CJIS-CT Governing Board

Quarterly Governing Board Meeting
July 24, 2025

Held at the Division of Criminal Justice (DCJ),
Rocky Hill, CT.

Update on Previous Action Items

Governing Board Meeting Action Item List			
Task	**Owner**	**Status**	**Date Originated**
Finalize Judicial Review of Security Policy	Diana Varese/ Sridhar Brahma	Complete	4/24/2025
Complete MOU for DEEP ENCON Onboarding	DEEP Commissioner's Office and CJIS	Complete	4/24/2025
Digital Evidence – Work out an approval process for the Digital Evidence study and next steps	James McGennis/Mark Tezaris	In Progress	4/24/2025

Wethersfield PD – CISS Search Use Case

Andrew Jacobson
Investigator/Detective/Officer

- 25+ years in law enforcement
  - 10 years with the Office of the Chief State's Attorney – Cold Case Unit
  - Helped secure arrests, convictions, and prison sentences for multiple violent felons in state & federal courts
- Retired from Hartford PD; now at Wethersfield PD supporting the Detective Bureau
- Leveraging experience, including CISS Search, to advance active and cold cases

Introduction & Purpose:

• Define RMS and its role within the LEA (Law Enforcement Agency)

• RMS capabilities, benefits, and implementation

🚀 **1. Strategic Importance of RMS**

📊 **2. Core (Key) Capabilities of RMS**

💡 **3. Benefits to LEA and Criminal Justice**

🔄 **4. Paper vs. Electronic Workflow Comparison**

🛠️ **5. Implementation – CT RMS Vendor Landscape**

⚠️ **6. Risks & Mitigation**

What is RMS?

Records Management System (RMS) is an agency-wide system that provides for the storage, retrieval, retention, updating, archiving, and viewing of information, records, documents, or files pertaining to law enforcement operations. RMS covers the entire life span of records development— from the initial generation to its completion.

4

Strategic Importance of an CAD/RMS

Most important responsibilities for a police LEA dispatcher CAD*:

- 🚨 **Respond to emergency calls** with speed, empathy, clarity, elicit information
- 📡 **Dispatch officers** to incidents and coordinate field operations
- 🗣️ **Communicate vital information** pulling information from systems
- 📝 **Document calls and actions** accurately for legal and operational use
- 🔐 **Maintain confidentiality** and manage sensitive law enforcement data

Important aspects for a police officer using a RMS in their vehicle:

- 🚓 **Real-time access** to incident data
- 📝 **Efficient report** writing and submission
- 🔍 **Quick search** capabilities
- 🔐 **Secure data** handling and compliance
- 🔄 **Seamless integration** with CAD* and other systems

(*CAD - Computer Aided Dispatch)

Law Enforcement Agency RMS– Key Capabilities

A Law Enforcement Agency (LEA) RMS plays a pivotal role in ensuring operational efficiency, legal compliance, and public safety. Top **responsibilities** of an LEA RMS:

📝 1. **Incident and Case Documentation**

- Capture and manage reports for incidents, arrests, citations, and investigations

🔐 2. **Secure Data Storage and Access Control**

- Store sensitive law enforcement data securely with encryption and access restrictions

🔍 3. **Search, Retrieval, and Sharing of Records**

- Provide fast, reliable search tools for officers, detectives, and administrators

📊 4. **Reporting and Analytics**

- Generate reports for crime trends, resource allocation, and performance metrics
- Support dashboards for command staff to make data-driven decisions

🔄 5. **Lifecycle and Compliance Management**

- Manage retention schedules, record sealing, and purging in accordance with law

Major challenges police officers often face when completing arrest paperwork:

- 🕐 **Time-consuming documentation**

  Officers can spend **three or more hours per shift** on paperwork, which takes time away from active policing and community engagement.

- 🧠 **Memory-dependent accuracy**

  Reports are often written hours after incidents, relying on memory or handwritten notes, which can lead to inaccuracies or missing details.

- ⚠️ **Risk to officer safety**

  Completing paperwork in patrol vehicles can leave officers heads-down and distracted, making them vulnerable to ambushes or accidents.

- 📝 **Manual data entry errors**

  Typing reports manually—especially in non-ergonomic environments like squad cars—can result in factual mistakes, typos, or formatting issues that may affect court proceedings.

- ⏳ **Deadline pressure and legal consequences**

  Missing documentation deadlines can delay or derail prosecutions, especially in jurisdictions with strict filing rules

Pre-CISS Paper Process vs. Electronic Workflow Process

Pre-CISS Paper Process

| Police Make an Arrest | Enter Arrest Data into the RMS System | Prepare paperwork for delivery to Court | Drive the Paperwork to Court | At the Courthouse the Clerk Reviews the Paperwork | Clerk Signs Transmittal List & Returns to Officer | Officer Returns to PD |

Electronic Workflow Process

| Police Make an Arrest | Enter Arrest Data into the RMS System | RMS Sends the Arrest Packet to the Court* | At the Courthouse the Clerk Reviews the Paperwork on their Work Queue | Clerk Reviews Accepts the Paperwork | LEA receives a message from Judicial that the Paperwork is Accepted |

RMS Vendors – Market Landscape

Who Are the RMS Vendors in the State of CT?

- **NexGen RMS**
- **CT State Police**: NexGen RMS
- **Accucom RMS**
- **IMC RMS:** Central Square Parent Company Group
- **Inform RMS:** Central Square Parent Company Group
- **Motorola RMS**
- **ProPhoenix RMS**
  - New Haven MPD
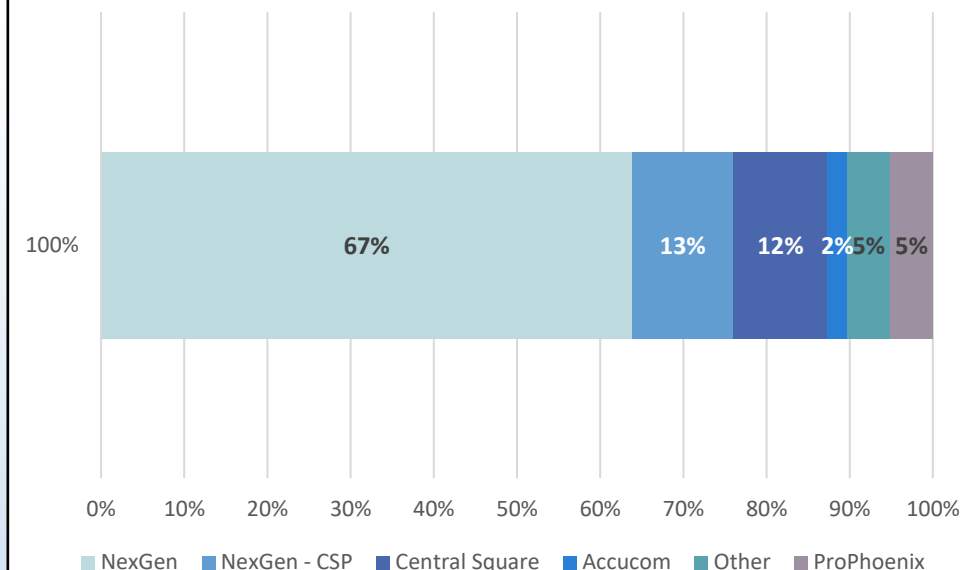

Interesting Facts

- Some other States have mandated a single RMS to simplify the effort and scope
- CT maintains an open and competitive market for RMS selection by each LEA
- When the project started there were over 20 different RMS systems in use in CT
- Now through a competitive CT marketplace we have consolidated down under 10.

Risks/Issues/Mitigations

- **Risk: New** RMS vendor selection by PDs **| Mitigation:** New legislation requires electronic integration, CJIS-CT developing new RMS policy (Public Act No. 23-36)
- **Effective October 1, 2023**, per P.A. 23-36 (C.G.S. Section 54-142s (g)), All RMS Vendors must meet approval and have intent to include connectivity in the implementation

Percent (%) of CT Arrests by RMS Vendor

	NexGen	NexGen - CSP	Central Square	Accucom	Other	ProPhoenix
100%	67%	13%	12%	2%	5%	5%

CT RMS Market Analysis: September 2024 Analysis

CISS Workflow Deployment

Tasks Underway/Accomplishments

- Release 11.4.7 (ECM Document Routing Changes for CSSD) completed on May 09, 2025.
- Completed CSSD training for Pretrial and Probation personnel in GA-15 to enable full paperless processing of arrest documentation
- Ansonia and Seymour PD's achieved full electronic certification Status
- Initiated enhanced monitoring for 8 MPD's that have met the initial qualification to go fully "Paperless"

Key Dates/Next

- Complete certification of 8 PD that are currently in the enhanced monitoring stage prior to full certification
- Arrest Package Workflow: Restart statewide deployment schedule
- Clean Slate Erasures: Enable PDs to process through RMS

Risks/Issues/Mitigations

- Risk: Deployment delays due to PD readiness and prioritization | Mitigation: Increased escalation to PD leadership as well as utilizing DCJ as an escalation point

Municipal Police Departments and Connecticut State Police Progress

Previous Quarter: April 23, 2025 — 88, 70, 31
Current Quarter: July 24, 2025 — 88, 70, 31

- ▪ L1 - Early Arrest Notifications (NexGen and Accucom)
- ▫ Connected for L2 - Full Arrest Packages (NexGen)
- ▨ Fully Operational/Sending L2 (NexGen)

GA and JD Progress

SCO (GA's) — 18, 12
DCJ (JD's) — 13, 10

- ▪ L1 - Early Arrest Notifications (NexGen and Accucom)
- ▨ Fully Operational/Receiving L2 (NexGen)

Phase 1 = L1 = Early Arrest Notifications
Phase 2 = L2 = Full Arrest Packages

13

April 2025 through June 2025 Arrest Package Performance and Defect Tracking

Arrest Package Performance

Defect Trends

Trend is in right direction.
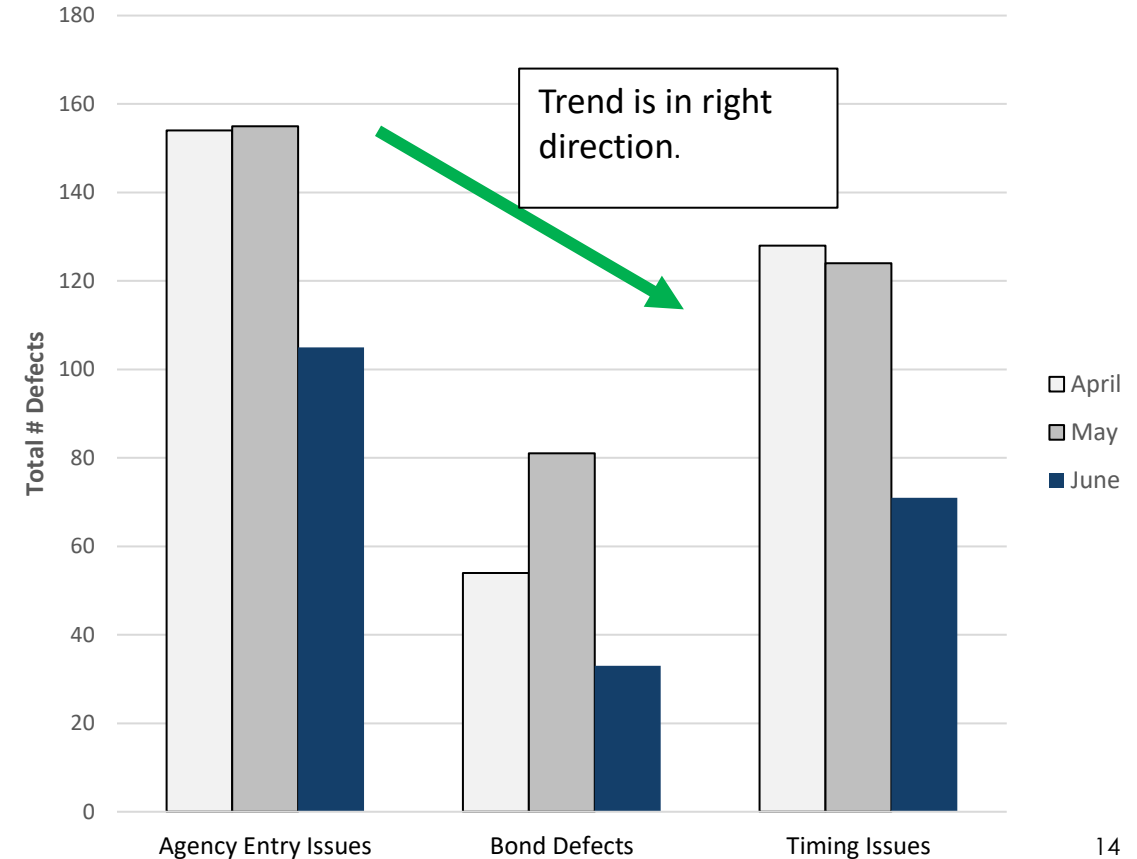

CSP Workflow - Electronic Arrest Deployment Dependencies

CSP Pilot Tasks Underway/Accomplishments

- **NexGen RMS - CT State Police:** Revised software evaluation and pilot training – **COMPLETE**
- **Regional Centers of Excellence:** Establishing centers in East, Central, and West regions – **COMPLETE**
- **Collaboration:** Partnering with municipal police departments for support and training – **IN PROCESS**

Prerequisites for Production Readiness for CISS Electronic Arrest Workflow

- **Court Liaison Staffing:** DESPP to work on a "Plan D" to staff the Electronic RMS Arrest Workflow – **ON HOLD until next fiscal year**
- Approval of CISS as a CJIS compliant "Vendor System" that is certified to have CSP CJIS and FBI Data – **DESPP CSO** – **IN PROCESS**
- Production Servers at DAS Groton Data Center have to be Certified for CJIS and built – **COMPLETE**
  - DESPP CSO Approval on GDC Server Stack – **COMPLETE**
  - Migration of Current RMS Production Servers to new Current Technology Stack in Groton - **DESPP/DAS** – **IN PROCESS**
  - Buildout of new RMS Production Servers to new Future Technology Stack in Groton - **DESPP/DAS** – **IN PROCESS (NexGen)**
- RMS Computer Workstations with All-in-One scanners for dedicated RMS electronic workflow processing (Evidence Officers) – **DESPP/DAS** – **IN PROCESS**
- All JD Court Systems must be online and receiving Electronic Arrest Workflow before CSP can onboard – **CJIS-CT/Judicial/DCJ** – **IN PROCESS**

1. Pilot Team on Track

| Start 10/1/2024 | → | Target: Q3 2025 |

2. Administrative Projects – High Risk Activities

| Start 10/1/2024 | → | Target: Q3 2025 |

PROBABILITY / IMPACT risk matrix: HIGH probability–LOW impact = yellow; HIGH probability–HIGH impact = red (2); LOW probability–LOW impact = green (1); LOW probability–HIGH impact = yellow.
CISS Search Training and Onboarding

| **Target:** Search Usage/Onboarding Efficiencies | **Status:** On Schedule | **Budget:** Aligned within budget limitations |

Tasks Underway/Accomplishments

- **CJIS-CT Accomplishments**: Trained approx. 1,000 new CISS Search users (July 2024–July 2025); on pace to hit 7,000 trained users by December 2025. **|** Onboarding underway for MTA Police, Amtrak Police, and Litchfield County Dispatch (working directly with sponsoring PD Agency Admins)**|** Southbury PD on deck for onboarding **|** Continuously updating and adding training materials; shifting to fully electronic onboarding with eCUAR.**|** Partnering with the Law Enforcement Imaging Technology Task Force (LEITTF) to support IACP's white paper on facial recognition—positioning CJIS-CT at the forefront of emerging tech guidance.
    - **Underway:** Creating CISS Search accounts for personnel from DEEP (all are trained and have CUARs on file).
    - **Underway:** Onboarding roughly 385 users from DPDS (CUARs in process) and working with CSSD on their 400+ users.
    - **Underway**: New Agencies currently working toward onboarding - MTA, Amtrak, Litchfield County Dispatch and Southbury PD
    - **Underway:** Gathering the next group of agencies/departments to onboard (example is Northwest Public Safety and State Colleges).

Key Dates/Next

- **Q3:** Complete onboarding tasks for MTA, Amtrak, Southbury PD and LCD.
- **Ongoing 2025**: CISS Search Training to achieve steady state
    - Training at CSP and MPD Academies (Last trainings - 7/8/25 CSP Academy and 7/16/25 at POSTC)
    - Train the Trainers (working on requirements with POSTC)
    - Rollcall Training (identify super users for Train the Trainer)

Risks/Issues/Mitigations

- **Issue**: Manual onboarding inefficiencies | **Mitigation**: eCUAR (In Testing)
- **Issue**: Certification success does not equate to increased usage. | **Mitigation**: Exploring usage opportunities and partnerships (JOCE/JASPA).

of LEAs (other than large state agencies) Trained For Access to CISS Search

Total of all trained: 6609

	Complete	Remainder
Non State LEAs	95	5
In scope LEAs to Onboard	10	5
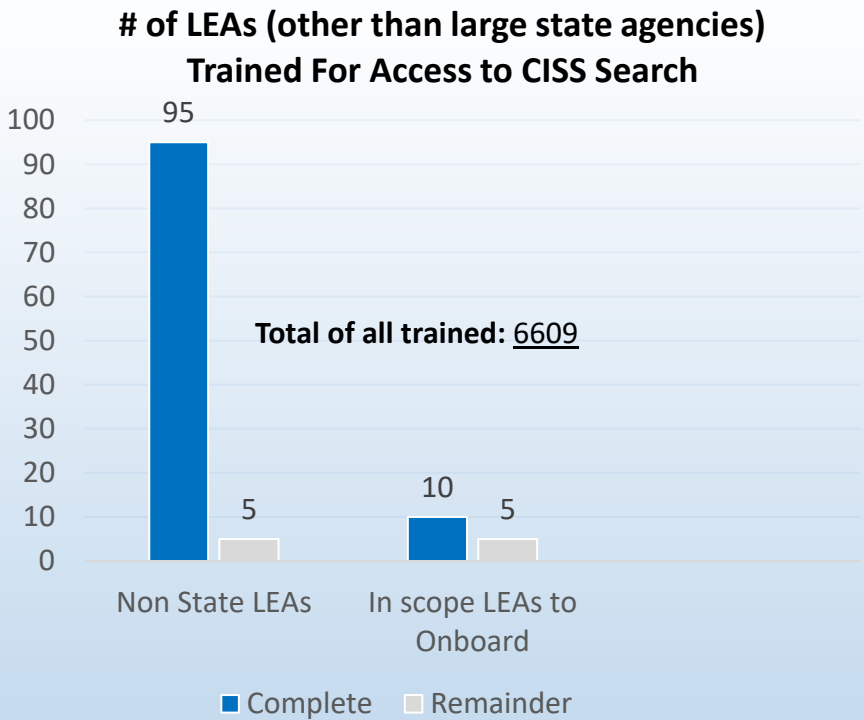

Total MPDs : 95 which includes Southbury PD

New Agencies Awaiting Onboarding: 4 is in process (MTA, AMTRAK, LCD, Southbury PD) with DEEP being onboarded.

Digital Evidence Study

Target: 08/2025	**Status:** Phase – Closeout	**Budget:** $500K/($197K Remaining)

Accomplishments

- ✓ Current State Assessment Document – **Complete**
- ✓ ROI/TCO Analysis – Planning and Costing for each Solution Approach (1-5) – **Complete**
- ✓ Study Team and Stakeholder Solution Selection Workshops (Steps 12 & 13) –
    - ✓ 1st Workshop (Virtual) – **Complete (12/12/24),** 2nd Workshop (In-Person) - **Complete (01/16/25)**
- ✓ Future State Document – **Complete**
    - ✓ Revision to include Solution Approach Ranking Matrix and ROI – **In Process**

Tasks Underway

- ✓ Executive Summary Document - **DRAFT Complete – Distributed for Executive Stakeholder Review**
- ✓ Stakeholder Agency Executive Reviews – **In Process**

Results

- ✓ All Five (5) Solution Approaches analyzed in the Study – Comparison in Graph in Appendix - **Complete**

Key Dates/Next

- • NASPO - State Level DEMS Contract Option – **In-Process** – AG's Office Legal Review
- • Pilot – Solution Approach #4B – Demonstration of Digital Media Files as part of the CISS Electronic Workflow – Q3/Q4
- • **Draft reports are with key stakeholder for review. We expect it to take 1-2 months to finalize all documents.**

Risks/Issues/Mitigations

Financing – Risk: without funding this project will be on hold | Issue: Capital Funding is limited **| Mitigation**: Pursue funding through grants and state agencies for a low-cost enhancement to electronic arrest paperwork workflow which provides significant value to Stakeholders.

CISS Search Analytics and Research

CISS Three Key Products	**CISS CJIS Data Sources**

CISS Search

CISS Search De-identified Database

CISS Analytics using MS Power BI and Potentially AI
CJIS-CT Deidentified Master Database

Included Data Sources	System
CSSD	CMIS
DESPP	MNI/CCH
DESPP	SOR
DMV	DRIVERS
DMV	VEHICLES
DOC	OBIS
DOC/BOPP	CASENOTES
SCO	CIB
SCO	CRMVS
SCO	POR
SCO	PRAWN

Key Points:
➢ Prototype started – Work part time. Internal demo targeted for September 2025
➢ On-going reusable solution for research instead of "one-time" throw away solutions
➢ Governance to share de-identified data - TBD
➢ Security will be included – TBD

Recent Requests Include:
➢ Sentencing Commission
➢ Police Use of Force Transparency (PA 19-90)
➢ OPM/Urban Institute
➢ Connecticut Racial Profiling Prohibition Project

CISS Project Timeline

CISS Phase 1

Product Development software and hardware infrastructure (Complete 2020)

CISS Phase 2

Additional RMS integrations/CISS version upgrades & Workflow Deployment/Training for PDs and Agencies (ongoing thru December 2028)

2025–Future

Sustainment phase of the product life cycle including on-going training and support, new initiatives and Use Cases, and data analytics/reports that is available for its customers.

2009
- Initiate CISS Planning Phase.

2012
- Business/Technical Process Reviews.

2012–2015
- Agency Negotiation and Agreement to Share CJIS Data. Created Governance structure and signed major vendors.

2016–2020
- CISS Software Development. Initial training of State agencies and Municipal Police Departments.

2018–2020
- Releases CISS Software

2020–2028
- Continued Training of State Agencies and Municipal Police Departments

2022: Case Success
- New Milford PD uses CISS to solve bank robbery case.

2023
- CISS reaches user milestone with 4,000 searches and 5,000 information exchanges monthly.

2024
- Cannabis Erasures
- Clean Slate
- Established CISS Users Group
- Internet Access for CISS Search

2025–Future
- New CISS releases with new features
  - Additional Digital Workflows for information sharing between Connecticut criminal justice community.
  - CISS Search 2.0 upgrade to include Police Community Alerts, new source systems and AI search capabilities
  - Other (input from CISS users)
- Complete CISS Workflow Deployment for about 80 PDs and State Police using NexGen RMS
- Add additional RMS vendors to get 90%+ of all arrest using CISS Digital Workflows
- Digital Evidence Management (potential)
- CISS Analytics Product Development to Share De-Identified CJIS Data for Policy Analysis.
- Steady state for maintenance, support and budget.

CJIS-CT Project Descriptions

- **CISS Phase 2: Workflow Deployment**

    The Workflow will replace current paper-based workflows with electronic messages and documents. L1 (Early Arrest Notifications) and L2 (Full Arrest Packages) represent different arrest package types.

- **CISS Phase 2: CISS Search | Connectivity**

    CISS will take data input from criminal justice databases and make it searchable to law enforcement and criminal justice officials with the proper security clearance and credentials. This project is for deploying Search tool to municipal PDs and other agencies.

- **CJIS-CT Transition from Deployment to Steady State Phase**

    As CJIS-CT and our partner agencies complete the deployment of CISS Workflows for NexGen, Accucom and IMC by the end of 2024, CJIS-CT will have transitioned to a "steady state" operational and maintenance phase.

    - We will maintain a build, test, deploy capability and change control for new releases of CISS, and other production systems.

    - Current effort to transition consultant positions to state positions to retain critical domain knowledge in progress.

    - New significant projects will need funding for each project.

CJIS-CT Project Descriptions

- **Clean Slate Automation System**

  Under legislation, Section 54-142a of PA 23-169, persons with criminal convictions will have certain records erased automatically after a set period of time. Operation of law is construed as Automated Erasure in the context of systems specifications used to develop and support technology components that implement the Clean Slate statute. CJIS-CT supports the Sentence Discharge Database (SDDB) component of the Clean Slate Solution.

- **Clean Slate Message Viewer Portal Training**

  CT Legislation has launched a Clean Slate Automatic Erasure Initiative. The Clean Slate Messages will be loaded into a CJIS-CT web application called Message Viewer Portal (MVP). Each LEA will need to have designated users with CJIS-CT accounts to log into the MVP where they will be able to select and download the Clean Slate Messages directed to their Agency for Erasure Action.

CJIS-CT Project Descriptions

- **Digital Evidence Study**

  Deliver a study which aims to characterize the design and implementation of a digital centralized storage system, with sharing capabilities, effectively addressing the challenges faced by State agencies and municipal police departments in managing and storing digital evidence securely and efficiently. This includes storage of Body Worn Camera (BWC) and dash cameras bulk media. A key objective is to evaluate utilization of CISS for sharing of digital evidence. A report and briefing will be provided to interested stakeholders including executive, legislative and judicial branch stakeholders for direction on the implementation phase.

- **RMS Vendors – Integration Updates**

  Police Records Management Systems (RMS) enable law enforcement agencies to store, retrieve, retain, archive, and view information, records, or files pertaining to law enforcement operations.

Clean Slate Automation System – Sentence Discharge Database (SDDB)

Deferred Scope Target: 2025   **Status:** Schedule – Live 1/1/2024   **Budget:** $1,640,754*

Tasks Underway/Accomplishments

- **SDDB:** In production, supporting Clean Slate automation with 23+ year case history
- **SDDB v1.3.1:** Updated matching criteria in SDDB code to properly identify related transferred cases
- **DUI 14-227a:** Completed Custom eligibility development for SDDB and CCH

Key Dates/Next

- **DOC Discharges:** Reapplying ADMs to SDDB data after non-custodial record processing
- **Project Scope & Data Remediation:** Continue to scope and address new requirements identified and prioritized during initial launch
- **Erasure Reversal:** Discovery and scoping of process

Risks/Issues/Mitigations

- **Risk:** Additional scope added to requirements**| Mitigation**: Any changes to CJIS requirements will need to follow the SDLC process which could impact schedule and budget

*CJIS-CT Budget
- Deferred Scope (new legislation PA 23 -169)
- Additional budget request made to OPM for FY 2025/2026 Project Work

Digital Evidence Solution Ranking Analysis

State of CT - Digitial Evidence Solution Approaches Ranking (Study Team Result)

Chart: X-axis "Effort and Cost (Viable & Feasible Average)" from 0.5 to 2.0; Y-axis "Desirable (Meets Success Factors)" from 3.4 to 4.4

- High Impact, Lower Cost/Effort (upper left quadrant)
- High Impact, Higher Cost/Effort (upper right quadrant)
- Low Impact, Higher Cost/Effort (lower right)

Solution Approach #2, 0.7, 4.0
Solution Approach #1, 1.4, 4.1
Solution Approach #5, 1.9, 4.3
Solution Approach #4, 1.6, 4.0
Solution Approach #3, 1.7, 3.6

Inset: Desirable, Feasible and Viable — Three Lenses of Design Thinking (Goal; Desirable; Feasible; Viable). Interaction Design Foundation interaction-design.org. *The design thinking process aims to satisfy three criteria: desirability (what do people desire?), feasibility (is it technically possible to build the solution?) and viability (can the company profit from the solution?). Teams begin with desirability and then bring in the other two lenses.*

Solution Approach #1 – Mixed Model – 3rd party DEMS vendor, State of CT hardware, CISS identity management

* Phase 1, Phase 2 - ($16.3 MM)*

Solution Approach #2 – SaaS model – Vendor provides software and storage

* Phase 2 - ($8.4 MM)*

Solution Approach #3 - CT State-built sharing workflow and portal for PDs with storage included. Link-based sharing.

* Phase 1, Phase 2, Phase 4 - ($19.4 MM)*

Solution Approach #4 - CT State-built CISS arrest integration, allows direct pipeline from LEA to prosecutor

* Phase 1, Phase 2, Phase 3 - ($17.7 MM)*

Solution Approach #5 - CJIS-CT builds and maintains the entire Chain-of-Custody Architecture with storage infrastructure

* Phase 1, Phase 2, Phase 3, Phase 4, Phase 5, Phase 6 - ($21.9 MM)*

- Initial Buildout Costs Only for Value Ranking Exercise – Decision Matrix Group Exercise – Not the Full TCO Values)

- See Digital Evidence Study for the Full TCO/ROI Analysis.

Digital Evidence Study – Development & Implementation Phases

Phase I - Cost $13 MM Initial/ $1.1MM Annually

Build Infrastructure for Internal on Premise Storage with Specialized Interface

12 Months

Storage Array Unit 1

* LEA Specific Adjudicated "Held Evidence" for long Term Retention

Storage Array Unit 2

* Regional CDI and CSAM Ultra-Secure Isolated and "Privileged" Storage

Phase II - Cost $7.9MM Initial/ $7.1MM Annually

Implement the DEMS Software both Cloud and on-Premise for Crime Scene and Bulk Media

6 Months

SaaS Vendor Solution with Hosted DEMS Software Police Case Crime Scene Bulk Media and Case File Evidence

Data Storage on-premise with integration to Storage Array #1

Data Storage in Cloud with CJIS compliant datacenter vendor

Phase III – Cost $2.8MM Initial/ $0.8MM Annually

Electronic Arrest Workflow Integration with CISS and DCJ Link-Based File API Integration to Storage Systems (DEMS)

9 Months

Additional functionality to CISS Electronic Workflow to allow Digital Media to be included as part of the Arrest Package

Files from Phase II DEMS solution for link based inclusion

CISS Storage of large media file on Phase I Storage Array Unit #1

Phase IV - Cost $4MM Initial/ $1MM Annually

Integration with Body/Dash Cam Vendors and with RMS(s) for automatic tagging and storage
9 Months

Integrate with Dash/Body Camera Vendors to Auto Tag and upload Digital Evidence into LEA's Case File in Phase II DEMS SaaS solution

Integrate with RMS Vendors to allow RMS auto-Tagging of Digital Evidence to be stored into LEA's Case File in Phase II DEMS SaaS solution

Phase V - Cost 2.8 MM Initial/ $1.2MM Annually

Hosting for Forensic Software Tools for Major Crimes

6 Months

Centralize the Contracting, Procurement, Administration, and Maintenance of specialized Forensic Software Tools for LEA Major Crimes Division

Application Server Hosting of the Specialized Forensic Software on Centralized High Performance Application Servers connected directly to High Performance file storage. No Network.

4 Year Timeline
- All 6 Phases
- $60MM

RMS Vendors – Integration Updates

Targeted Completion for Current Vendors: Q4 2027	Status: Tracking	Budget: On Budget ($1,880,000 total budget)

Tasks Underway/Accomplishments

- **NexGen RMS**: 24 municipalities using Level 2 CISS Electronic Arrest Package Workflow
- **CT State Police**: Level 2 UAT completed, HQ pilot training ongoing
- **Accucom/IMC RMS:** Final stages of Level 2 certification, PD pilot testing to follow
- **Inform:** Contract initiation phase with Hartford PD
- **ProPhoenix RMS:** Q1 Programming Efforts are underway
- **Standard Operating Procedure (SOP):** CJIS Agencies and RMS vendors is in process

Key Dates/Next

- **Accucom & IMC:** Level 2 pilot projected completion in Q4 2025
- **DESPP LiveScan:**
  - ✓ Initial Idemia interface: Completed in Q4 2024
  - o Second round Idemia interface: Programming changes ongoing

Risks/Issues/Mitigations

- **Risk: New** RMS vendor selection by PDs **| Mitigation:** New legislation requires electronic integration, CJIS-CT developing new RMS policy (Public Act No. 23-36)
- **Risk:** Effective and Direct Communications with CJIS-CT from LEA Stakeholders | **Mitigation:** CJIS-CT has become a member of the CT Police Chiefs Association (CPCA) and will attend all regional meetings which will provide an additional continuous path for bi-directional communication.

#4 Issue – FY25 and FY26 funding

There is a Budget Deficit of approximately $1.915M for FY25. CJIS-CT had a $1,604,569 budget lapse (rollover) from FY24 that was planned to be used in FY25 and has not been made available. CJIS-CT's General Fund Allotment for FY25 will be $4,757,254 after $250K rescission and no rollover. This has resulted in CJIS-CT using current fiscal year allocations to pay invoices for work incurred in the previous fiscal year, hence reducing the monies available for current year work.

Impact:

➢ **Key Consultant Cuts** – CJIS-CT has reduced 12 consultants out of 37 in Q3 FY25. That's about 1/3 of our consultant staff. The work required for CISS workflow deployment will increase burden on remaining staff.

➢ **Key High Visibility Projects Can Be Significantly Delayed** – CJIS-CT is managing about 58 separate projects (both stakeholder-driven and internal infrastructure related).

Proposed Mitigations: (also see next page)

➢ **Request for funding** – Terminated 12 consultants which will significantly reduce the expected $1.915M budgetary gap.
Based on receiving funds we are reducing the severity of the Issue score

Important: FY25 Deficiency funding received ($1.25M GF)

Proposed Mitigation Continued:

- **IT Capital Investment Funding Request** – On 3/24/25 CJIS-CT met with the IT Capitalization Committee to request additional funding for the CISS Workflow deployment for FY25 and FY26. Deficiency request in process to close the gap for FY25. The delays are primarily from both vendor delays with RMS software updates, and longer than anticipated change management process for onboarding all police departments, courts, and prosecutor offices. Often CJIS-CT must wait until police departments have availability to collaborate with training, connectivity, etc. CJIS-CT anticipates completion of deployment in Q2 FY27 for 90%+ of all arrest information. NEW - Workflow Deployment Bond Funding for FY25 and FY26 Q1 has been approved and received as requested.

- **Clean Slate Erasures IT Capitalization Funding Request** - On 3/24/25 CJIS-CT met with the IT Capitalization Committee to request funding of $1,283,752 to complete the known scope of work for the Clean slate project. Approximately, $300K will be use to reimburse the general fund work done in 2025 for Clean Slate. NEW - FY25 Clean Slate funding has been approved and received.

- **CJIS-CT to use more automation, use Artificial Intelligence (AI) to "do a lot more with less" and re-evaluate contracts for Maintenance & Support** - We are automating more of our testing of new code to reduce costs, exploring possibilities of adding AI for CISS Analytics and renegotiating maintenance agreements or instead leverage time & materials contracts. CJIS-CT will use a risk-based methodology for this process. NEW - Working with BITS AI Workgroup/Use Case review as required

- **CJIS-CT to explore chargeback for special projects-** CJIS-CT has been successful of receiving funding from both UCONN (for racial profiling prohibition project) and DMV (State Marshall Project Portal). New projects that are not core scope will require funding. NEW - Exploring additional funding sources for analytics/reporting projects with OPM and IMRP

- **CJIS-CT to continue to pursue grants-** CJIS-CT has received grant funding for JAG Byrne, and NCHIP grants. CJIS-CT will continue to purse grants going forward to help supplement CJIS's budget. NEW -Received NOGA on NCHIP grant for DWOR data source integration

40

#1 Risk – As new RMS vendors come into the state and have LEAs as customers, we will require them to connect to CISS Digital Workflows. The challenge lies with cross-branch/cross agency resource capacity to support the onboarding these new vendors. This work will require resources and hence agency funding may be required for each new vendor integrated into CISS.

Impact:

➢ If proper planning is not done for onboarding new RMS vendors, CJIS-CT and stakeholders will be negatively impacted financially and delays may occur to existing projects at the time of connecting new RMS vendors.

Mitigation and Contingency:

➢ ProPhoenix is in the process of completing the security audit for them to participate in the integration effort for CISS Workflows. CJIS-CT is also pursuing adding one more vendor that has the Hartford PD as part of the CISS Workflows.

➢ CJIS-CT is exploring options to allow smaller PDs that do not have an RMS vendor connected to CISS to be able to send attached documents that can be processed for CISS Workflow.

CJIS-CT Transition from Deployment to Steady State Phase

Target: 12/31/25 of Key Initiatives	**Status:** On Schedule	**Budget: IT Capitalization Funds requested $1.7M for FY26**

- Additional funding for one additional RMS has been approved and funds received.

➢ **Staffing:** CJIS-CT has stabilized with the reduction of 12 consultants to now about 25. Schedules have been pushed forward in the future to adjust for smaller staff number. Legal Council/Attorney required on team to handle >100 MOUs needed and legal issues arising state-wide implementation

➢ **New - Artificial Intelligence (AI) and Automation:** Projects started for using technology to "do more with less" and in compliance to the State AI responsible use policy.

➢ **Documentation:** Most required documentation and SOPs completed. Focus on source system MOUs and CISS Digital Workflow SOPs.

➢ **CISS System Uptime:** Testing telemetry software for easier monitoring and issue resolution to meet 99.9% uptime goal. Project in progress

Financial Plan for Steady State:

Budget Control: Reducing rollover funds between fiscal years.

Funding: Working with OPM for technical adjustments, seeking funding from other agencies for requested projects, and pursuing grants for CJIs.

Key Dates/Next

- CISS Search 2.0 planned release for 2026
- CISS Analytics product formally added as a product given demand from stakeholders

Transition to Steady State Key Steps
Build, Test Deploy CISS State-wide

Transition to:
- Planned Releases
- Key Consultants to State Positions
- Steady Budget

Steady State:
- Operational Support with 99.9% Uptime
- New CISS Releases & CJIS-CT Projects Mgt

Statewide JD Workflow Deployment: NexGen RMS

Green = On track
Yellow = Watch
Red = Barriers

Yellow and Red need a date for closure. If not started just put planned date in cell. Completion date column is date for entire GA. Mitigation is general statement about how to cure Yellows and Reds. We review as management team 2x a week.

48
