Ruling re: the respondents' motion to amend its tenth affirmative defense

By motion filed on March 4, 2008, the respondents move to amend their tenth affirmative defense. The complainant filed his objection on March 5, 2008.

The respondents' motion is denied. In seeking to substitute the proposed tenth amended defense in lieu of the existing defense, the respondents seek to retract what the complainant alleges to have been a threatened personnel action in violation of § 4-61dd and circumvent the undersigned's previous ruling granting the complainant's motion to amend his complaint.
