Emergency Medical Technician Program

ACCELERATED SUMMER

Emergency Medical Technician Program

Course Number: 2017-10

The Emergency Medical Technician (EMT) program is a comprehensive 180-hour course designed to prepare a candidate to become nationally registered as an EMT. The successful student may seek employment as a firefighter or an ambulance EMT. Students will receive didactic and hands-on instruction to provide them with the theoretical and clinical knowledge necessary to excel as an EMT. Foundational instruction in the areas of medical law and ethics, medical terminology, anatomy and physiology, and lifespan development are covered at the commencement of the program before progressing to the mastering of advanced skills. Clinical skills will be developed through a utilization of simulated experiences. The pairing of skills with traumatic situations will provide a real-world context that will better enable graduates to become immediately effective in the field. These simulations will allow for students to demonstrate their ability to be successful in the field.
