COMMISSION ON FIRE PREVENTION AND CONTROL

CONNECTICUT FIRE ACADEMY

A LETTER FROM THE DIRECTOR OF TRAINING

On behalf of our dedicated instructors and staff, I am pleased to present you with the 2009 Connecticut Fire Academy Fire Training Calendar.

One Connecticut fire service success story is international speaker, Michael Callan. Mike is delivering: Responding to Utility Emergencies and Street-Smart Safety a practical approach for Fire Officers at an emergency scene. His stature as a speaker will be joined by such luminaries as Goldfeder, Avillo, Routley, Gassaway, Duborn, and Dunne all participating in our 2009 seminar series.

We continue to recognize and value our instructors, whether they work directly for the Connecticut Fire Academy or are training officers within a local fire department. We have asked Doug Cline to deliver the May 9th instructor development seminar: Training Today's Fire Service.

New for this years calendar is that practical and written certification exam dates now appear in the calendar matrix as well as the chronological Course Overview page. This will assist students to understand the complete requirements (availability commitment) to achieve certification status. Once you take the class, you still have to prove that you have understood the material and can perform to a published standard (NFPA).

Also, please watch for our separate flyers about Hazardous Materials and Rescue weeks. These focuses join our traditional June Fire School as concentrated endeavors. The challenge of new technology, new emergency hazards and our ever changing world events create challenges for our fire service members.

We believe in training as if your life depends upon it...because it does.

To your success,

Adam D. Piskura, Director of Training

Wireless Internet Access

Increasingly, students and instructors are bringing laptop computers to the Connecticut Fire Academy (CFA) especially for officer and instructor classes. The Commission on Fire Prevention and Control (CFPC) now offers limited wireless hotspot access to the Internet in some areas of the CFA. This public service is currently available in the following locations: dorm rooms, auditorium, multipurpose room, and the classroom wing.

Users alone are responsible for security and maintenance of your equipment. The Academy cannot provide you with computer software, hardware, or technical support to include disks, printers, scanners, etc. CFPC/CFA staff is not permitted to support user connectivity issues or user computer issues of any type.
