Subject: RE: Schick

Good morning, Keith. I heard back from our plant team in Milford. For the same reasons as before, they want to pass on the cell tower proposal. As expected, they do not believe the lease would be worth the noise created in the community with the residents nearby.

Let me know if you need anything else.

Thank you,
Jake

Jake,
In anticipation for our call today, I had my engineer put something together just so you can see what we were thinking.
The existing sign is about 40' tall with 4 steel legs supporting it. Our proposal would be to leave the sign

in tact and install a tower and remove one of the supporting legs. The tower would become the new support.

We would also need room at the base of the tower for our ground equipment.

Looking forward to speaking with you this afternoon,
