Re: Docket No. 508 - The United Illuminating Company Application for a Certificate of Environmental Compatibility and Public Need for the Milvon to West River Railroad Transmission Line 115-kV Rebuild Project

Dear Ms. Bachman:

On July 7, 2023, The United Illuminating Company ("UI") submitted to the Connecticut Siting Council (the "Council") its Development and Management Plan ("D&M Plan") for Segment 2 (Allings Crossing Substation to Elmwest Substation in the City of West Haven) of the Milvon to West River Railroad Transmission Line 115-kV Rebuild Project ("Project"). The Council approved the D&M Plan at its August 17, 2023 meeting. Recently, UI identified an error in the Segment 2 D&M Plan that it wishes to correct:

Table 2-2 indicates that Structure P1027N will be 100' in height. The correct height is 105'.

The Company apologizes for the error and should the Council have any questions regarding this filing, please do not hesitate to contact me.

Very truly yours,

Bruce L. McDermott
