To Whom It May Concern:

Cellco/Verizon is putting in an application with the Ct. Siting Council to build a tower in Woodbridge. Unfortunately, they are proposing a tower in a residential area. Residents within the proposed tower area are against this. Woodbridge town officials and residents have proposed alternate sites for Verizon. They rejected the alternate sites.

We tried appealing to Verizon about the devastating effect that this tower will have on our property values. This tower will have a deleterious effect on the aesthetics of our neighborhood. It may have potential health risks, as yet undetermined. One of the alternative sites offered to Verizon was at the town garage. The town told Verizon that they could build a tower that is higher than the proposed residential tower height. Please help us convince Verizon to build a tower in a non residential area.

Thank you.

Richard Feldman
