Re: Haddam Quarter Solar, LLC – Application for a Certificate of Environmental Compatibility and Public Need for a 2.8 MW solar facility at 0 Haddam Quarter Road, Durham, Connecticut

Dear «Salutation»:

Haddam Quarter Solar, LLC, a wholly-owned subsidiary of Louth Callan Renewables (“LCR”) will be submitting an application to the Connecticut Siting Council (“Council”) on or about July 9, 2021, for the construction of a new solar photovoltaic facility in the Town of Durham, Connecticut.

The proposed facility would consist of a 2.8 megawatt alternating current ground-mounted solar photovoltaic facility on an approximately 49-acre parcel at 0 Haddam Quarter Road, north of Johnson Lane in Durham (the “Property”). The location and other features of the proposed facility, including exact number of solar panels, are subject to change under the provisions of Connecticut General Statutes § 16-50g et seq.

State law provides that owners of record of property which abuts a parcel on which a facility is proposed to be located must receive notice of the submission of this application. This notice is directed to you either because you may be an abutting land owner or as a courtesy notice.

July 1, 2021
Page 2

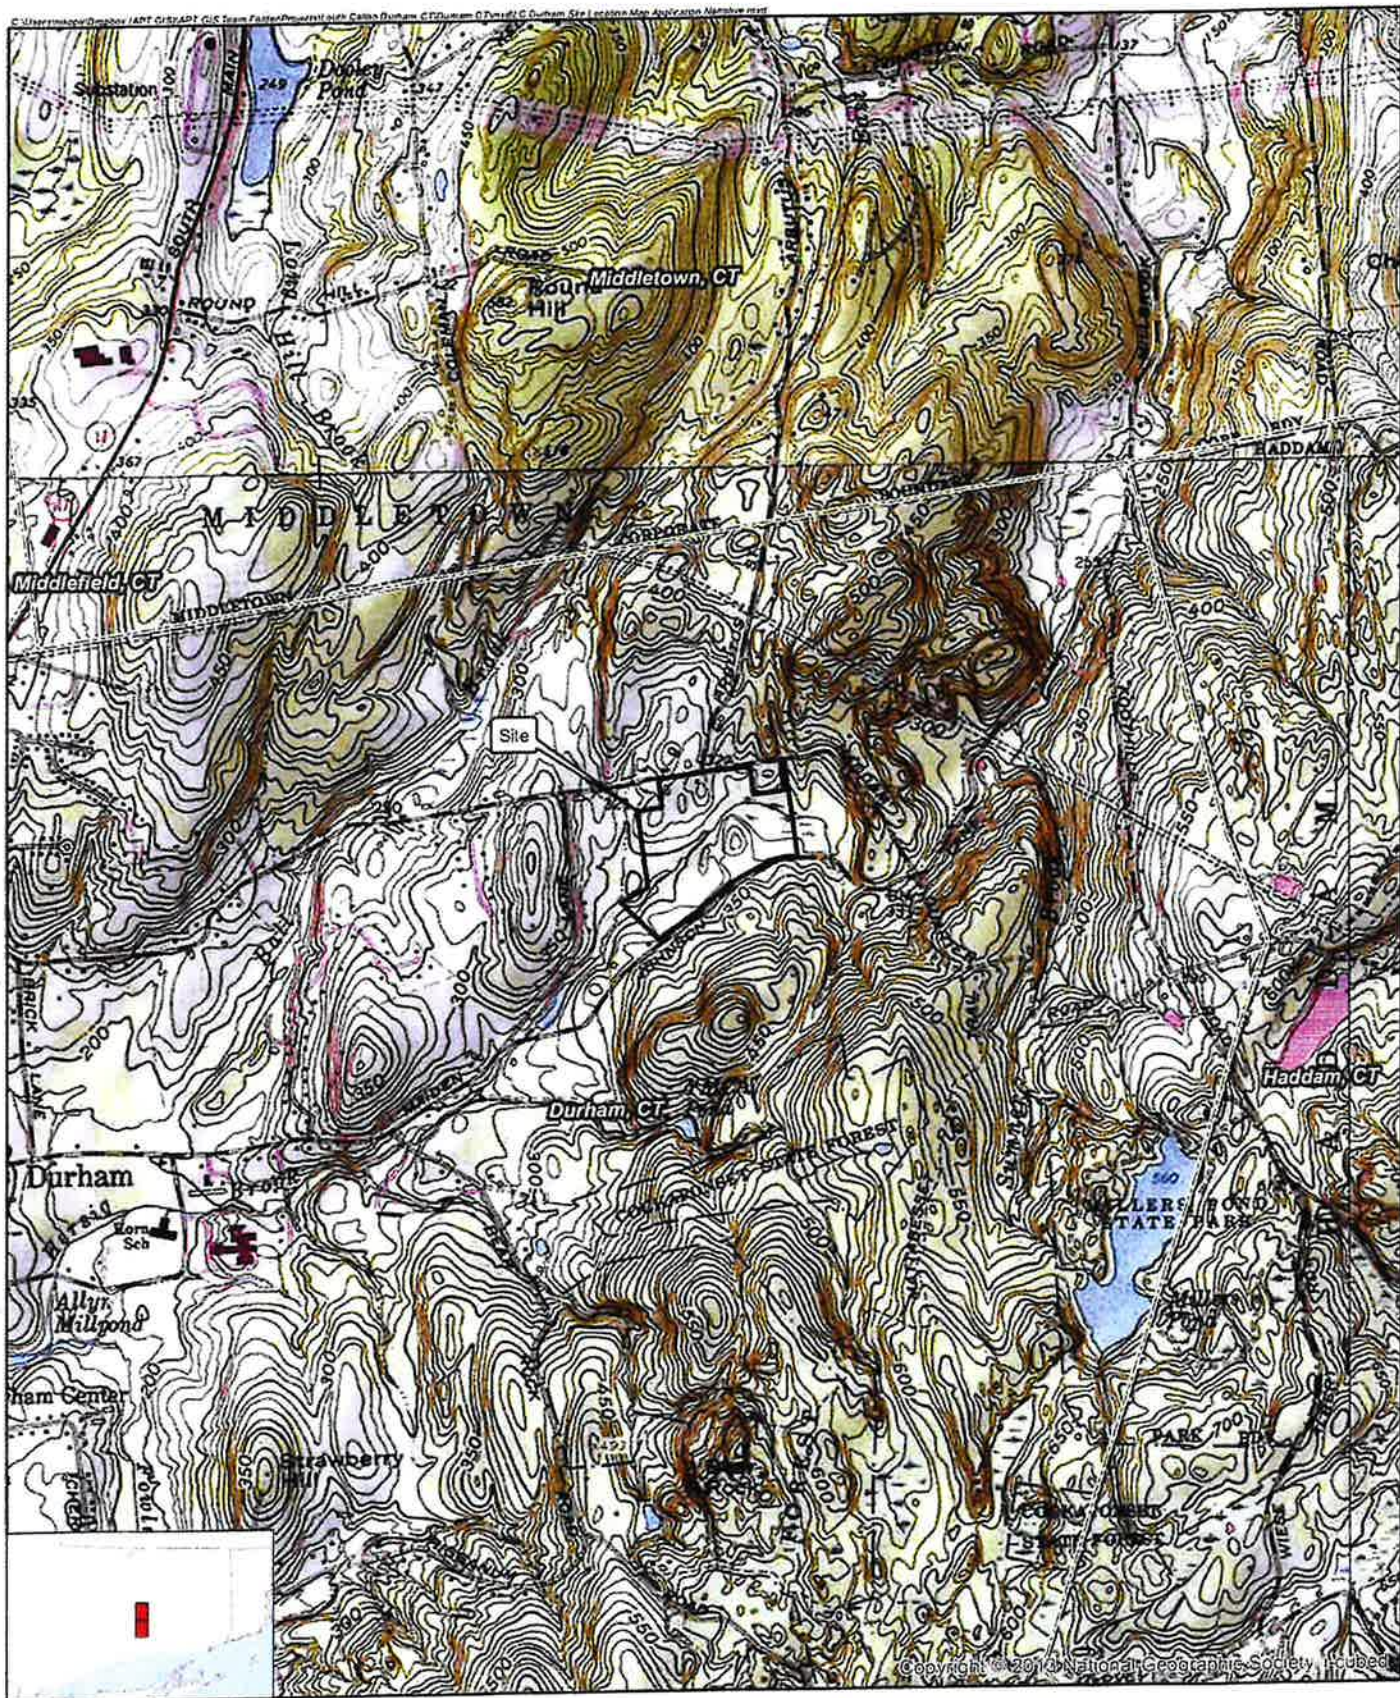

If you have any questions concerning the application, please direct them to either the Connecticut Siting Council or me. My address and telephone number are listed above. The Siting Council may be reached at its New Britain, Connecticut office at (860) 827-2935.

Very truly yours,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kenneth C. Baldwin
