Re: Docket No. 508 - The United Illuminating Company Application for a Certificate of Environmental Compatibility and Public Need for the Milvon to West River Railroad Transmission Line 115-kV Rebuild Project

Dear Ms. Bachman:

Pursuant to Condition 2 of the Connecticut Siting Council's ("Council") August 18, 2022 Decision and Order regarding the Milvon to West River Railroad Transmission Line 115-kV Rebuild Project ("Project"), The United Illuminating Company ("UI") hereby submits to the Council for review and approval the following Development and Management Plan ("D&M Plan") which has been prepared in compliance with Sections 16-50j-60 through 16-50j-62 of the Regulations of Connecticut State Agencies. Because the Project will be constructed in four segments, UI is preparing four segment-specific D&M Plans, as well as a D&M Plan volume that contains information relevant to all Project segments.

Accordingly, UI hereby submits the D&M Plan for Segment 2: Allings Crossing Substation to Elmwest Substation in the City of West Haven:

- Volume 1 describes the segment-specific Project facilities and provides information relevant to the Project work on Segment 2.
- Volume 2 consists of Segment 2 maps and drawings at a scale. UI is providing the Council with one copy of the Segment 2 maps at 22"x34".¹

¹ Plans and other information that apply to the Project as a whole (i.e., all four construction segments) were provided previously in Volume 3 of the D&M Plan for Segment 1 are incorporated by reference.

UI expects to submit the D&M Plan for Segment 3 in September 2023 and the other segment-specific D&M Plan by the end of 2023.

Should the Council have any questions regarding this filing, please do not hesitate to contact me.

Very truly yours,
