- **Life after Incarceration Video Project**

The Executive and Deputy Directors and members of the legal department will begin production of a documentary film on policing, incarceration, and civil rights in Connecticut. The film will focus on Connecticut as a national leader in reducing the number of incarcerated individuals in Connecticut and the civil rights forward thinking and action in Connecticut. It will focus on the housing and employment challenges faced by formerly incarcerated individuals and will be used as a training tool for future seminars and conferences that will focus on this topic. This is a long-term project with a target date of 2022 for completion. The project will focus on the lives of at least three formerly incarcerated individuals and look at any civil rights injustices that may have contributed to the negative outcomes for these three individuals. Two formerly incarcerated individuals were interviewed for the film, by CHRO intern Matt Stayner.

- **What is Affirmative Action? What is Contract Compliance? Video Project**

In order to address the misnomers related to affirmative action and contract compliance the CHRO will develop, produce, post and distribute a short video project about affirmative action and contract compliance, its purpose, who is helped, what it all means, how people in the state of Connecticut are helped by these programs, the detrimental effects of not having these types of programs and how both programs are good for business and business friendly. Human trafficking disproportionately affects African American females in Connecticut and the CHRO will define the issues and interview experts who can help solve the crisis in Connecticut.
