RE: **DOCKET NO. 500** - Arx Wireless Infrastructure, LLC application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 1061-1063 Boston Post Road, Milford, Connecticut.

Dear Attorneys Ball and Pires:

The Connecticut Siting Council (Council) requests your responses to the enclosed questions no later than July 15, 2021. To help expedite the Council's review, please file individual responses as soon as they are available.

Please submit an original and 15 copies to the Council's office and an electronic copy to [siting.council@ct.gov](mailto:siting.council@ct.gov). In accordance with the State Solid Waste Management Plan and in accordance with Section 16-50j-12 of the Regulations of Connecticut State Agencies, the Council requests all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

**Please be advised that the original and 15 copies are required to be submitted to the Council's office on or before the July 15, 2021, deadline.**

Copies of your responses shall be provided to all parties and intervenors listed in the service list, which can be found on the Council's website under the "Pending Matters" link.

Any request for an extension of time to submit responses to interrogatories shall be submitted to the Council in writing pursuant to §16-50j-22a of the Regulations of Connecticut State Agencies.

Sincerely,

*s/Melanie Bachman*

Melanie Bachman  
Executive Director

c: Service List dated May 6, 2021

**Docket No. 500**  
**ARX Wireless Infrastructure, LLC**  
**Pre-Hearing Interrogatories**  
**July 1, 2021**  
**Set Two**

33. Pursuant to CGS §16-50o, please submit a copy of the unredacted lease for the proposed site.
34. With reference to Arx response to Council interrogatory 4, Arx response to the City's interrogatory 7, and Arx response to cross-examination during the hearing of June 15, 2021, please clarify the following information:
- a) The address of the nearest residential parcel;
  - b) The distance to the property line of the nearest residential parcel;
  - c) The distance to the nearest residence.
35. The response to Council interrogatory number 26, states that a stealth tree tower would be the best stealth design option for this site. Assuming a stealth tree were constructed at this property, please answer the following:
- a) What would be the height at the top of any tree branches or appurtenances?
  - b) What would be the color and texture of the monopole?
  - c) How far off the monopole would the antennas extend?
  - d) Would the antennas and antenna mounts be wrapped or painted in colors similar to the tower?
  - e) Would the matching wraps/paint for the antennas and mounts apply to all carriers and future colocations on the facility, including any equipment modifications?
  - f) Would the monopine branches be thick enough and long enough to conceal the carriers' antennas and the antennas of other colicators?
  - g) Does Arx have a vendor for tree tower designs?
36. Please characterize the visual impact of a monopine from the residential areas to the south and east?
37. Would a rooftop tower on either of the buildings at the host parcel be a viable alternative to the proposed facility? If not please provide reasons why.
38. Please provide the estimated heights above ground level (agl) for yield points for both the proposed monopole tower and a possible stealth monopine tree tower.

39. Please provide a map depicting the distance of the following structures from the base of the proposed tower:
  - a) The rear of the Firestone building;
  - b) The rear of the Mexico Tipico building.
40. Provide a drawing of the potential relocation of the proposed facility on the host property as provided in Arx testimony during the hearing of June 15, 2021, including distances marked to all property lines and onsite buildings.
41. Please describe any perimeter erosion and sedimentation control measures to be installed.
42. How would the facility be decommissioned at the end of its useful life?
