RE: **DOCKET NO. 503** - Arx Wireless Infrastructure, LLC application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 43 Osgood Avenue, New Britain, Connecticut.

---

During a meeting of the Connecticut Siting Council (Council) held on September 23, 2021, the Council, on its own motion, voted to reopen the evidentiary record for the above-referenced proceeding *specifically limited to* consideration of whether the two additional alternative sites suggested by the City of New Britain (City) are available and feasible options for tower development. Furthermore, the Council's decision to reopen the evidentiary record rendered the City's September 10, 2021 Request for Extension of Time to Submit a Post Hearing Brief and Proposed Findings of Fact moot.

An additional evidentiary hearing session *specifically limited to* consideration of whether the two additional alternative sites suggested by the City are available and feasible options for tower development will be held on **Tuesday, October 5, 2021** via Zoom conferencing, beginning at **2:00 p.m.** A copy of the Revised Schedule and Instructions for Access to the Continued Evidentiary Hearing are attached.

Parties and intervenors are requested to file additional pre-filed testimony and exhibits regarding the two additional alternative sites suggested by the City on or before the close of business on Thursday, September 30, 2021.

If you have any questions about Council procedures, please do not hesitate to contact me at the Council office at 860-827-2935.

Thank you.
