaged Fire Service instructor who seeks a traditional Instructor development block of training. It will help them become more capable, credible and competent. In this very interactive and unique type of training, the attendee will physically rotate through four (4) evolutions, with each evolution containing a set of Instructor Development skills. These skills are specifically designed to improve the ability to supervise and teach students on the Drill Ground. The four rotations, Live Burn, SCBA/Smokehouse, Specialized Skills and Firefighter I/II, are designed to challenge the current capabilities of individual attendees while improving their skills in these four main areas.

Using a specifically designed workbook and a unique, fast paced and highly motivational delivery, this program provides multiple opportunities for some attendees to deliver portions of the class, along with providing all attendees multiple opportunities to immediately improve on what they are doing and how they are doing it.

This program has a specific focus on the Drill Ground. It requires the individual to be actively engaged in the presentation. There is no "down time," nor is there a test of wills for how long an attendee can sit still and stare at a large projection screen. If you are looking to improve on the Drill Ground, this class is for you!
