-----  
**8. Senate Confirms Brock Long to Head FEMA**

On Tuesday, June 20th, the Senate voted to confirm the nomination of Brock Long to be the Administrator of the Federal Emergency Management Agency (FEMA). Mr. Long has more than 16 years of emergency management experience, including as the Director of the Alabama Emergency Management Agency from 2008 -2011.

FEMA's mission is to coordinate the federal government's disaster response, preparedness and mitigation efforts. The agency oversees the United States Fire Administration and a number of first responder grant programs, including the Assistance to Firefighters and Staffing for Adequate Fire and Emergency Response grant programs.

The Senate Homeland Security and Governmental Affairs Committee approved Mr. Long's nomination by voice vote on June 12th. The full Senate approved his appointment by a vote of 95-4.

-----  
**9. Side-by-Side Fire Demo – CT Fire Sprinkler Coalition**

**Side-by-side fires to be set by the CT Fire Sprinkler Coalition  
And the Fairfield Fire Marshal's Association  
to help Connecticut residents understand home fire risks  
and home safety technology**

**WHO:** CT Fire Sprinkler Coalition and the Fairfield Fire Marshal's Association

**WHAT:** A live, side-by-side fire and sprinkler burn demonstration that vividly shows the tremendous speed of a typical home fire and its potential for deadly destruction. Also illustrated is the vital importance of home fire safety technology that can save lives and reduce property damage (smoke alarms and home fire sprinkler systems). The demonstration is open to the public.

**WHEN:** Thursday, June 29, 2017, 11:00

**WHERE:** The Charles McRedmond Firefighters Training Facility  
148 Magee Avenue, Stamford, CT 06902

**WHY:** All U.S. model building codes include the requirement—not the option—to install fire sprinklers in new homes. More than 80 percent of all fire deaths occur in the home. The CT Fire Sprinkler Coalition is using this important event to help people of every age understand how dangerous a home fire is, and how important prevention, detection, suppression and escape are. Connecticut’s code-making body has refused to adopt this requirement each time it has updated the state building code since 2010. Similarly, legislative bills that would have required this life-saving technology have been defeated with help from local fire sprinkler opponents. These opponents, claim this technology is “burdensome, not necessary, expensive”—all myths countered by solid research.
