NEPA Review Summary

Site Name	Westport	
Site Type	New wireless communications facility	
Site Address	92 Greens Farms Road, Westport, CT 06880	
Latitude / Longitude (NAD83)	N 41° 07' 25.39" / W 73° 20' 41.26"	
E106 Filing Number	0009604100	
TCNS Number	231311	
<i>FCC NEPA Category</i>	<i>Source</i>	<i>Findings</i>
Designated Wilderness Areas	National Park Service, US Forest Service, Bureau of Land Management	No Effect
Designated Wildlife Preserve	National Park Service, US Forest Service, Bureau of Land Management	No Effect
Threatened or Endangered Species or Designated Critical Habitats	US Fish & Wildlife Service (USFSW) and Connecticut Department of Energy & Environmental Protection (DEEP) Natural Diversity Database (NDDDB)	No Effect
Archeological and Historic Resources	State Historic Preservation Office (SHPO) file review and consultation, archaeological assessment, public notices and local government involvement	No Adverse Effect
Indian Religious Site	Indian Reservations in the Continental United States, Bureau of Indian Affairs Map, and consultation with federally recognized tribes via FCC's Tower Construction Notification System (TCNS)	No Effect
100-year Floodplain	Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM)	No Effect
Wetlands & Surface Waterways Features	Wetland Investigation, Natural Resources Conservation Service (NRCS) Soil Survey and USFWS National Wetland Inventory mapping	No Effect
High Intensity White Lights in Residential Neighborhood	TOWAIR Determination Results	No Effect
Environmental Assessment (EA)	Findings for the above FCC NEPA Categories and sources	Not Required

1.0 INTRODUCTION

1.1 PURPOSE

As a licensing agency, the Federal Communications Commission ("FCC") complies with the National Environmental Policy Act ("NEPA") by requiring its licensees to review their proposed actions for environmental consequences. The FCC rules for implementing NEPA are found in Title 47 of the Code of Federal Regulations (CFR), Part 1, Subpart I, rule sections 1.1301 to 1.1319. If a licensee's proposed action falls within one of the categories of rule sections 1.1301 to 1.1319, the licensee is required to consider the potential environmental effects from its construction of antenna facilities or structures, and disclose those effects in an environmental assessment ("EA") that is filed with the Commission for review.

Additionally, Section 106 of the National Historic Preservation Act of 1966 requires licensees to assess the effect of their proposed action on historic properties as outlined in regulations issued by the Advisory Council on Historic Properties at 36 CFR Part 800, as well as the Nationwide Programmatic Agreement ("NPA") for the Collocation of Wireless Antennas (47 CFR Part 1, See Attachments) and the NPA Regarding the Section 106 National Historic Preservation Act Review Process (47 CFR Part 1, See Attachments).

1.2 SCOPE OF WORK

At the request of Tarpon Towers II, LLC, All-Points Technology Corporation, P.C. ("APT") has completed its review of environmental resource information outlined in 47 CFR Part 1, Subpart I, rule sections 1.1301 to 1.1319. The review includes the evaluation of the wireless telecommunication facility project impacts to the FCC NEPA categories outlined in this report using the sources referenced herein. Impacts from radiofrequency radiation are evaluated by the tower owner and/or applicant and are not part of this scope of work.

If the project undertaking results in an adverse effect finding under any of the FCC NEPA categories reviewed, those effects must be disclosed in the form of an EA and filed with the FCC for further review of potential environmental impacts.

This NEPA report documents the reviews completed. The term "Site" will be used herein to reference the location of the proposed undertaking.

2.0 SITE LOCATION AND PROJECT DESCRIPTION

2.1 SITE LOCATION

The Site is a 1.86-acre residential parcel located on the southeast corner of Greens Farms Road and Hillspoint Road at 92 Greens Farms Road in Westport, Connecticut. The surrounding area to the north, east and west is primarily characterized by residential development. Interstate 95 and the Metro North rail line and the associated rights-of-way are immediately to the south.

A USGS Site Location Map is presented in the Attachments.

2.2 PROJECT DESCRIPTION – PROPOSED UNDERTAKING

The proposed facility will include a ±124-foot-tall monopole tower within a new ±35-foot by ±64-foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

Site Plans are included in the Attachments.

3.0 FCC NEPA REVIEW CATEGORIES

APT reviewed the following FCC NEPA categories to determine whether the proposed undertaking has the potential to cause an adverse effect on these resources.

3.1 DESIGNATED WILDERNESS AREAS

Will the facility be located in an officially designated wilderness area? **No**

The proposed facility is not located in an officially designated wilderness area.

Source: Review of Wilderness Areas of the United States mapping, <https://wilderness.net/visit-wilderness/maps.php>. (See Attachments.)

3.2 DESIGNATED WILDLIFE PRESERVES

Will the facility be located in an officially designated wildlife preserve? **No**

The proposed facility is not located in an officially designated wildlife preserve.

Source: Review of U.S. Fish & Wildlife Service National Wildlife Refuge System Map, <https://www.fws.gov/refuges/maps/index.html>. (See Attachments.)

3.3 THREATENED OR ENDANGERED SPECIES OR DESIGNATED CRITICAL HABITATS

Will the facility affect listed or proposed threatened or endangered species or designated critical habitats? **No**

APT consulted with the United States Fish and Wildlife Service ("USFWS") and reviewed the Connecticut Department of Energy & Environmental Protection ("DEEP") Wildlife Division Natural Diversity Data Base ("NDDB") to determine if rare, threatened or endangered species or designated critical habitat may be present in the project area.

Two federally-listed¹ threatened species are known to occur in the vicinity of the Subject Property: northern long-eared bat ("NLEB"; *Myotis septentrionalis*) and Red Knot (*Calidris canutus rufa*). As a result of this preliminary finding, APT performed an evaluation to determine if the proposed referenced Facility would result in a likely adverse effect to NLEB and Red Knot.

The proposed Facility would be located in an undeveloped forested area on a developed residential parcel surrounded by residential development and the I-95 corridor. Some limited tree clearing would be required for the proposed Facility. A review of the Connecticut Department of Energy & Environmental Protection ("CTDEEP") Wildlife Division Natural Diversity Data Base ("NDDB") NLEB habitat map revealed that the proposed Facility is not within 150 feet of a known occupied NLEB maternity roost tree and is not within 0.25 mile of a known NLEB hibernaculum. The nearest NLEB habitat resource to the proposed Facility is located ±15.1 miles to the west in Greenwich.

¹ Listing under the federal Endangered Species Act

The proposed Facility is within inland terrestrial and wetland forested habitats ±0.25 mile north of the nearest coastline habitat potentially supporting Red Knot habitat. Since no suitable feeding or roosting habitat for Red Knot is supported within the Facility area, no effect to this species is anticipated.

Based on the information provided, the proposed Facility is not anticipated to adversely impact any federal or state threatened, endangered or species of special concern.

Source: Review of publicly available data, consultation with the USFWS and the DEEP NDDDB. (See Attachments.)

3.4 *ARCHAEOLOGICAL AND HISTORIC RESOURCES*

Will the facility affect districts, sites, buildings, structures or objects significant in American history, architecture, archaeology, engineering or culture that are listed, or are eligible for listing, in the National Register of Historic Places? **No Adverse Effect**

In a letter dated December 13, 2021, the SHPO determined that the proposed undertaking will have no adverse effect to sites listed on or eligible for listing on the National Register of Historic Places, with the following conditions:

1. The antennas, RRUs, antennas, mounts, and associated equipment will be designed, painted to match adjacent materials, and installed to be as non-visible as possible, and
2. If not in use for six consecutive months, the RRUs, antennas, mounts, and equipment shall be removed by the telecommunications facility owner. This removal shall occur within 90 days of the end of such six-month period.

Source: Review of SHPO files, archaeological investigation, public involvement, and Local Government and SHPO consultation. (See Attachments.)

3.5 *INDIAN RELIGIOUS SITES*

Will the facility affect Indian religious sites? **No**

The Site is not located on an American Indian federal reservation trust land. It was determined through tribal consultation via FCC's Tower Construction Notification System (TCNS) that the proposed undertaking is unlikely to affect Indian religious sites.

In the unlikely event that tribal artifacts or human remains are encountered during construction activities, the appropriate SHPO, tribes, and other consulting parties are to be contacted.

Source: Indian Reservations in the Continental United States, Bureau of Indian Affairs Map, archeological assessment, and consultation with federally recognized tribes using the FCC TCNS. (See Attachments.)

3.6 *FLOODPLAINS*

Will the facility be located in a 100-year floodplain? **No**

The facility is located outside of a 100-year flood hazard, as identified on the Flood Insurance Rate Map (FIRM) for the Site.

Source: Site observations and Federal Emergency Management Agency (FEMA) FIRM, Panel 09001C0551G, effective July 8, 2013. (See Attachments.)

3.7 *WETLANDS & SURFACE WATERWAYS FEATURES*

Will construction of the facility involve a significant change in surface features (e.g. wetland fill, water diversion, or deforestation)? **No**

The proposed Facility will not result in any significant change in surface features.

Source: U.S. Geological Survey (USGS) 7.5-Minute Series Topographic Quadrangle, Natural Resources Conservation Service (NRCS) Soil Survey, CTDEEP's data library (<http://www.ct.gov/deep>) of state wetland mapping, Wetland Inspection Report by APT, dated February 26, 2021 and Wetland Impact Analysis by APT, dated February 26, 2021. (See Attachments.)

3.8 *HIGH INTENSITY WHITE LIGHTS IN RESIDENTIAL NEIGHBORHOOD*

Will the facility be equipped with high intensity white lights which are to be located in residential neighborhoods? **No**

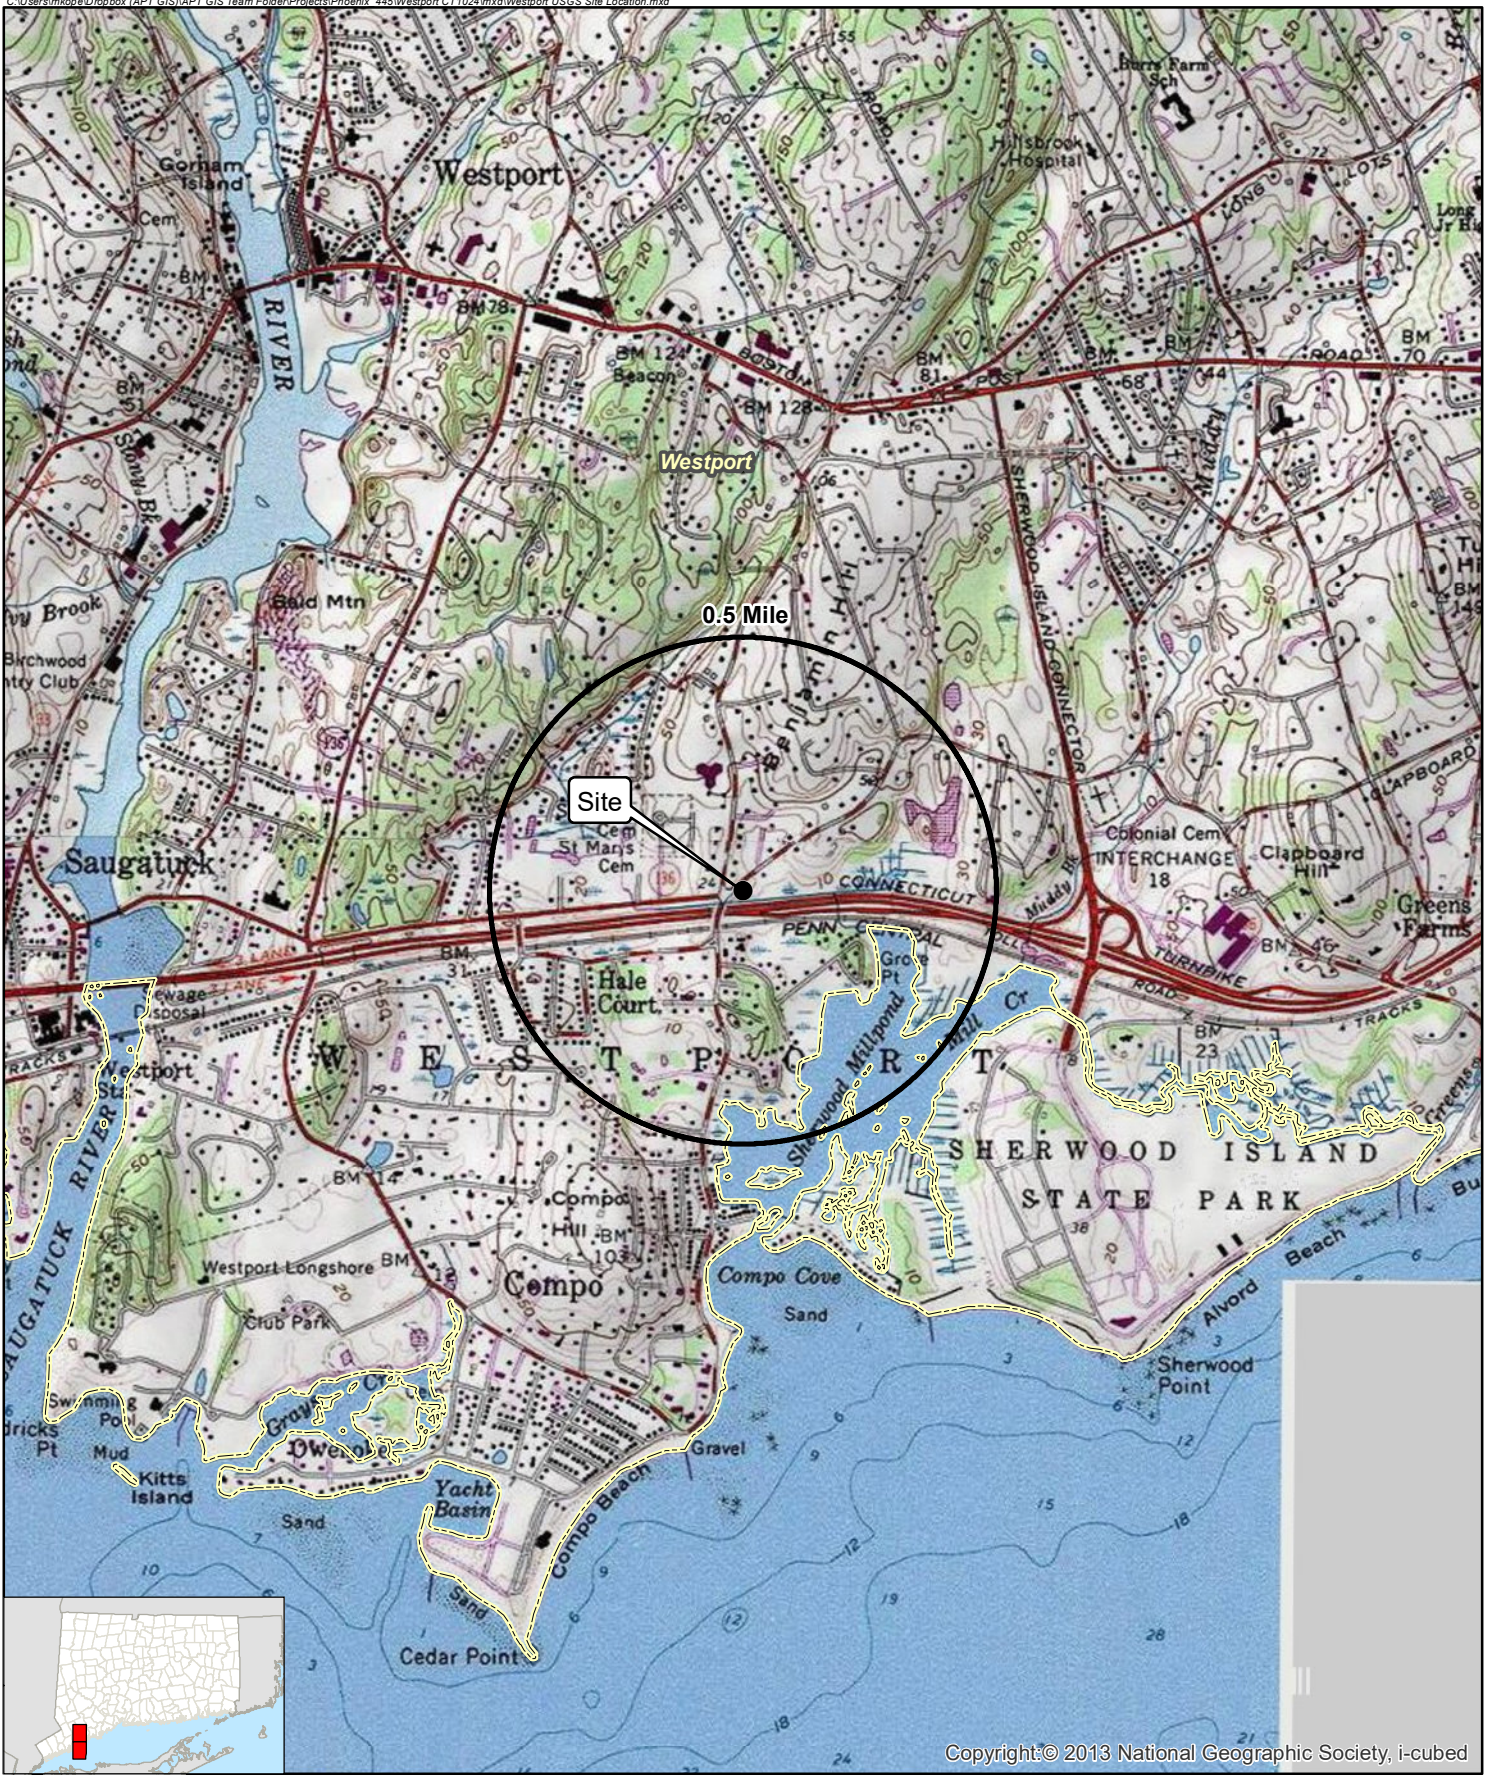

No lighting is required for the tower.

Source: TOWAIR Determination 8/9/21. (See Attachments.)

4.0 *CONCLUSIONS*

APT completed this review in conformance with the FCC rules and regulations for implementing NEPA, 47 CFR 1.1301 to 1.1319. Based on the information obtained in connection with this review, the proposed undertaking does not require preparation and filing of an EA.

U.S. Fish & Wildlife Service

National Wildlife Refuge System

When President Theodore Roosevelt made Florida's tiny Pelican Island a refuge for birds in 1903, he wrote the first chapter of a great American conservation success story. Entering its second century, the National Wildlife Refuge System comprises 150 million acres, protected within more than 566 Refuges and thousands of small private wetlands that serve as waterfowl breeding and nesting areas. There are wildlife refuges in every state, and at least one within an hour's drive of every major American city, providing refuge for people as well as wildlife.

National Wildlife Refuges are far more than havens for wild plants and animals. In fact, visitors more than 40 million each year are welcome on 98 percent of wildlife refuges, where they are encouraged to take part in outdoor pursuits designated by law as priority activities offered by the National Wildlife Refuge System. From environmental education and interpretation to hunting and fishing to photography and wildlife watching, refuges offer visitors a truly natural and wild outdoor experience, teaching millions the importance of taking care of our natural resources.

This map shows lands and waters managed in the National Wildlife Refuge System. Private holdings exist within some of these boundaries.

The U.S. Fish & Wildlife Service is a Federal Agency whose mission, working with others, is to conserve fish and wildlife and their habitats for the continuing benefit of the American people.

Refuge units of 20,000 acres or more
 Refuge units of less than 20,000 acres
 Wetland Management District Offices
 Waterfowl Production Areas
 Marine National Monuments
 Some refuges are represented as dots where essential acreage exceeds 20,000 acres. Refuges are shown only when they contain land.

USFWS & NDDB COMPLIANCE

February 16, 2022

Mr. Keith Coppins
Tarpon Towers II
8916 77th Terrace East, Suite 103
Lakewood Ranch, FL 34202

Re: CT1024 Westport Facility: 92 Greens Farms Road, Westport, Connecticut
APT Job No: CT445200

On behalf of Tarpon Towers II, All-Points Technology Corporation, P.C. ("APT") performed an evaluation with respect to possible federally- and state-listed, threatened, endangered or special concern species in order to determine if the proposed referenced telecommunications facility ("Facility") would result in a potential adverse effect to listed species.

APT understands that Tarpon Towers proposes the construction of a telecommunication facility with a ± 124 -foot-tall monopole tower within a new ± 35 -foot by ± 64 -foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road in Westport, Connecticut ("Subject Property").

USFWS

The federal consultation was completed in accordance with Section 7 of the Endangered Species Act through the U.S. Fish and Wildlife Service's ("USFWS") Information, Planning, and Conservation System ("IPaC"). Based on the results of the IPaC review, two federally-listed¹ threatened species are known to occur in the vicinity of the Subject Property documented as the northern long-eared bat ("NLEB"; *Myotis septentrionalis*) and Red Knot (*Calidris canutus rufa*). As a result of this preliminary finding, APT performed an evaluation to determine if the proposed referenced Facility would result in a likely adverse effect to NLEB and Red Knot.

The proposed Facility would be located in an undeveloped forested area on a developed residential parcel surrounding by residential development and the I-95 corridor. Some limited tree clearing would be required for the proposed Facility (trees provided potential NLEB habitat). A review of the Connecticut Department of Energy & Environmental Protection ("CTDEEP") Wildlife Division Natural Diversity Data Base ("NDDB") NLEB habitat map² revealed that the proposed Facility is not within 150 feet of a known occupied NLEB maternity roost tree and is not within 0.25 mile of a known NLEB hibernaculum. The nearest NLEB habitat resource to the proposed Facility is located ± 15.1 miles to the west in Greenwich.

APT submitted the effects determination using the NLEB key within the IPaC system for the proposed Facility (the "Action"). This IPaC key assists users in determining whether a Federal action is consistent with the activities analyzed in the USFWS's January 5, 2016, intra-Service Programmatic Biological Opinion ("PBO") on the Final 4(d) Rule for the NLEB for Section 7(a)(2) compliance.

¹ Listing under the federal Endangered Species Act

² *Northern long-eared bat areas of concern in Connecticut to assist with Federal Endangered Species Act Compliance* map. February 1, 2016.

Based upon the IPaC submission, the Action is consistent with activities analyzed in the PBO; please refer to the enclosed May 19, 2021 USFWS letter. The Action may affect NLEB; however, any take that may occur as a result of the Action is not prohibited under the ESA Section 4(d) rule adopted for this species at 50 CFR §17.40(o). If the USFWS does not respond within 30 days from the date of the letter (June 18, 2021), one may presume that the IPaC-assisted determination was correct and that the PBO satisfies and concludes Tarpon Tower's responsibilities for this Action under ESA Section 7(a)(2) with respect to NLEB.

In addition, Tarpon Tower would consider the following additional recommended voluntary measures for NLEB conservation, as encouraged in the April 29, 2016 FCC Public Notice³, as the project schedule allows.

- Conduct tree removal activities outside of the NLEB pup season (June 1-July 31) and active season (April 1-October 31) to minimize impacts to pups at roosts not yet identified.
- Avoid clearing suitable spring staging and fall swarming habitat within a five-mile radius of known or assumed NLEB hibernacula during the staging and swarming seasons (April 1-May 15 and August 15-November 14, respectively). *Not applicable: site is located > 5 miles from the nearest hibernacula.*
- Maintain dead trees (snags) and large trees when possible.
- Use herbicides and pesticides only if unavoidable. If necessary, spot treatment is preferred over aerial application.
- Minimize exterior lighting, opting for down-shielded, motion-sensor security lights instead of constant illumination.

A Biological Assessment was performed for Red Knot through the IPaC system. The red knot is a shorebird typically found along the Connecticut coastline during northbound and southbound migration. These birds spend most of their time foraging along the waterline within the intertidal zone. Not known to occur at inland locations, red knots can be found on Connecticut's barrier beaches from mid-April to the end of May, and then again from July through mid-September⁴. Sometimes non-breeding individuals may linger along Connecticut barrier beaches between migratory periods, and late individuals may pass through on southbound migration well into November.

Coastal habitats used by red knots in migration and wintering areas are similar in character, generally coastal marine and estuarine (partially enclosed tidal area where fresh and saltwater mixes) habitats with large areas of exposed intertidal sediments⁵. Migration and wintering habitats include both high-energy ocean- or bay-front areas, as well as tidal flats in more sheltered bays and lagoons. Preferred wintering and migration microhabitats are muddy or sandy coastal areas, specifically, the mouths of bays and estuaries, unimproved tidal inlets and tidal flats. In many wintering and stopover areas, quality high-tide roosting habitat (i.e., close to feeding areas, protected from predators, with sufficient space during the highest tides, free from excessive human disturbance) is limited.

³ Federal Communications Commission. *Tower Construction Guidance for Protection of Northern Long-Eared Bat Under the Endangered Species Act*. Public Notice DA 16-476. April 29, 2016.

⁴ Connecticut Audubon Society Bird Finder for May 23: Red Knot - <http://www.ctaudubon.org/2014/05/connecticut-audubon-society-bird-finder-for-may-23-red-knot/#sthash.oT1QBhV3.dpuf>

⁵ US Fish and Wildlife Service. *Rufa Red Knot Background Information and Threats Assessment, Supplement to Endangered and Threatened Wildlife and Plants; Final Threatened Status for the Rufa Red Knot (Calidris canutus rufa)*. November 2014. 383 pp.

The proposed Project action area is located within inland terrestrial and wetland forested habitats \pm .25 mile north of the nearest coastline habitat potentially supporting red knot habitat (Sherwood Millpond; coastal beaches, rocky shores, sand and mud flats). Therefore, since no suitable habitat (either feeding or roosting) for red knot is supported within the Project action area, the project would result in "No effect" to this species and no consultation with USFWS is required. Please refer to the attached Biological Assessment report.

NDDB

No known areas of state-listed species are currently depicted on the most recent CTDEEP NDDB Maps in the location of the proposed Facility or within a 0.25 mile to the Subject Property. Please refer to the enclosed NDDB Map which depicts the nearest NDDB buffer \pm 0.20 miles southeast of the Subject Property. Since the Subject Property is not located within a NDDB buffer area, consultation with DEEP is not required in accordance with their review policy⁶. Also, since the NDDB buffer area is located more than a 0.25 mile away, consultation with DEEP is not required in accordance with the Connecticut Siting Council's NDDB review policy.

Therefore, the proposed Facility is not anticipated to adversely impact any federal or state threatened, endangered or special concern species.

Sincerely,
All-Points Technology Corporation, P.C.

Dean Gustafson
Senior Biologist

IPaC Record Locator: 277-102236720

May 19, 2021

Subject: Consistency letter for the 'Tarpon Towers II CT1024 Westport' project indicating that any take of the northern long-eared bat that may occur as a result of the Action is not prohibited under the ESA Section 4(d) rule adopted for this species at 50 CFR §17.40(o).

Dear Deborah Gustafson:

The U.S. Fish and Wildlife Service (Service) received on May 19, 2021 your effects determination for the 'Tarpon Towers II CT1024 Westport' (the Action) using the northern long-eared bat (*Myotis septentrionalis*) key within the Information for Planning and Consultation (IPaC) system. You indicated that no Federal agencies are involved in funding or authorizing this Action. This IPaC key assists users in determining whether a non-Federal action may cause “take”^[1] of the northern long-eared bat that is prohibited under the Endangered Species Act of 1973 (ESA) (87 Stat.884, as amended; 16 U.S.C. 1531 et seq.).

Based upon your IPaC submission, any take of the northern long-eared bat that may occur as a result of the Action is not prohibited under the ESA Section 4(d) rule adopted for this species at 50 CFR §17.40(o). Unless the Service advises you within 30 days of the date of this letter that your IPaC-assisted determination was incorrect, this letter verifies that the Action is not likely to result in unauthorized take of the northern long-eared bat.

Please report to our office any changes to the information about the Action that you entered into IPaC, the results of any bat surveys conducted in the Action area, and any dead, injured, or sick northern long-eared bats that are found during Action implementation.

If your Action proceeds as described and no additional information about the Action’s effects on species protected under the ESA becomes available, no further coordination with the Service is required with respect to the northern long-eared bat.

The IPaC-assisted determination for the northern long-eared bat **does not** apply to the following ESA-protected species that also may occur in your Action area:

- Red Knot *Calidris canutus rufa* Threatened

You may coordinate with our Office to determine whether the Action may cause prohibited take of the animal species listed above.

[1]Take means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct [ESA Section 3(19)].

Action Description

You provided to IPaC the following name and description for the subject Action.

1. Name

Tarpon Towers II CT1024 Westport

2. Description

The following description was provided for the project 'Tarpon Towers II CT1024 Westport':

The proposed facility will include a ± 124 -foot tall monopole tower within a ± 75 -foot by ± 75 -foot area that includes a new ± 35 -foot by ± 64 -foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

Approximate location of the project can be viewed in Google Maps: <https://www.google.com/maps/@41.1241293,-73.34396383145516,14z>

Determination Key Result

This non-Federal Action may affect the northern long-eared bat; however, any take of this species that may occur incidental to this Action is not prohibited under the final 4(d) rule at 50 CFR §17.40(o).

Determination Key Description: Northern Long-eared Bat 4(d) Rule

This key was last updated in IPaC on **May 15, 2017**. Keys are subject to periodic revision.

This key is intended for actions that may affect the threatened northern long-eared bat.

The purpose of the key for non-Federal actions is to assist determinations as to whether proposed actions are excepted from take prohibitions under the northern long-eared bat 4(d) rule.

If a non-Federal action may cause prohibited take of northern long-eared bats or other ESA-listed animal species, we recommend that you coordinate with the Service.

Determination Key Result

Based upon your IPaC submission, any take of the northern long-eared bat that may occur as a result of the Action is not prohibited under the ESA Section 4(d) rule adopted for this species at 50 CFR §17.40(o).

Qualification Interview

1. Is the action authorized, funded, or being carried out by a Federal agency?

No

2. Will your activity purposefully **Take** northern long-eared bats?

No

3. [Semantic] Is the project action area located wholly outside the White-nose Syndrome Zone?

Automatically answered

No

4. Have you contacted the appropriate agency to determine if your project is near a known hibernaculum or maternity roost tree?

Location information for northern long-eared bat hibernacula is generally kept in state Natural Heritage Inventory databases – the availability of this data varies state-by-state. Many states provide online access to their data, either directly by providing maps or by providing the opportunity to make a data request. In some cases, to protect those resources, access to the information may be limited. A web page with links to state Natural Heritage Inventory databases and other sources of information on the locations of northern long-eared bat roost trees and hibernacula is available at www.fws.gov/midwest/endangered/mammals/nleb/nhisites.html.

Yes

5. Will the action affect a cave or mine where northern long-eared bats are known to hibernate (i.e., hibernaculum) or could it alter the entrance or the environment (physical or other alteration) of a hibernaculum?

No

6. Will the action involve Tree Removal?

Yes

7. Will the action only remove hazardous trees for the protection of human life or property?

No

8. Will the action remove trees within 0.25 miles of a known northern long-eared bat hibernaculum at any time of year?

No

9. Will the action remove a known occupied northern long-eared bat maternity roost tree or any trees within 150 feet of a known occupied maternity roost tree from June 1 through July 31?

No

Project Questionnaire

If the project includes forest conversion, report the appropriate acreages below. Otherwise, type '0' in questions 1-3.

1. Estimated total acres of forest conversion:

0.2

2. If known, estimated acres of forest conversion from April 1 to October 31

0.2

3. If known, estimated acres of forest conversion from June 1 to July 31

0.2

If the project includes timber harvest, report the appropriate acreages below. Otherwise, type '0' in questions 4-6.

4. Estimated total acres of timber harvest

0

5. If known, estimated acres of timber harvest from April 1 to October 31

0

6. If known, estimated acres of timber harvest from June 1 to July 31

0

If the project includes prescribed fire, report the appropriate acreages below. Otherwise, type '0' in questions 7-9.

7. Estimated total acres of prescribed fire

0

8. If known, estimated acres of prescribed fire from April 1 to October 31

0

9. If known, estimated acres of prescribed fire from June 1 to July 31

0

If the project includes new wind turbines, report the megawatts of wind capacity below. Otherwise, type '0' in question 10.

10. What is the estimated wind capacity (in megawatts) of the new turbine(s)?

0

Red Knot Biological Assessment Report

Tarpon Towers II CT1024 Westport

Biological Assessment

Prepared using IPaC

Generated by Deborah Gustafson (dleonardo@allpointstech.com)

May 19, 2021

The purpose of this Biological Assessment (BA) is to assess the effects of the proposed project and determine whether the project may affect any Federally threatened, endangered, proposed or candidate species. This BA is prepared in accordance with legal requirements set forth under [Section 7 of the Endangered Species Act \(16 U.S.C. 1536 \(c\)\)](#).

In this document, any data provided by U.S. Fish and Wildlife Service is based on data as of May 19, 2021.

Prepared using IPaC version 5.59.1

1 Description Of The Action

1.1 Project Name

Tarpon Towers II CT1024 Westport

1.2 Executive Summary

Tarpon Towers is proposing to construct a new communications facility at 92 Greens Farms Road in Westport, CT. The proposed facility will include a ±110-foot-tall monopole tower within a ±75-foot by ±75-foot area that includes a new ±35-foot by ±64-foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

Description

PUBLIC NOTICE

Tarpon Towers is proposing to construct a new communications facility at 92 Greens Farms Road in Westport, CT. The proposed facility will include a ±110-foot-tall monopole tower within a ±75-foot by ±75-foot area that includes a new ±35-foot by ±64-foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

1.3.6 Anticipated environmental stressors

Describe the anticipated effects of your proposed project on the aspects of the land, air and water that will occur due to the activities above. These should be based on the activity deconstructions done in the previous section and will be used to inform the action area.

1.3.6.1 Animal Features

Individuals from the Animalia kingdom, such as raptors, mollusks, and fish. This feature also includes byproducts and remains of animals (e.g., carrion, feathers, scat, etc.), and animal-related structures (e.g., dens, nests, hibernacula, etc.).

1.3.6.2 Plant Features

Individuals from the Plantae kingdom, such as trees, shrubs, herbs, grasses, ferns, and mosses. This feature also includes products of plants (e.g., nectar, flowers, seeds, etc.).

1.3.6.3 Aquatic Features

Bodies of water on the landscape, such as streams, rivers, ponds, wetlands, etc., and their physical characteristics (e.g., depth, current, etc.). This feature includes the groundwater and its characteristics. Water quality attributes (e.g., turbidity, pH, temperature, DO, nutrients, etc.) should be placed in the Environmental Quality Features.

1.3.6.4 Miscellaneous

Miscellaneous should only be used if the created feature does not fit into one of the other categories or if the creator is not sure in which category it should be placed.

1.4 Action Area

1.5 Conservation Measures

1.5.1 tree clearing time of year restriction

Description

•Conduct tree removal activities outside of the NLEB pup season (June 1-July 31) and active season (April 1-October 31) to minimize impacts to pups at roosts not yet identified.

2 Species Effects Analysis

This section describes, species by species, the effects of the proposed action on listed, proposed, and candidate species, and the habitat on which they depend. In this document, effects are broken down as direct interactions (something happening directly to the species) or indirect interactions (something happening to the environment on which a species depends that could then result in effects to the species).

These interactions encompass effects that occur both during project construction and those which could be ongoing after the project is finished. All effects, however, should be considered, including effects from direct and indirect interactions and cumulative effects.

2.1 Northern Long-Eared Bat

2.1.1 Status of the species

This section should provide information on the species' background, its biology and life history that is relevant to the proposed project within the action area that will inform the effects analysis.

2.1.1.1 Legal status

The Northern Long-eared Bat is federally listed as 'Threatened' and additional information regarding its legal status can be found on the [ECOS species profile](#).

2.1.1.2 Recovery plans

Available recovery plans for the Northern Long-eared Bat can be found on the [ECOS species profile](#).

2.1.1.3 Life history information

The northern long-eared bat is a medium-sized bat about 3 to 3.7 inches in length but with a wingspan of 9 to 10 inches. As its name suggests, this bat is distinguished by its long ears, particularly as compared to other bats in its genus, *Myotis*, which are actually bats noted for their small ears (*Myotis* means mouse-eared). The northern long-eared bat is found across much of the eastern and north central United States and all Canadian provinces from the Atlantic coast west to the southern Northwest Territories and eastern British Columbia. The species range includes 37 states. White-nose syndrome, a fungal disease known to affect bats, is currently the predominant threat to this bat, especially throughout the Northeast where the species has declined by up to 99 percent from pre-white-nose syndrome levels at many hibernation sites. Although the disease has not yet spread throughout the northern long-eared bats entire range (white-nose syndrome is currently found in at least 25 of 37 states where the northern long-eared bat occurs), it continues to spread. Experts expect that where it spreads, it will have the same impact as seen in the Northeast.

Identified resource needs

Hibernacula

Humidity: high, noise: low, with minimal disturbance, temperature: 0-9 degrees celsius, time of year: august through april, type: caves, mines, sewers and spillways

Insects

Type: lepidoptera (moths and butterflies), coleoptera (beetles), trichoptera (caddisflies), diptera (flies), spiders and lepidopterous larvae

Open water

Type: streams, rivers, ponds, wetlands, lakes and road ruts

Travel corridors

Location: between forest patches, type: riparian corridors, wooded paths, hedgerows and fence rows

Trees

Size: > or equal to 3 inch dbh, spatial arrangement: within 1000 feet of forest, structure: cracks, crevices, cavities, exfoliating bark, time of year: april through august, type: dead, nearly dead, living tree with dead parts and living with appropriate structure

2.1.1.4 Conservation needs

In addition, Tarpon Tower would consider the following additional recommended voluntary measures for NLEB conservation, as encouraged in the April 29, 2016 FCC Public Notice , as the project schedule allows.

- Conduct tree removal activities outside of the NLEB pup season (June 1-July 31) and active season (April 1-October 31) to minimize impacts to pups at roosts not yet identified. Not applicable: no tree removal required for the Facility.
- Avoid clearing suitable spring staging and fall swarming habitat within a five-mile radius of known or assumed NLEB hibernacula during the staging and swarming seasons (April 1-May 15 and August 15-November 14, respectively). Not applicable: site is located > 5 miles from the nearest hibernacula.
- Maintain dead trees (snags) and large trees when possible. Not applicable: no tree removal required for the Facility.
- Use herbicides and pesticides only if unavoidable. If necessary, spot treatment is preferred over aerial application.
- Minimize exterior lighting, opting for down-shielded, motion-sensor security lights instead of constant illumination.

2.1.2 Environmental baseline

*The environmental baseline describes the species' health **within the action area only** at the time of the consultation, and does not include the effects of the action under review. Unlike the species information provided above, the environmental baseline is at the scale of the Action area.*

2.1.2.1 Species presence and use

Project is only going to impact 0.2 acres of forested habitat potentially used by NLEB.

2.1.2.2 Species conservation needs within the action area

In addition, Tarpon Tower would consider the following additional recommended voluntary measures for NLEB conservation, as encouraged in the April 29, 2016 FCC Public Notice , as the project schedule allows.

- Conduct tree removal activities outside of the NLEB pup season (June 1-July 31) and active season (April 1-October 31) to minimize impacts to pups at roosts not yet identified. Not applicable: no tree removal required for the Facility.
- Avoid clearing suitable spring staging and fall swarming habitat within a five-mile radius of known or assumed NLEB hibernacula during the staging and swarming seasons (April 1-May 15 and August 15-November 14, respectively). Not applicable: site is located > 5 miles from the nearest hibernacula.
- Maintain dead trees (snags) and large trees when possible. Not applicable: no tree removal required for the Facility.
- Use herbicides and pesticides only if unavoidable. If necessary, spot treatment is preferred over aerial application.
- Minimize exterior lighting, opting for down-shielded, motion-sensor security lights instead of constant illumination.

2.1.2.3 Habitat condition (general)

Site only supports small forest habitat patch surrounded by existing residential developments and I-95.

2.1.2.4 Influences

I-95 development corridor.

2.1.2.5 Additional baseline information

N/A

2.1.3 Effects of the action

This section considers and discusses all effects on the listed species that are caused by the proposed action and are reasonably certain to occur, including the effects of other activities that would not occur but for the proposed action.

2.1.3.1 Indirect interactions

Provide a brief overview of what the applicable science has discovered regarding the species and its response to the stressors that each project activity may cause. This should include an explanation of the pathways and mechanisms that have potential to translate environmental change (impact) into response and effects to individuals.

2.1.3.2 Direct interactions

DIRECT IMPACT	CONSERVATION MEASURES	INDIVIDUALS IMPACTED	IMPACT EXPLANATION
Defoliation	Tree clearing time of year restriction	No	•Conduct tree removal activities outside of the NLEB pup season (June 1-July 31) and active season (April 1-October 31) to minimize impacts to pups at roosts not yet identified.

2.1.4 Cumulative effects

N/A

2.1.5 Discussion and conclusion

Determination: NE

2.2 Red Knot

This species has been excluded from analysis in this environmental review document.

Relevant documentation

Site contains only inland wetland habitat types unsuitable for Red Knot. The site is located 0.25 mile northwest of the nearest potential Red Knot habitat associated with estuary and intertidal habitat provided by Sherwood Millpond.

Justification for exclusion

No suitable Red Knot habitat provided by the project site.

3 Critical Habitat Effects Analysis

No critical habitats intersect with the project action area.

4 Summary Discussion, Conclusion, And Effect Determinations

4.1 Effect Determination Summary

SPECIES (COMMON NAME)	SCIENTIFIC NAME	LISTING STATUS	PRESENT IN ACTION AREA	EFFECT DETERMINATION
Northern Long-eared Bat	Myotis septentrionalis	Threatened	Yes	NE
Red Knot	Calidris canutus rufa	Threatened	No	NE

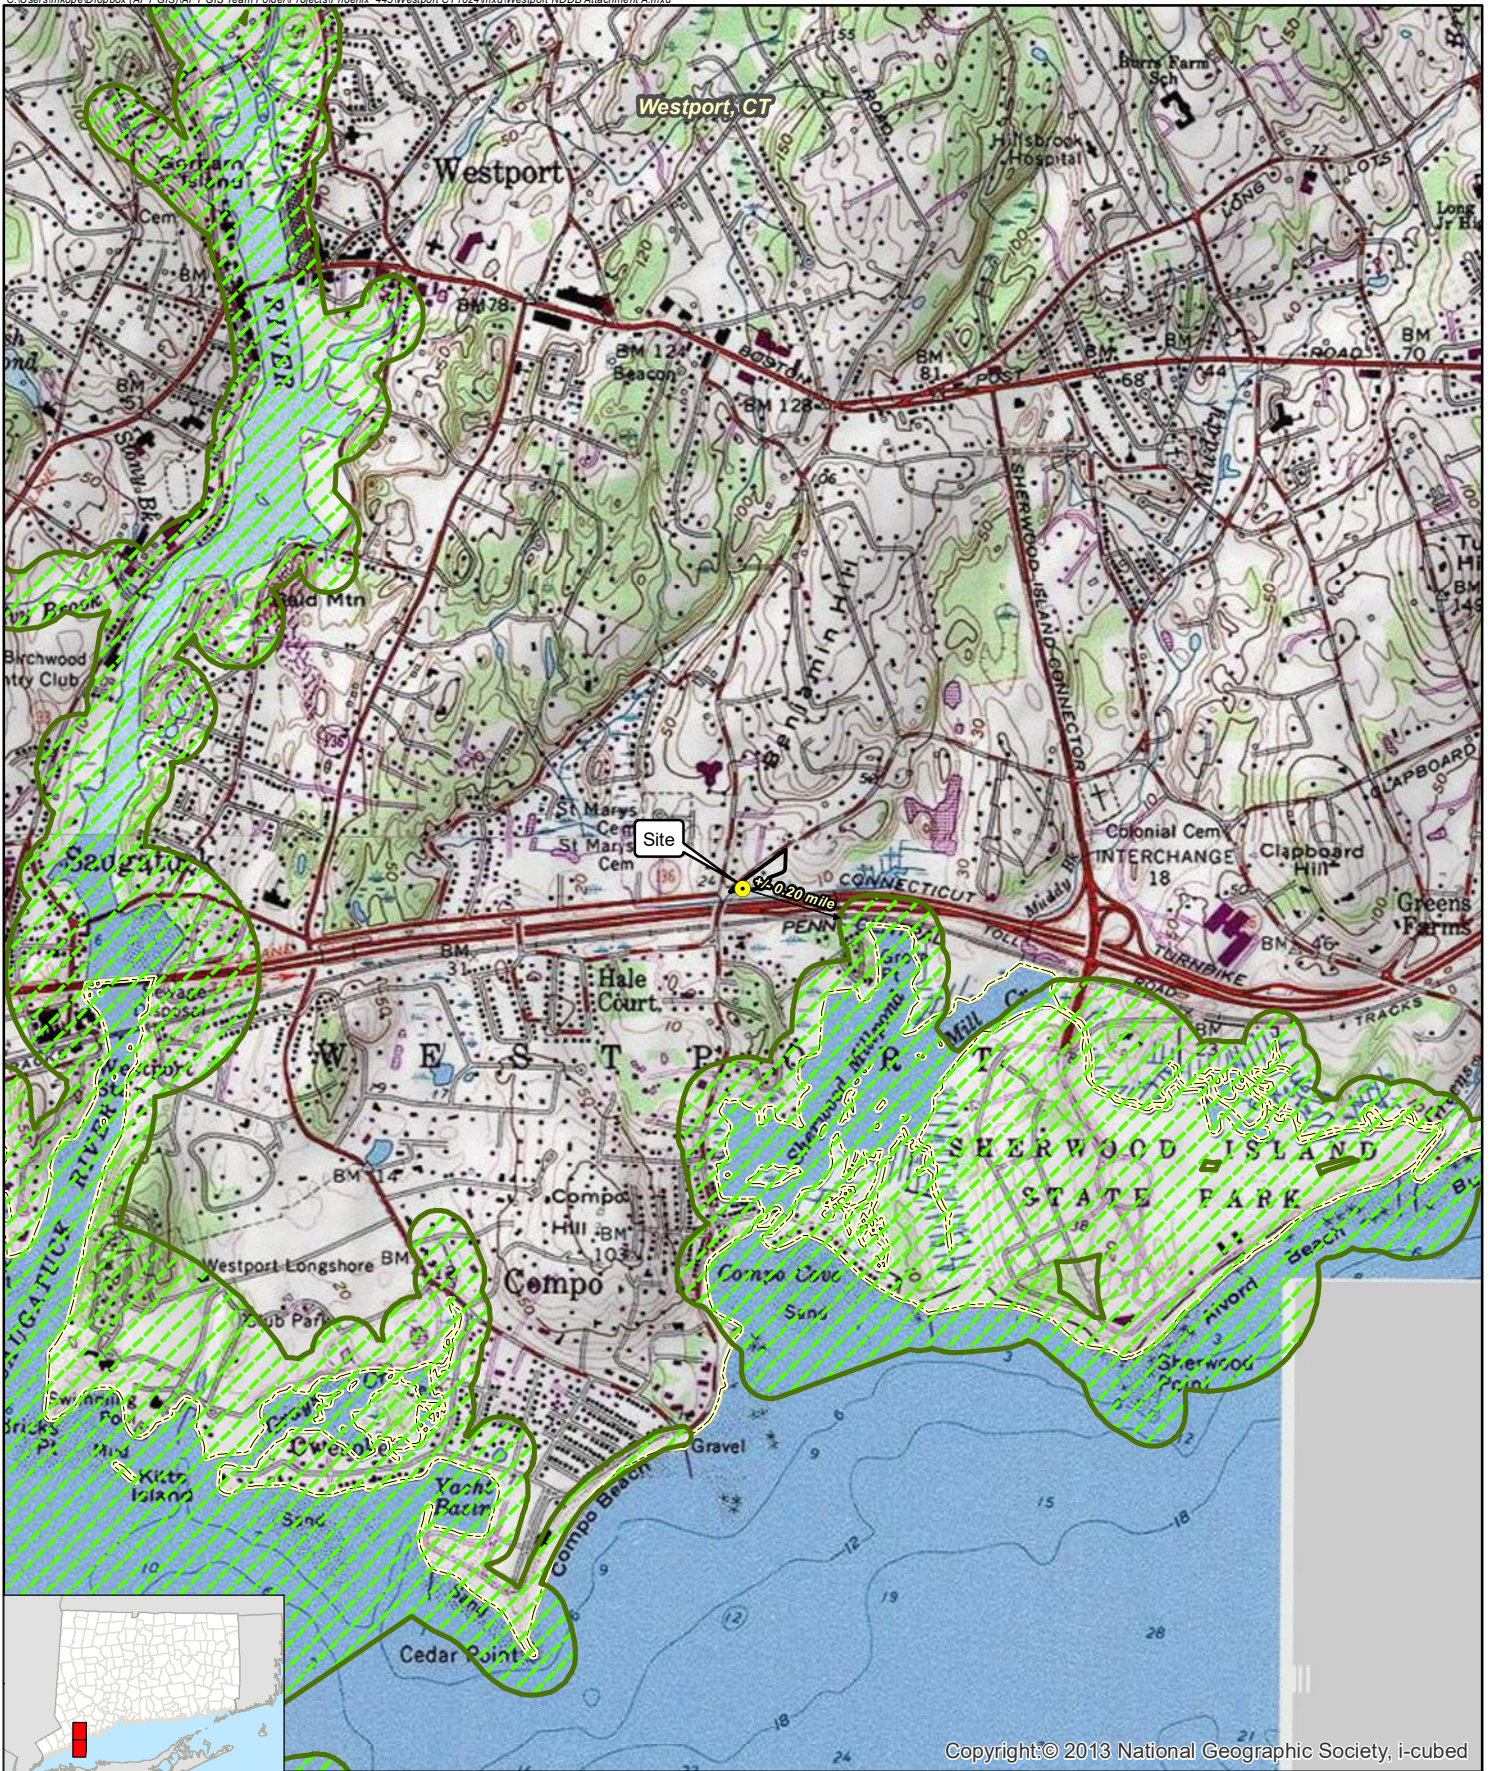

4.2 Summary Discussion

The tree clearing time of year restriction will avoid impact to Northern Long Eared Bat. The site does not contain habitat for Red Knot.

4.3 Conclusion

The tree clearing time of year restriction will avoid impact to Northern Long Eared Bat. The site does not contain habitat for Red Knot.

Proposed Wireless
 Telecommunications Facility
 CT1024
 Westport
 92 Greens Farms Road
 Westport, Connecticut

June 29, 2021

To: Ms. Marena Wisniewski
DECD/SHPO
450 Columbus Boulevard, Suite 5
Hartford, CT 06103

Re: Proposed Wireless Telecommunications Facility
CT1024
92 Greens Farms Road
Westport, CT 06880

Determination of Effects for Installation of New Telecommunications Facility Located at 92 Greens Farms Road, Westport, Fairfield County, Connecticut

In accordance with the Federal Communications Commission (FCC) National Environmental Policy Act (NEPA) rules and Section 106 of the National Historic Preservation Act (NHPA), the above-referenced telecommunications project, proposed by Tarpon Towers II ("Tarpon") is being evaluated for its potential effects to districts, sites, buildings, structures, or objects significant in American history, architecture, archaeology, engineering, or culture that are listed, or potentially eligible for listing in the National Register of Historic Places (NRHP).

In accordance with the National Programmatic Agreement for Review of Effects on Historic Properties ("Nationwide Agreement"), please find the attached Submission Packet, FCC Form 620, which presents the details on the proposed project as well as efforts that have been taken to identify, assess, and make determination of effect on the impacts of the proposed project on Historic Properties. For this undertaking, Tarpon is proposing to install a new telecommunications facility on the parcel located at 92 Greens Farms Road in Westport, CT. The subject property is a 1.86-acre parcel on the south side of Greens Farms Road, immediately east of its intersection with Hillspoint Road. The parcel is bounded on the north by Greens Farms Road, on the east by residential parcels, on the south by the buffer for Interstate 95, and on the west by the intersection of Greens Farms and Hillspoint Roads. The surrounding area is characterized by residential development, the majority of which dates from the second half of the 20th century. The subject parcel abuts Interstate 95 and is approximately 1.4 miles southeast of downtown Westport.

Tarpon Towers II is proposing to construct a new communications facility. The proposed facility will include a ±124-foot tall monopole tower within a new ±35-foot by ±64-foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

File reviews of the National Register Database and the Connecticut State Historic Preservation Office files were conducted by Stacey Vairo, architectural historian and William Keegan, Historical Geographer & GIS Specialist, with Heritage Consultants, LLC, to identify Historic Properties within the 0.5 mile Area for Potential Effect (APE) for Visual and Direct Effects. No additional Historic Properties previously listed or deemed eligible for the National Register of Historic Places were identified within the APE for Visual and Direct Effects.

In addition, a good-faith effort was made to identify any properties that may be eligible for inclusion in the National Register of Historic Places. While many properties were found to be over 50 years of age within the half mile buffer, none appeared to be individually eligible or eligible as part of a potential historic district for inclusion in the National Register of Historic Places.

Sincerely,

A handwritten signature in cursive script that reads "Stacey Vairo". The ink is a light blue or grey color.

SPECIAL SKILLS

Geographic Information Systems
Cartography
Archival, Cartographic, and Historical Research

PROJECT EXPERIENCE

I have completed hundreds of cultural resources investigations across Connecticut during my 17 years of cultural resources management experience, many of which were in the Town of Waterford.

NEW TOWER SUBMISSION PACKET – FCC FORM 620

Attachment 2 – Site Information – Photographs

You are required to provide photographs and maps as part of this filing. Additional site information can be provided in an optional attachment.

Photograph Requirements:

Except in cases where no Historic Properties were identified within the Areas of Potential Effects, submit photographs as described below. Photographs should be in color, marked so as to identify the project, keyed to the relevant map or text, and dated; the focal length of the lens and the height of the camera should be noted.

The source of any photograph included but not taken by the Applicant or its consultant (including copies of historic images) should be identified on the photograph.

1. Photographs taken from the tower site should show views from the proposed location in all directions. The direction (e.g., north, south, etc.) should be indicated on each photograph, and, as a group, the photographs should present a complete (360 degree) view of the area around the communications tower or non-tower structure.

2. Photographs of all listed and eligible properties within the Areas of Potential Effects.

3. If any listed or eligible properties are visible from the proposed tower site, photographs looking at the site from each historic property. The approximate distance in feet (meters) between the site and the historic property should be included. If any listed or eligible properties are within the APE, photos looking at each historic property should be included.

Include aerial photos of the APE for visual effects, if available. There are a variety of publicly available websites that provide aerial photographs.

Please see the attached images, which were gathered by Heritage Consultants, LLC for All-Points Technology Corp. P.C., in June 2021 from Google Maps (May 2019) unless otherwise noted. A photograph location map is included within this report.

NEW TOWER SUBMISSION PACKET – FCC FORM 620

Attachment 4 – Site Information – Additional Site Information

Describe any additional structures, access roads, utility lines, fences, easements, or other construction planned for the site in conjunction with the proposed installation and related facilities. Use this attachment to provide additional details needed to provide a full and accurate description of any structural alterations, additions, or other construction activities that will take place to complete the installation.

In accordance with the National Programmatic Agreement for Review of Effects on Historic Properties ("Nationwide Agreement"), please find the attached Submission Packet, FCC Form 620, which presents the details on the proposed project as well as efforts that have been taken to identify, assess, and make determination of effect on the impacts of the proposed project on Historic Properties. For this undertaking, Tarpon is proposing to install a new telecommunications facility on the parcel located at 92 Greens Farms Road in Westport, CT. The subject property is a 1.86-acre parcel on the south side of Greens Farms Road, immediately east of its intersection with Hillspoint Road. The parcel is bounded on the north by Greens Farms Road, on the east by residential parcels, on the south by the buffer for Interstate 95, and on the west by the intersection of Greens Farms and Hillspoint Roads. The surrounding area is characterized by residential development, the majority of which dates from the second half of the 20th century. The subject parcel abuts Interstate 95 and is approximately 1.4 miles southeast of downtown Westport.

Tarpon Towers II is proposing to construct a new communications facility. The proposed facility will include a ±124-foot tall monopole tower within a new ±35-foot by ±64-foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

Site Plans provided by Tarpon are included in this attachment.

Applicant: Tarpon Towers II

GENERAL NOTES

1. THIS DOCUMENT IS THE CREATION, DESIGN, PROPERTY AND COPYRIGHTED WORK OF TARPON TOWERS II. ANY DUPLICATION OR USE WITHOUT EXPRESS WRITTEN CONSENT IS STRICTLY PROHIBITED. DUPLICATION AND USE BY GOVERNMENT AGENCIES FOR THE PURPOSES OF CONDUCTING THEIR LAWFULLY AUTHORIZED REGULATORY AND ADMINISTRATIVE FUNCTIONS IS SPECIFICALLY ALLOWED.
2. THE FACILITY IS AN UNMANNED PRIVATE AND SECURED EQUIPMENT INSTALLATION. IT IS ONLY ACCESSED BY TRAINED TECHNICIANS FOR PERIODIC ROUTINE MAINTENANCE AND THEREFORE DOES NOT REQUIRE ANY WATER OR SANITARY SEWER SERVICE. THE FACILITY IS NOT GOVERNED BY REGULATIONS REQUIRING PUBLIC ACCESS PER ADA REQUIREMENTS.
3. CONTRACTOR SHALL VERIFY ALL PLANS AND EXISTING DIMENSIONS AND CONDITIONS ON THE JOB SITE AND SHALL IMMEDIATELY NOTIFY THE TARPON TOWERS II REPRESENTATIVE IN WRITING OF DISCREPANCIES BEFORE PROCEEDING WITH THE WORK OR BE RESPONSIBLE FOR SAME.

NEW TOWER SUBMISSION PACKET – FCC FORM 620

Attachment 5 – Determination of Effect Attachments

You are required to provide two attachments regarding the Determination of Effect: Areas of Potential Effect and Mitigation of Effect (if applicable).

Areas of Potential Effect Guidelines:

Direct Effects

a. Describe the APE for direct effects and explain how this APE was determined.

The APE for Direct Effects is limited to the area of potential ground disturbance and any property, or any portion thereof, that will be physically altered or destroyed by the construction of the proposed telecommunications facility.

No Historic Properties previously listed or deemed eligible for the National Register of Historic Places were identified within the APE for Direct Effects. Since ground disturbance is required for his project, a Preliminary Archaeological Assessment was completed by Heritage Consultants, LLC on April 26, 2021, and is included with this submission.

Visual Effects

b. Describe the APE for visual effects and explain how this APE was determined.

The APE for Visual Effects is the geographic area in which the Undertaking has the potential to introduce visual elements that diminish or alter the setting, including the landscape, where the setting is a character defining feature of a Historic Property that makes it eligible for listing on the National Register. The Nationwide Programmatic Agreement governing new tower construction indicates that, unless otherwise established through consultation with the SHPO/THPO, the presumed APE for visual effects relative to the construction of new facilities is a) 0.5-mile radius for towers 200 feet or less in overall height, b) 0.75-mile radius for towers greater than 200 but no more than 400 feet in overall height; or c) 1.5-mile radius for towers greater than 400 feet in overall height. Heritage Consultants, LLC determined that the APE for Visual Effects for this project is limited to an area within a .5-mile radius of the Project Area based on overall structure height of 37.8 meters.

No Historic Properties previously listed or deemed eligible for the National Register of Historic Places were identified within the APE for Visual Effects.

Mitigation of Effect Guidelines:

In the case where an Adverse Visual Effect or Adverse Direct Effect has been determined you must provide the following:

- 1. Copies of any correspondence and summaries of any oral communications with the SHPO/THPO and any consulting parties.*
- 2. As of the date of this report, there has been no correspondence with the SHPO/THPO. Describe any alternatives that have been considered that might avoid, minimize, or mitigate any adverse effects. Explain the Applicant's conclusion regarding the feasibility of each alternative.*

Applicant: Tarpon Towers II

APT Project Number: CT1024

Project Location: 92 Greens Farms Road, Westport, CT 06880

No negative effects are expected as a result of the proposed alterations to the existing facility; therefore, alternatives that might avoid, minimize, or mitigate any adverse effects need not be considered. As such, as of the date of this report, there has been no correspondence with the SHPO/THPO regarding mitigation of effect.

As of the date of this report, All-Points Technology has not received comments from Indian Tribes, NHOs, local governments, or members of the public that identify Historic Properties in the APE for Visual Effects that are not listed in the above list of Historic Properties.

Two comments were received from the owners of 100 Hillspoint Road, a Colonial Revival-style Cape built ca. 1920. The house does not appear to be individually eligible for inclusion in the National Register of Historic Places, nor does there appear to be the potential for district eligibility given the large percentage of late 20th century infill development in the area. The comments are attached.

Applicant: Tarpon Towers II

APT Project Number: CT1024

Project Location: 92 Greens Farms Road, Westport, CT 06880

April 26, 2021

Ms. Deb Leonardo
All-Points Technology Corporation
567 Vauxhall Street Extension – Suite 311
Waterford, Connecticut 06385

**RE: Preliminary Archaeological Review of a Proposed Cellular Telecommunications Facility Located
92 Greens Farms Road in Westport, Connecticut**

Ms. Leonardo:

Heritage Consultants, LLC (Heritage), is pleased to have this opportunity to provide All-Points Technology Corporation (All-Points) with the following archaeological review of a proposed telecommunications facility to be built at 92 Greens Farms Road in Westport, Connecticut (Figure 1). The scope of the proposed project consists of the construction of a 10.6 x 19.5 m (35 x 64 ft) fenced wireless communications compound with a 33.5 m (110 foot) tall steel monopole designed to accommodate a minimum of four carrier antenna array locations. Power and utilities to the facility will be routed underground from existing demarcation points on Greens Farms Road to the proposed wireless communications site. The current project entailed completion of a cultural resources summary based on the examination of data obtained from the Connecticut State Historic Preservation Office (CT-SHPO), as well as GIS data, including historical mapping, aerial photographs, and topographic quadrangles maintained by Heritage. This investigation is based upon project location information provided by All-Points. The objectives of this study were to gather and present data regarding previously identified cultural resources situated within 0.8 km (0.5 mi) of the proposed project area and to investigate the proposed project parcel in terms of its natural and historical characteristics so that the need for completing additional cultural resources investigations could be evaluated.

The parcel of land where the facility will be built is situated between Greens Farms Road to the north and Interstate 95 (Connecticut Turnpike) to the south. A private residence is located to the northeast and Hillspoint Road is to the west (Figure 1). A review of historical maps depicting the proposed project area shows that in the nineteenth century, the New York, New Haven and Hartford railroad was built just to the south of the facility area and ran from east to west (Figures 2 and 3). Both the 1856 and 1868 maps of the region containing the proposed facility location depict the project parcel as a vacant area surrounded by residences. This area was well-developed by the end of the nineteenth century, including a robust transportation network.

A review of the earliest available aerial image for this area, which dates from 1934, also shows the New York, New Haven, and Hartford Railroad to the south of the project area (Figure 4). The modern Greens Farms Road to the north and Hillspoint Road to the west are visible as well. In addition, a smaller road, a former stretch of Old Greens Farms Road, is depicted to the south of the current Greens Farms Road and once extended through the facility location. A small unnamed brook also extends from east to west to the south of the facility location and to the north of the above-referenced railroad. The subsequent aerial image, which was captured in 1951, shows a similar situation, though residences are visible to the

north and south of the facility area at this time (Figure 5). The next aerial image in the series, which dates from 2019, shows the area in its current modern state. Interstate 95 is clearly visible and parallels the railroad corridor to the north (Figure 6), and the portion of Old Greens Farms Road that was visible in earlier aerial images has been abandoned. The current Greens Farms Road was relocated to the north of the facility area. The 2019 aerial also show additional housing constructed to the north and south of the facility area.

Background research for the current project also included a review of previously identified archaeological sites and National Register of Historic Places properties/districts within 0.8 km (0.5 mi) of the proposed facility (Figures 7 and 8). This review revealed that while there are no known National Register of Historic Places districts or Connecticut State Register of Historic Places properties situated in the area, there are a total of five previously identified archaeological sites within 0.8 km (0.5 mi) of the project location. These include Sites 158-6, 158-16, 158-23, 158-55, and 158-60 (Table 1). They are discussed below.

Table 1. Archaeological Sites within 0.5 Mile from 92 Greens Farms Road in Westport, Connecticut

Site Number	Site Name	Time Period	National Register Eligibility	Notes
158-6	Donahue Site	Historical	Not Assessed	Destroyed by construction
158-16	Cutler Site	Prehistoric	Not Assessed	-
158-23	St. Mary's Cemetery	Prehistoric	Not Assessed	-
158-55	-	Prehistoric	Not Assessed	-
158-60	-	Prehistoric	Not Assessed	-

Site 158-6, which is also known as the Donahue Site, is located on private land at 152 Hillspoint Road in Westport, Connecticut. The site was reported in December of 1982 and again in September of 1983 by Ms. Peggy Daily and Ms. Lucinda McWeeney of Norwalk Community College in Norwalk, Connecticut. Mr. Lawrence Donahue, who was a previous owner of the land, surface collected the site in the late 1800s. A subsurface archaeological survey was conducted in August of 1983 by Ms. McWeeney. A total of six shovel test pits yielded “historic glass frgs (sic), ceramic sherds, shell, ash, coal and metal fragments from 0 to 8 inches below the surface on the level near the house, and to a depth of 18 inches below the surface on the lower property (past the hayfield).” The parcel of land on which the Donahue Site was located had been farmed since the nineteenth century and was subdivided and “bulldozed” in 1983. The Donahue Site was destroyed by construction and no longer retains research potential. It has not been assessed applying the National Register of Historic Places criteria for evaluation (36 CFR 60.4 [a-d]) and will not be impacted by the proposed project.

Site 158-16, which is also known as the Cutler Site, and Site 158-23, which is also known as St. Mary's Cemetery Site, are located in Westport, Connecticut. Both sites were listed as dating from the prehistoric period and were given site names and numbers by the CT-SHPO; however, no locational information concerning these two sites is known and no information is recorded on their Historic Resources Inventory forms. They cannot be attributed to any specific time period, type, or function. Sites 158-16 and 158-23 have not been assessed applying the National Register of Historic Places criteria for evaluation (36 CFR 60.4 [a-d]).

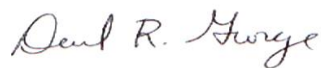

Sites 158-55 and 158-60 are also both located in Westport, however, they were not given site names. As with sites 158-16 and 158-23, no descriptive information was recorded on their respective Historic Resources Inventory Forms. They cannot be attributed to any specific time period, type or function and they have not been assessed applying the National Register of Historic Places criteria for evaluation (36 CFR 60.4 [a-d]).

In addition, soils located within the facility area were examined as part of this review. They belong to the Udorthents Urban Land Complex (Figure 9). This complex consists of moderately well drained to excessively drained soils that have been disturbed by cutting or filling, and areas that are covered by buildings and pavement. The complex is about 70 percent Udorthents, 20 percent Urban land, and 10 percent other soils. Udorthents are in areas that have been cut to a depth of 2 feet or more or are on areas with more than 2 feet of fill. Udorthents consist primarily of moderately coarse textured soil material and a few small areas of medium textured material. Most cut areas were used as a source of fill material, but in some areas, such as the location of the proposed telecommunications facility expansion, were cut in order to level sites for buildings, recreational facilities, and roads. Most of the filled areas were built up and leveled for urban development, in this case, the former construction of Old Greens Farms Road and its later demolition, as well as by construction of I-95.

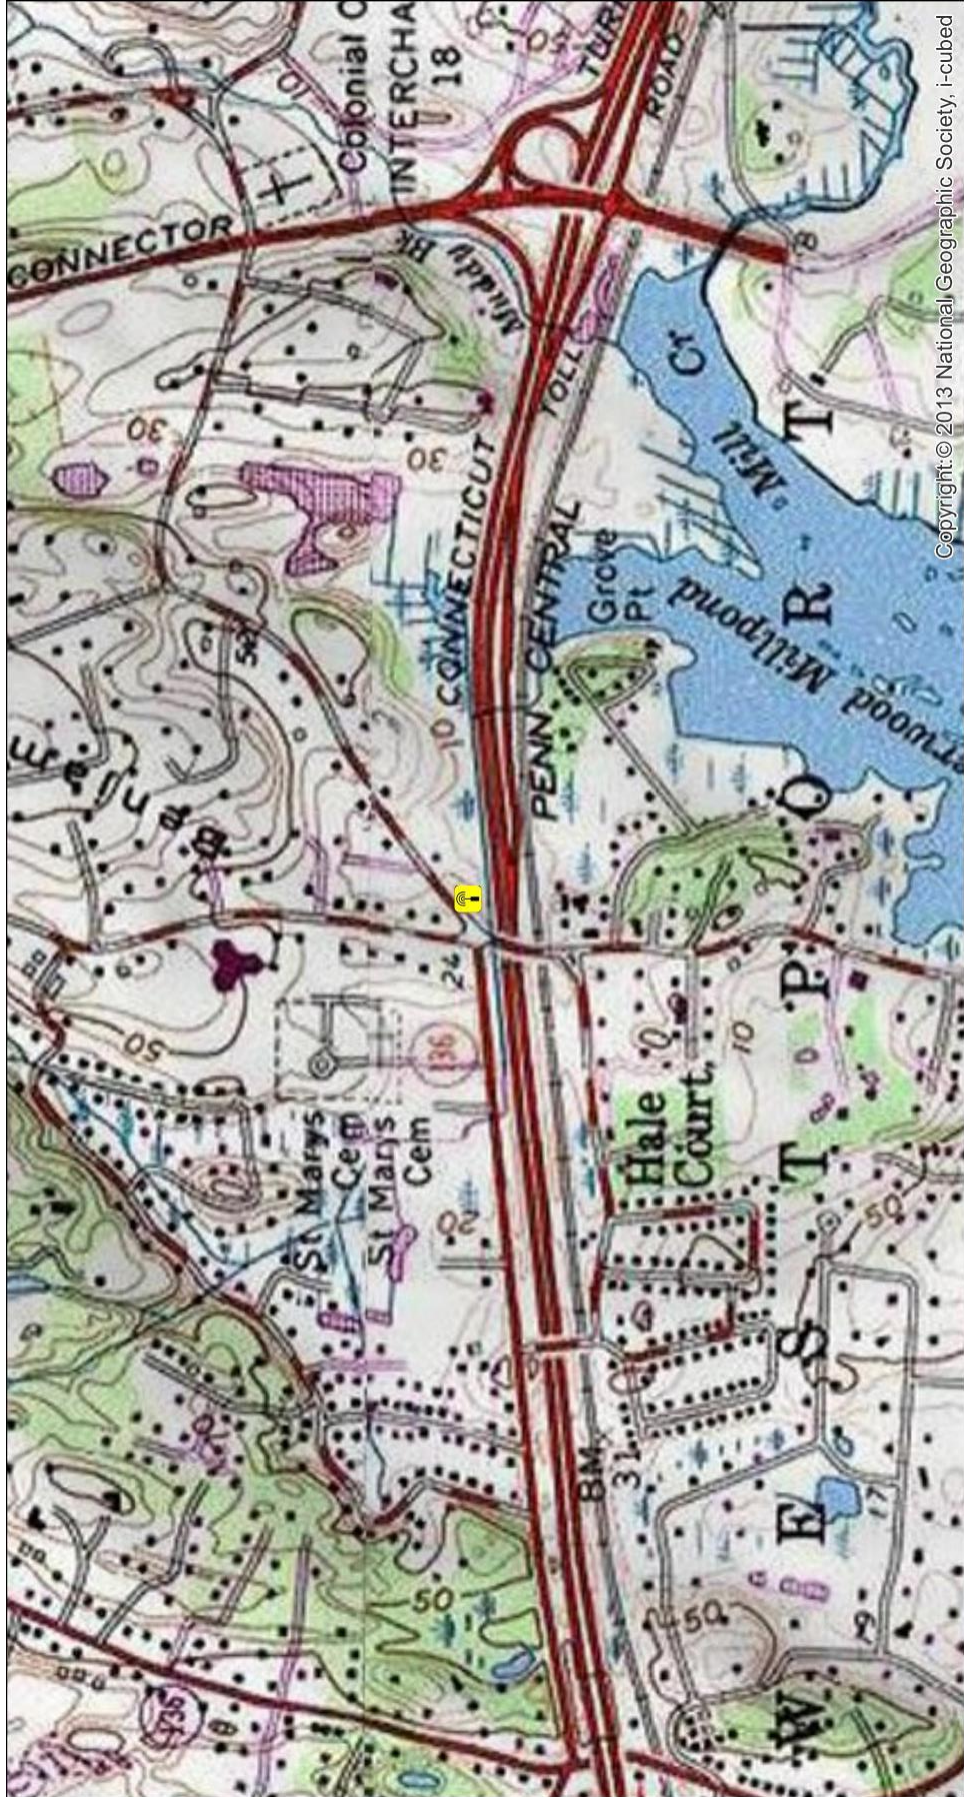

Pedestrian survey of the project area was completed on April 16, 2021. It included a thorough walk-down of the facility location and the surrounding area (Photos 1 through 5). During the walkover, it was observed that a wetland area was located in the southern portion of the proposed facility area and the parcel had been subjected to massive disturbance in the past likely due to the construction and removal of Old Greens Farms Road, as well as the installation of I-95. As noted above, the soils in the facility area are Udorthents soils and do not retain archaeological sensitivity. It is the professional opinion of Heritage that no additional archaeological examination of this area is recommended prior to construction.

If you have any questions regarding this Technical Memorandum, or if we may be of additional assistance with this or any other projects you may have, please do not hesitate to call me at 860-299-6328 or email me at dgeorge@heritage-consultants.com. We are at your service.

Sincerely,

David R. George, M.A., R.P.A.

NEW TOWER SUBMISSION PACKET – FCC FORM 620

Attachment 6 – Historic Properties Attachment

File reviews of the National Register Database, Connecticut State Historic Register, and Connecticut State Historic Resource Inventory were conducted by Stacey Vairo, Architectural Historian and Mr. William Keegan, Historical Geographer & GIS Specialist, with Heritage Consultants, LLC, to identify Historic Properties within the APEs for Visual and Direct Effects. Ms. Vairo also completed an evaluation of NRHP eligibility, according to the NRHP criteria of eligibility (36 C.F.R. Part 63), for any additional properties identified within the APE for direct or visual effects that may not have been identified during a review of the aforementioned files. The results of these reviews are discussed below, as necessary.

Historic Properties Identified within the APE for Direct Effects:

- 1. List all properties identified within the APE for direct effects.*
- 2. Provide the name and address (including U.S. Postal Service ZIP Code) of each property in the APE for direct effects, not listed in part "a", that the Applicant considers to be eligible for listing in the National Register as a result of the Applicant's research. For each such property, describe how it satisfies the criteria of eligibility (36 C.F.R. Part 63). For each property that was specifically considered and determined not to be eligible, describe why it does not satisfy the criteria of eligibility.*
- 3. Describe the techniques and the methodology, including any field survey, used to identify historic properties within the APE for direct effects. If no archeological field survey was performed, provide a report substantiating that: i) the depth of previous disturbance exceeds the proposed construction depth (excluding footings and other anchoring mechanisms) by at least 2 feet; or, ii) geomorphological evidence indicates that cultural resource-bearing soils do not occur within the project area or may occur but at depths that exceed 2 feet below the proposed construction depth.*

No Historic Properties previously listed or deemed eligible for the National Register of Historic Places were identified within the APE for Direct Effects. Since ground disturbance is required for his project, a Preliminary Archaeological Assessment was completed by Heritage Consultants, LLC on April 26, 2021, and is included with this submission.

Historic Properties Identified within the APE for Visual Effects:

- 1. Provide the name and address (including U.S. Postal Service ZIP Code) of each property in the APE for visual effects that is listed in the National Register, has been formally determined eligible for listing by the Keeper of the National Register, or is identified as considered eligible for listing in the records of the SHPO/THPO, pursuant to Section VI.D.1.a. of the Nationwide Agreement.6*
- 2. Provide the name and address (including U.S. Postal Service ZIP Code) of each Historic Property in the APE for visual effects, not listed in part "a", identified through the comments of Indian Tribes, NHOs, local governments, or members of the public. Identify each individual or group whose comments led to the inclusion of a Historic Property in this attachment. For each such property, describe how it satisfies the criteria of eligibility (36 C.F.R. Part 63).*
- 3. For any properties listed in part "a", that the Applicant considers no longer eligible for inclusion in the National Register, explain the basis for this recommendation.*

Applicant: Tarpon Towers II

APT Project Number: CT1024

Project Location: 92 Greens Farms Road, Westport, CT 06880

No Historic Properties previously listed or deemed eligible for the National Register of Historic Places were identified within the APE for Visual Effects.

No negative effects are expected as a result of the proposed facility; therefore, alternatives that might avoid, minimize, or mitigate any adverse effects need not be considered.

As of the date of this report, All-Points Technology has not received any comments from Indian Tribes, NHOs, local governments, or members of the public that identify Historic Properties in the APE for visual effects that are not listed in the above list of Historic Properties.

Two comments were received from the owners of 100 Hillspoint Road, a Colonial Revival-style Cape built ca. 1920. The house does not appear to be individually eligible for inclusion in the National Register of Historic Places, nor does there appear to be the potential for district eligibility given the large percentage of late 20th century infill development in the area. The comments are attached.

Applicant: Tarpon Towers II

APT Project Number: CT1024

Project Location: 92 Greens Farms Road, Westport, CT 06880

NEW TOWER SUBMISSION PACKET – FCC FORM 620

Attachment 7 – Tribal and NHO Involvement

At an early stage in the planning process, the Nationwide Agreement requires the Applicant to gather information from appropriate Indian Tribes or Native Hawaiian Organizations (NHOs) to assist in the identification of Historic Properties of religious and cultural significance to them. Describe measures taken to identify Indian tribes and NHOs that may attach religious and cultural significance to Historic Properties that may be affected by the collocation within the Areas of Potential Effects (APE) for direct and visual effects. If such Indian tribes or NHOs were identified, list them and provide a summary of contacts by either the FCC, the Applicant, or the Applicant's representative. Provide copies of relevant documents, including correspondence. If no such Indian tribes or NHOs were identified, please explain.

All-Points Technology Corporation, P.C. completed the Tower Construction Notification System (TCNS) on May 10, 2021, the attached FCC Notification email lists the Tribes identified through the TCNS process. Follow up correspondence, when necessary, will be completed via the methods listed on the attached email considered acceptable to each Tribe.

Applicant: Tarpon Towers II

APT Project Number: CT1024

Project Location: 92 Greens Farms Road, Westport, CT 06880

From: towernotifyinfo@fcc.gov
To: [Deb Leonardo](#)
Cc: tcnsweekly@fcc.gov
Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #7699928
Date: Friday, May 14, 2021 3:03:29 AM

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. Historic Preservation Director Erin Paden - Delaware Nation - 31064 State Highway 281 (PO Box: 825) Anadarko, OK - banderson@delawarenation-nsn.gov; epaden@delawarenation-nsn.gov - 405-247-2448 (ext: 1403) - electronic mail

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the Federal Communications Commission. Please submit a 1 page cover letter with the TCNS Number, Project Name, City, County, State, Project Type, Height of tower, Land use, Explanation of ground disturbance, Geographic Coordinates in decimal degrees, and Contact information including individuals name, address, phone, fax, and email.

2. Deputy THPO Michael e Johnson - Mashantucket Pequot Tribe - 110 Pequot Trail Mashantucket, CT - mejohnson@mptn-nsn.gov; mturnbull@mptn-nsn.gov - 860-396-7575 - electronic mail

If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

3. Deputy THPO Elaine Thomas - Mohegan Indian Tribe - Cultural and Community Programs Dept 13 Crow Hill Road Uncasville, CT - ethomas@moheganmail.com - 860-862-6393 - electronic mail and regular mail

4. Program Manager Sequahna Mars - Narragansett Indian Tribe - (PO Box: 350) Wyoming, RI - Sequahna@yahoo.com; Nithpotcns@gmail.com - 401-419-2959 - electronic mail and regular mail

If the applicant/tower builder receives no response from the Narragansett Indian Tribe within 30 days after notification through TCNS, the Narragansett Indian Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Narragansett Indian Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

5. THPO Edith Leoso - Bad River Band of Lake Superior Tribe of Chippewa Indians - (PO Box: 39) Odanah, WI - thpo@badriver-nsn.gov; THPOAsst@badriver-nsn.gov - 715-682-7123 - electronic mail

If the applicant/tower builder receives no response from the Bad River Band of Lake Superior Tribe of Chippewa Indians within 30 days after notification through TCNS, the Bad River Band of Lake Superior Tribe of Chippewa Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Bad River Band of Lake Superior Tribe of Chippewa Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

6. THPO Marvin DeFoe - Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin - 88455 Pike Road, HWY 13 Bayfield, WI - Marvin.DeFoe@redcliff-nsn.gov; Edwina.Buffalo-Reyes@redcliff-nsn.gov - 715-779-3700 (ext: 4242) - electronic mail

Exclusions: Boozhoo, we do not have the Red Cliff Portal site online anymore and apologize for the inconvenience.

If you have a project that has already been paid for or would like to voluntarily pay for, please email documents for project review to THPO@redcliff-nsn.gov. This address is only to be used by Consultants who are voluntarily paying for projects.

If you have any questions, please contact Marvin Defoe, THPO Manager at (715) 779-3700 Ext. 4244 or Edwina Buffalo-Reyes, THPO Assistant at (715) 779-3700Ext. 4243.

7. THPO Melinda J Young - Lac du Flambeau Band of Lake Superior Chippewa Indians - Tribal Historic Preservation Office (PO Box: 67) Lac du Flambeau, WI - ldfthpo@ldftribe.com - 715-588-2139 - electronic mail
Exclusions: Effective Immediately:

8. Dr. Brice M Obermeyer - Delaware Tribe of Indians of Oklahoma - 1 Kellog Drive Roosevelt Hall, Room 212 Emporia, KS - bobermeyer@delawaretribe.org; sbachor@delawaretribe.org - 620-341-6699 - electronic mail
Exclusions: The Delaware Tribe of Indians areas of interest include our aboriginal territories (circa 1600), known locations of historic Delaware settlements, routes of removal and forced migration, and all lands of Delaware aboriginal title ceded by treaty to the United States. If you are receiving this notification, then your project falls within these areas of interest and we ask that you provide us with a cover letter describing the project and its location (including the project coordinates) as well as a topographic map showing the project location. If an archaeological survey has already been performed in preparation for the project, please send a copy of that as well. Additionally, we may request a biological assessment of culturally significant treaty resources which may be affected by the proposed undertaking.

We are only interested in consulting on projects that involve ground disturbance that is planned to take place in both undisturbed and previously disturbed contexts. We are not interested in consulting on collocations or projects that involve no ground disturbance. If your project does involve ground disturbance or you do not receive a response from us within 30 days of submitting the above project information, then we have no objection to the project. However, if any archaeological resources or human remains are disturbed at any point in the project planning or construction, we ask that the project be halted until we can be notified of the inadvertent discovery and can

determine the most appropriate course of action. If your company would like a formal written response from the Delaware Tribe concerning the potential impact of your project to culturally and religiously significant sites, please contact Brice Obermeyer at bobermeyer@delawaretribe.org to request such a response.

In order to better facilitate consultation throughout our areas of interest we have three regional tribal historic preservation offices. While our Tribal Headquarters remains in Oklahoma, our Eastern Office in Pennsylvania is the point of contact for all consultation within our Eastern Region which includes the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. If your project exists in any of these states, please contact Susan Bachor with the above project information at the following e-mail address. Our eastern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Susan Bachor, DTHPO Special Assistant
Eastern Office
P.O. Box 64
Pocono Lake, PA 18347
(610) 761-7452 sbachor@delawaretribe.org

Our Midwestern office in Minnesota is the point of contact for all consultation within our Midwestern region which includes the states of West Virginia, Ohio, Indiana, Michigan and Illinois. If your project exists in any of these states, please contact Larry Heady with the above project information at the following e-mail address. Our Midwestern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Larry Heady, DTHPO Special Assistant
Midwestern Office
1929 E. 6th Street
Duluth, MN 55812
(262) 825-7586
lheady@delawaretribe.org

Our main office in Emporia, Kansas is the point of contact for all consultation within our Western Region which includes the states of Oklahoma, Kansas and Missouri. If your project exists in any of these states, please contact Brice Obermeyer with the above project information at the following e-mail address. Our Main Office prefers to receive digital submissions and the project information can be submitted by e-mail.

Dr. Brice Obermeyer, DTHPO Director,
Main Office
1 Kellogg Circle Roosevelt Hall,
Rm 212 Emporia State University
Emporia, KS 66801
(602) 341-6699
bobermeyer@delawaretribe.org

We, at the Delaware Tribe Historic Preservation Office, along with our Chief and Tribal Council remain committed to protecting the cultural and physical integrity of our historic sites, traditional cultural properties, sacred sites, objects of cultural patrimony, and most importantly, the remains of our Ancestors. We look forward to working with you on our shared interests in preserving and protecting Delaware heritage within our areas of interest.

If the applicant/tower builder receives no response from the Delaware Tribe of Indians of Oklahoma within 30 days after notification through TCNS, the Delaware Tribe of Indians of Oklahoma has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Delaware Tribe of Indians of Oklahoma in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

9. SHPO Cara Metz - Massachusetts Historical Commission - 220 Morrissey Boulevard Boston, MA - cara.metz@sec.state.ma.us - 617-727-8470 - electronic mail

10. Deputy SHPO Jeffrey Emidy - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - jeffrey.emidy@preservation.ri.gov - 401-222-4134 - regular mail

11. SHPO Edward F Sanderson - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - rgreenwood@preservation.ri.gov - 401-222-4130 - electronic mail

12. SHPO Karen J Senich - Connecticut Commission on Culture and Tourism - One Constitution Plaza Hartford, CT - karen.senich@ct.gov - 860-256-2753 - electronic mail

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above contact information is no longer valid, please contact the FCC by emailing tenshelp@fcc.gov. The following information relating to the proposed tower was forwarded to the person(s) listed above:

NEW TOWER SUBMISSION PACKET – FCC FORM 620

Attachment 8 – Local Government, Other Consulting Parties, and Public Notice

1. If any local government has been contacted and invited to become a consulting party pursuant to Section V.A. of the Nationwide Programmatic Agreement, list the local government agencies contacted. Provide a summary of contacts and copies of any relevant documents (e.g., correspondence or notices).

All-Points Technology Corporation, P.C. contacted relevant local government agencies on June 4, 2021. The respective correspondence is attached.

2. If a local government agency will be contacted but has not been to date, explain why and when such contact will take place.

N/A.

3. List additional consulting parties that were invited to participate by the Applicant, or independently requested to participate. Provide any relevant correspondence or other documents.

Westport Museum for History and Culture

4. You are required to provide a Public Notice Attachment.

Attached, please find a copy of the legal notice regarding the proposed telecommunications installation that was posted in the *Norwalk Hour* on June 7, 2021. As of the date of this submission packet, no comments regarding this notice have been received by All-Points Technology Corporation, P.C. Should a response be received, copies will be forwarded to all consulting parties as an addendum to this submission packet.

Re: Proposed Wireless Communication Facility Modification
92 Greens Farms Road
Westport, Connecticut

To comply with Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended, Tarpon Towers II has retained All-Points Technology Corporation, P.C. (APT) to evaluate proposed tower facilities for any adverse effect they may have on historic properties. As part of this evaluation, and in conformance with the Nationwide Programmatic Agreement (NPA) for review of effects on historic properties for proposed undertakings, APT is submitting this notification to the Town of Westport.

Tarpon Towers II is proposing to construct a new communications facility at 92 Greens Farms Road in Westport, CT. The proposed facility will include a ± 124 -foot tall monopole tower within a new ± 35 -foot by ± 64 -foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers.

The purpose of this letter is to notify you that the public notice of this proposed facility will be published in the Norwalk Hour on Monday, June 7, 2021 and to invite written comments from relevant individuals or groups that you may be aware of regarding any potential effects that the proposed facility may have upon historic properties.

Any comments regarding potential effects on historic properties may be submitted within 30 days from the date of this publication to: All-Points Technology Corporation at 567 Vauxhall Street Extension – Suite 311, Waterford, CT 06385, to the attention of Jennifer Young Gaudet, (860) 663-1697 ext. 231, jyounggaudet@allpointstech.com. Date: Wednesday, June 16, 2021 5:38:50 PM

Hello Jennifer,

We strongly oppose any cell tower 1/4 of a mile from our Historical home.

We won a preservation award for restoring this 1875 home 10 years ago.

This is a neighborhood which would be greatly impacted. You have many other places To put a cell tower yet not in our neighborhood.

Suggest Sherwood Island, train stations to start. No one lives there!!!

We strongly oppose any cell tower near our homes and the schools with over 500 kids Also 1/4 mile away.

Dear Jennifer,

My wife and I are residents at 100 Hillspoint Road in Westport. We are about a quarter mile from the proposed cell tower. We also live next to a preschool that has at least 300 students based on the traffic we see every day.

We strongly oppose this project. There are many historical homes in our neighborhood, not to mention the school. It would be a disaster to locate the tower in the proposed location. Can you please consider Greens Farms train station, the sewer treatment plant or some other public area where there is no housing?

Thank you

Waterford, CT 06320

Subject: Proposed Telecommunications Facility
92 Greens Farms Road
Westport, CT
T-Mobile Northeast, LLC
ENV-22-0428

Dear Mr. Gaudet:

The State Historic Preservation Office is in receipt of the submitted proposal for the above-referenced project, submitted for review and comment pursuant to the National Historic Preservation Act and in accordance with Federal Communications Commission regulations.

The property located at 92 Greens Farms Road does not appear eligible for listing on the National Register of Historic Places (NR). However, it is within 0.5 miles of Metro-North Railroad's New Haven Line, formerly operated by the New York and New Haven Railroad from 1844 to 1872, and by the New York, New Haven & Hartford Railroad from 1872 to 1970, the entirety of which was previously determined by our office to be eligible for listing on the National Register.

The proposed undertaking includes construction of a 124 foot tall steel monopole, located within a 35 foot by 64 foot fenced equipment compound. Preliminary archaeological assessment of the project area notes five previously identified archeological sites within 0.5 miles; however, none will be impacted by the proposed undertaking. Additional, soil profiles for the project area are characterized as Udorthents-Urban land and have a low potential to contain intact archeological deposits. A pedestrian survey further revealed that the project area has been substantially disturbed by construction of Interstate 95 and Old Green Farms Road.

State Historic Preservation Office

Department of Economic and
Community Development

State Historic Preservation Office

The SHPO has determined that the proposed undertaking will have no adverse effect to sites listed on or eligible for listing on the National Register of Historic Places, with the following conditions:

1. The antennas, RRUs, antennas, mounts, and associated equipment will be designed, painted to match adjacent materials, and installed to be as non-visible as possible, and
2. if not in use for six consecutive months, the RRUs, antennas, mounts, and equipment shall be removed by the telecommunications facility owner. This removal shall occur within 90 days of the end of such six-month period.

The State Historic Preservation Office appreciates the opportunity to review and comment upon this project. These comments are provided in accordance with the Connecticut Environmental Policy Act and Section 106 of the National Historic Preservation Act. For further information please contact Marena Wisniewski, Environmental Reviewer, at (860) 500-2357 or marena.wisniewski@ct.gov.

Sincerely,

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. Historic Preservation Director Erin Paden - Delaware Nation - 31064 State Highway 281 (PO Box: 825) Anadarko, OK - banderson@delawarenation-nsn.gov; epaden@delawarenation-nsn.gov - 405-247-2448 (ext: 1403) - electronic mail

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the Federal Communications Commission. Please submit a 1 page cover letter with the TCNS Number, Project Name, City, County, State, Project Type, Height of tower, Land use, Explanation of ground disturbance, Geographic Coordinates in decimal degrees, and Contact information including individuals name, address, phone, fax, and email.

2. Deputy THPO Michael e Johnson - Mashantucket Pequot Tribe - 110 Pequot Trail Mashantucket, CT - mejohnson@mptn-nsn.gov; mturnbull@mptn-nsn.gov - 860-396-7575 - electronic mail

If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

3. Deputy THPO Elaine Thomas - Mohegan Indian Tribe - Cultural and Community Programs Dept 13 Crow Hill Road Uncasville, CT - ethomas@moheganmail.com - 860-862-6393 - electronic mail and regular mail

4. Program Manager Sequahna Mars - Narragansett Indian Tribe - (PO Box: 350) Wyoming, RI - Sequahna@yahoo.com; Nithpotcns@gmail.com - 401-419-2959 - electronic mail and regular mail

If the applicant/tower builder receives no response from the Narragansett Indian Tribe within 30 days after notification through TCNS, the Narragansett Indian Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Narragansett Indian Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

5. THPO Edith Leoso - Bad River Band of Lake Superior Tribe of Chippewa Indians - (PO Box: 39) Odanah, WI - thpo@badriver-nsn.gov; THPOAsst@badriver-nsn.gov - 715-682-7123 - electronic mail

If the applicant/tower builder receives no response from the Bad River Band of Lake Superior Tribe of Chippewa Indians within 30 days after notification through TCNS, the Bad River Band of Lake Superior Tribe of Chippewa Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Bad River Band of Lake Superior Tribe of Chippewa Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

6. THPO Marvin DeFoe - Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin - 88455 Pike Road, HWY 13 Bayfield, WI - Marvin.DeFoe@redcliff-nsn.gov; Edwina.Buffalo-Reyes@redcliff-nsn.gov - 715-779-3700 (ext: 4242) - electronic mail

Exclusions: Boozhoo, we do not have the Red Cliff Portal site online anymore and apologize for the inconvenience.

If you have a project that has already been paid for or would like to voluntarily pay for, please email documents for project review to THPO@redcliff-nsn.gov. This address is only to be used by Consultants who are voluntarily paying for projects.

If you have any questions, please contact Marvin Defoe, THPO Manager at (715) 779-3700 Ext. 4244 or Edwina Buffalo-Reyes, THPO Assistant at (715) 779-3700Ext. 4243.

7. THPO Melinda J Young - Lac du Flambeau Band of Lake Superior Chippewa Indians - Tribal Historic Preservation Office (PO Box: 67) Lac du Flambeau, WI - ldfthpo@ldftribe.com - 715-588-2139 - electronic mail Exclusions: Effective Immediately:

Please send all submissions through email until further notice. Effective 3/23/2020

Please email all submissions to ldfthpo@ldftribe.com

Thank you

8. Dr. Brice M Obermeyer - Delaware Tribe of Indians of Oklahoma - 1 Kellog Drive Roosevelt Hall, Room 212 Emporia, KS - bobermeyer@delawaretribe.org; sbachor@delawaretribe.org - 620-341-6699 - electronic mail Exclusions: The Delaware Tribe of Indians areas of interest include our aboriginal territories (circa 1600), known locations of historic Delaware settlements, routes of removal and forced migration, and all lands of Delaware aboriginal title ceded by treaty to the United States. If you are receiving this notification, then your project falls within these areas of interest and we ask that you provide us with a cover letter describing the project and its location (including the project coordinates) as well as a topographic map showing the project location. If an archaeological survey has already been performed in preparation for the project, please send a copy of that as well. Additionally, we may request a biological assessment of culturally significant treaty resources which may be affected by the proposed undertaking.

We are only interested in consulting on projects that involve ground disturbance that is planned to take place in both undisturbed and previously disturbed contexts. We are not interested in consulting on collocations or projects that involve no ground disturbance. If your project does involve ground disturbance or you do not receive a response from us within 30 days of submitting the above project information, then we have no objection to the project. However, if any archaeological resources or human remains are disturbed at any point in the project planning or construction, we ask that the project be halted until we can be notified of the inadvertent discovery and can

determine the most appropriate course of action. If your company would like a formal written response from the Delaware Tribe concerning the potential impact of your project to culturally and religiously significant sites, please contact Brice Obermeyer at bobermeyer@delawaretribe.org to request such a response.

In order to better facilitate consultation throughout our areas of interest we have three regional tribal historic preservation offices. While our Tribal Headquarters remains in Oklahoma, our Eastern Office in Pennsylvania is the point of contact for all consultation within our Eastern Region which includes the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. If your project exists in any of these states, please contact Susan Bachor with the above project information at the following e-mail address. Our eastern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Susan Bachor, DTHPO Special Assistant
Eastern Office
P.O. Box 64
Pocono Lake, PA 18347
(610) 761-7452 sbachor@delawaretribe.org

Our Midwestern office in Minnesota is the point of contact for all consultation within our Midwestern region which includes the states of West Virginia, Ohio, Indiana, Michigan and Illinois. If your project exists in any of these states, please contact Larry Heady with the above project information at the following e-mail address. Our Midwestern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Larry Heady, DTHPO Special Assistant
Midwestern Office
1929 E. 6th Street
Duluth, MN 55812
(262) 825-7586
lheady@delawaretribe.org

Our main office in Emporia, Kansas is the point of contact for all consultation within our Western Region which includes the states of Oklahoma, Kansas and Missouri. If your project exists in any of these states, please contact Brice Obermeyer with the above project information at the following e-mail address. Our Main Office prefers to receive digital submissions and the project information can be submitted by e-mail.

Dr. Brice Obermeyer, DTHPO Director,
Main Office
1 Kellogg Circle Roosevelt Hall,
Rm 212 Emporia State University
Emporia, KS 66801
(602) 341-6699
bobermeyer@delawaretribe.org

We, at the Delaware Tribe Historic Preservation Office, along with our Chief and Tribal Council remain committed to protecting the cultural and physical integrity of our historic sites, traditional cultural properties, sacred sites, objects of cultural patrimony, and most importantly, the remains of our Ancestors. We look forward to working with you on our shared interests in preserving and protecting Delaware heritage within our areas of interest.

If the applicant/tower builder receives no response from the Delaware Tribe of Indians of Oklahoma within 30 days after notification through TCNS, the Delaware Tribe of Indians of Oklahoma has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Delaware Tribe of Indians of Oklahoma in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

9. SHPO Cara Metz - Massachusetts Historical Commission - 220 Morrissey Boulevard Boston, MA - cara.metz@sec.state.ma.us - 617-727-8470 - electronic mail

10. Deputy SHPO Jeffrey Emidy - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - jeffrey.emidy@preservation.ri.gov - 401-222-4134 - regular mail

11. SHPO Edward F Sanderson - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - rgreenwood@preservation.ri.gov - 401-222-4130 - electronic mail

12. SHPO Karen J Senich - Connecticut Commission on Culture and Tourism - One Constitution Plaza Hartford, CT - karen.senich@ct.gov - 860-256-2753 - electronic mail

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above contact information is no longer valid, please contact the FCC by emailing tenshelp@fcc.gov. The following information relating to the proposed tower was forwarded to the person(s) listed above:

Notification Received: 05/10/2021
Notification ID: 231311
Excluded from SHPO Review: No
Tower Owner Individual or Entity Name: Tarpon Towers II
Consultant Name: Deborah M Leonardo
Street Address: 567 Vauxhall Street Extension
Suite 311
City: Waterford
State: CONNECTICUT
Zip Code: 06385
Phone: 860-663-1697

Email: dleonardo@allpointstech.com

Structure Type: MTOWER - Monopole

Latitude: 41 deg 7 min 25.3 sec N

Longitude: 73 deg 20 min 41.6 sec W

Location Description: 92 Greens Farms Road

City: Westport

State: CONNECTICUT

County: FAIRFIELD

Detailed Description of Project: The proposed facility will include a 124 foot tall monopole tower within a new 35 foot by 64 foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road.

Ground Elevation: 5.9 meters

Support Structure: 37.8 meters above ground level

Overall Structure: 37.8 meters above ground level

Overall Height AMSL: 43.7 meters above mean sea level

If you have any questions or comments regarding this notice, please contact the FCC using the electronic Help Request form located on the FCC's website at:

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #7699928
Date: Friday, May 14, 2021 3:03:29 AM

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. Historic Preservation Director Erin Paden - Delaware Nation - 31064 State Highway 281 (PO Box: 825) Anadarko, OK - banderson@delawarenation-nsn.gov; epaden@delawarenation-nsn.gov - 405-247-2448 (ext: 1403) - electronic mail

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the Federal Communications Commission. Please submit a 1 page cover letter with the TCNS Number, Project Name, City, County, State, Project Type, Height of tower, Land use, Explanation of ground disturbance, Geographic Coordinates in decimal degrees, and Contact information including individuals name, address, phone, fax, and email.

2. Deputy THPO Michael e Johnson - Mashantucket Pequot Tribe - 110 Pequot Trail Mashantucket, CT - mejohnson@mptn-nsn.gov; mturnbull@mptn-nsn.gov - 860-396-7575 - electronic mail

If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Dear Applicant:

This letter addresses the proposed communications facilities listed below that you have referred to the Federal Communications Commission (Commission) for purposes of contacting federally recognized Indian Tribes, including Alaska Native Villages (collectively Indian Tribes), and Native Hawaiian Organizations (NHOs), as specified by Section IV.G of the Nationwide Programmatic Agreement (NPA). Consistent with the procedures outlined in the Commission's Wireless Infrastructure Second Report and Order (1), we have contacted the Indian Tribes or NHOs identified in the attached Table for the projects listed in the attached Table. You referred these projects to us between 07/29/2021 and 08/05/2021. Our contact with these Tribal Nations or NHOs was sent on 08/05/2021.

Thus, as described in the Wireless Infrastructure Second Report and Order (2), if you or Commission staff do not receive a statement of interest regarding a particular project from any Tribe or NHO within 15 calendar days of 08/05/2021, your obligations under Section IV of the NPA with respect to these Tribal Nations or NHOs are complete. If a Tribal Nation or NHO responds that it has concerns about a historic property of traditional religious and cultural significance that may be affected by the proposed construction within the 15 calendar day period, the Applicant must involve it in the review as set forth in the NPA, and may not begin construction until the process set forth in the NPA is completed.

You are reminded that Section IX of the NPA imposes independent obligations on an Applicant when a previously unidentified site that may be a historic property, including an archeological property, is discovered during construction or after the completion of review. In such instances, the Applicant must cease construction and promptly notify, among others, any potentially affected Tribal Nation or NHO. A Tribal Nation's or NHO's failure to express interest in participating in pre-construction review of an undertaking does not necessarily mean it is not interested in archeological properties or human remains that may inadvertently be discovered during construction. Hence, an Applicant is still required to notify any potentially affected Tribal Nation or NHO of any such finds pursuant to Section IX or other applicable law.

Sincerely,
Jill Springer
Federal Preservation Officer
Federal Communications Commission
jill.springer@fcc.gov

1) See Accelerating Wireless Broadband Deployment by Removing Barriers to Infrastructure Deployment, Second Report and Order, FCC 18-30 (Mar. 30, 2018) (Wireless Infrastructure Second Report and Order).

2) See *id.* at paras. 111-112.

LIST OF PROPOSED COMMUNICATIONS TOWERS

TCNS# 231311 Referred Date: 08/02/2021 Location: 92 Greens Farms Road, Westport, CT
Detailed Description of Project: The proposed facility will include a 124 foot tall monopole tower within a new 35 foot by 64 foot gravel based fenced equipment compound. An access drive and underground electrical and telephone

service will extend from Greens Farms Road.

Tribe Name: Delaware Nation

Tribe Name: Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin

TCNS# 232939 Referred Date: 08/05/2021 Location: 225 North Main Street, Bristol, CT

Detailed Description of Project: TMobile will remove and replace 9 antennas and 6 RRUs with 9 Antennas and 9 RRUs. Two equipment cabinets will be added on the existing concrete pad at the base. All existing cables will be removed and replaced with 3 hybrid cables.

Tribe Name: Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin

Tribe Name: Sac and Fox Nation

August 5, 2021

To Whom It May Concern:

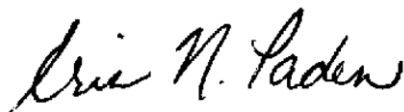

The Delaware Nation Historic Preservation Department received correspondence regarding the following referenced project(s).

Project(s): TCNS# 231311
92 Greens Farms Road, Westport, Fairfield County, CT 06880

Our office is committed to protecting tribal heritage, culture and religion with particular concern for archaeological sites potentially containing burials and associated funerary objects.

The Lenape people occupied the area indicated in your letter prior to European contact until their eventual removal to our present locations. According to our files, the location of the proposed project does not endanger cultural, or religious sites of interest to the Delaware Nation. **Please continue with the project as planned** keeping in mind during construction should an archaeological site or artifacts inadvertently be uncovered, all construction and ground disturbing activities should immediately be halted until the appropriate state agencies, as well as this office, are notified (within 24 hours), and a proper archaeological assessment can be made.

Please note the Delaware Nation, the Delaware Tribe of Indians, and the Stockbridge Munsee Band of Mohican Indians are the only Federally Recognized Delaware/Lenape entities in the United States and consultation must be made only with designated staff of these three tribes. We appreciate your cooperation in contacting the Delaware Nation Historic Preservation Office to conduct proper Section 106 consultation. Should you have any questions, feel free to contact our offices at 405-247-2448 ext. 1403.

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #7699928
Date: Friday, May 14, 2021 3:03:29 AM

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. Historic Preservation Director Erin Paden - Delaware Nation - 31064 State Highway 281 (PO Box: 825) Anadarko, OK - banderson@delawarenation-nsn.gov; epaden@delawarenation-nsn.gov - 405-247-2448 (ext: 1403) - electronic mail

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the Federal Communications Commission. Please submit a 1 page cover letter with the TCNS Number, Project Name, City, County, State, Project Type, Height of tower, Land use, Explanation of ground disturbance, Geographic Coordinates in decimal degrees, and Contact information including individuals name, address, phone, fax, and email.

2. Deputy THPO Michael e Johnson - Mashantucket Pequot Tribe - 110 Pequot Trail Mashantucket, CT - mejohnson@mptn-nsn.gov; mturnbull@mptn-nsn.gov - 860-396-7575 - electronic mail

If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

3. Deputy THPO Elaine Thomas - Mohegan Indian Tribe - Cultural and Community Programs Dept 13 Crow Hill Road Uncasville, CT - ethomas@moheganmail.com - 860-862-6393 - electronic mail and regular mail

4. Program Manager Sequahna Mars - Narragansett Indian Tribe - (PO Box: 350) Wyoming, RI - Sequahna@yahoo.com; Nithpotcns@gmail.com - 401-419-2959 - electronic mail and regular mail

If the applicant/tower builder receives no response from the Narragansett Indian Tribe within 30 days after notification through TCNS, the Narragansett Indian Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Narragansett Indian Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

5. THPO Edith Leoso - Bad River Band of Lake Superior Tribe of Chippewa Indians - (PO Box: 39) Odanah, WI - thpo@badriver-nsn.gov; THPOAsst@badriver-nsn.gov - 715-682-7123 - electronic mail

If the applicant/tower builder receives no response from the Bad River Band of Lake Superior Tribe of Chippewa Indians within 30 days after notification through TCNS, the Bad River Band of Lake Superior Tribe of Chippewa Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Bad River Band of Lake Superior Tribe of Chippewa Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

6. THPO Marvin DeFoe - Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin - 88455 Pike Road, HWY 13 Bayfield, WI - Marvin.DeFoe@redcliff-nsn.gov; Edwina.Buffalo-Reyes@redcliff-nsn.gov - 715-779-3700 (ext: 4242) - electronic mail

Exclusions: Boozhoo, we do not have the Red Cliff Portal site online anymore and apologize for the inconvenience.

If you have a project that has already been paid for or would like to voluntarily pay for, please email documents for project review to THPO@redcliff-nsn.gov. This address is only to be used by Consultants who are voluntarily paying for projects.

If you have any questions, please contact Marvin Defoe, THPO Manager at (715) 779-3700 Ext. 4244 or Edwina Buffalo-Reyes, THPO Assistant at (715) 779-3700Ext. 4243.

7. THPO Melinda J Young - Lac du Flambeau Band of Lake Superior Chippewa Indians - Tribal Historic Preservation Office (PO Box: 67) Lac du Flambeau, WI - ldfthpo@ldftribe.com - 715-588-2139 - electronic mail
Exclusions: Effective Immediately:

Please send all submissions through email until further notice. Effective 3/23/2020

Please email all submissions to ldfthpo@ldftribe.com

Thank you

8. Dr. Brice M Obermeyer - Delaware Tribe of Indians of Oklahoma - 1 Kellog Drive Roosevelt Hall, Room 212 Emporia, KS - bobermeyer@delawaretribe.org; sbachelor@delawaretribe.org - 620-341-6699 - electronic mail
Exclusions: The Delaware Tribe of Indians areas of interest include our aboriginal territories (circa 1600), known locations of historic Delaware settlements, routes of removal and forced migration, and all lands of Delaware aboriginal title ceded by treaty to the United States. If you are receiving this notification, then your project falls within these areas of interest and we ask that you provide us with a cover letter describing the project and its location (including the project coordinates) as well as a topographic map showing the project location. If an archaeological survey has already been performed in preparation for the project, please send a copy of that as well. Additionally, we may request a biological assessment of culturally significant treaty resources which may be affected by the proposed undertaking.

We are only interested in consulting on projects that involve ground disturbance that is planned to take place in both undisturbed and previously disturbed contexts. We are not interested in consulting on collocations or projects that involve no ground disturbance. If your project does involve ground disturbance or you do not receive a response from us within 30 days of submitting the above project information, then we have no objection to the project. However, if any archaeological resources or human remains are disturbed at any point in the project planning or construction, we ask that the project be halted until we can be notified of the inadvertent discovery and can

determine the most appropriate course of action. If your company would like a formal written response from the Delaware Tribe concerning the potential impact of your project to culturally and religiously significant sites, please contact Brice Obermeyer at bobermeyer@delawaretribe.org to request such a response.

In order to better facilitate consultation throughout our areas of interest we have three regional tribal historic preservation offices. While our Tribal Headquarters remains in Oklahoma, our Eastern Office in Pennsylvania is the point of contact for all consultation within our Eastern Region which includes the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. If your project exists in any of these states, please contact Susan Bachor with the above project information at the following e-mail address. Our eastern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Susan Bachor, DTHPO Special Assistant
Eastern Office
P.O. Box 64
Pocono Lake, PA 18347
(610) 761-7452 sbachor@delawaretribe.org

Our Midwestern office in Minnesota is the point of contact for all consultation within our Midwestern region which includes the states of West Virginia, Ohio, Indiana, Michigan and Illinois. If your project exists in any of these states, please contact Larry Heady with the above project information at the following e-mail address. Our Midwestern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Larry Heady, DTHPO Special Assistant
Midwestern Office
1929 E. 6th Street
Duluth, MN 55812
(262) 825-7586
lheady@delawaretribe.org

Our main office in Emporia, Kansas is the point of contact for all consultation within our Western Region which includes the states of Oklahoma, Kansas and Missouri. If your project exists in any of these states, please contact Brice Obermeyer with the above project information at the following e-mail address. Our Main Office prefers to receive digital submissions and the project information can be submitted by e-mail.

Dr. Brice Obermeyer, DTHPO Director,
Main Office
1 Kellogg Circle Roosevelt Hall,
Rm 212 Emporia State University
Emporia, KS 66801
(602) 341-6699
bobermeyer@delawaretribe.org

We, at the Delaware Tribe Historic Preservation Office, along with our Chief and Tribal Council remain committed to protecting the cultural and physical integrity of our historic sites, traditional cultural properties, sacred sites, objects of cultural patrimony, and most importantly, the remains of our Ancestors. We look forward to working with you on our shared interests in preserving and protecting Delaware heritage within our areas of interest.

If the applicant/tower builder receives no response from the Delaware Tribe of Indians of Oklahoma within 30 days after notification through TCNS, the Delaware Tribe of Indians of Oklahoma has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Delaware Tribe of Indians of Oklahoma in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

9. SHPO Cara Metz - Massachusetts Historical Commission - 220 Morrissey Boulevard Boston, MA - cara.metz@sec.state.ma.us - 617-727-8470 - electronic mail

10. Deputy SHPO Jeffrey Emidy - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - jeffrey.emidy@preservation.ri.gov - 401-222-4134 - regular mail

11. SHPO Edward F Sanderson - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - rgreenwood@preservation.ri.gov - 401-222-4130 - electronic mail

12. SHPO Karen J Senich - Connecticut Commission on Culture and Tourism - One Constitution Plaza Hartford, CT - karen.senich@ct.gov - 860-256-2753 - electronic mail

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above contact information is no longer valid, please contact the FCC by emailing tenshelp@fcc.gov. The following information relating to the proposed tower was forwarded to the person(s) listed above:

Ms. Leonardo,

The Lac du Flambeau Tribal Historic Preservation Office (THPO) received your requests for comments or interest concerning the National Historic Preservation Act, Section 106 request for review and comment to the effect on historic and cultural sites within the proposed above referenced project area.

The Lac du Flambeau Tribe does not release any cultural/historical data to any agency outside of the Tribe. We will, however research and check our databases, maps, and any other pertinent inventory records with regards to said project.

Under the authority of Section 106 of the National Historic Preservation Act of 1966, as amended, we have reviewed the above-cited undertaking at the location noted above. Based on the information provided for our review, it is the opinion of the Lac du Flambeau THPO that the project has **No Historic Properties** within the project area.

This letter evidences the FCC's compliance with 36 CFR § 800.4 "Identification of historic properties" and 36 CFR § 800.5 "Assessment of adverse effects", and the fulfillment of the FCC's responsibility to notify the THPO, as a consulting party in the Section 106 process, under 36 CFR § 800.5(c) "Consulting party review".

Referencing above mentioned project we have determined that we have no objections to the project at this time we have now completed the necessary paper work and research for site documentation and will keep the project open until such time it ends. If the scope of work changes in any way, or if artifacts or human remains are discovered please notify Lac du Flambeau immediately.

Sarah Schuman,
Interim Tribal Historic Preservation Officer

RE: TCNS 231311

Dear Deb,

We have reviewed all of the materials for the above-referenced TCNS project for 92 Greens Farms Road, Westport, CT. We understand that

Tarpon Towers is proposing to construct a new communications facility

The proposed facility will include a ± 110 -foot-tall monopole tower within a ± 75 -foot by ± 75 -foot area that includes a new ± 35 -foot by ± 64 -foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road. The new tower and equipment compound will allow for the future collocation of multiple service providers..

Based on our internal research of this project, and the information provided by your company, we conclude that there will not be any significant impact on religious or cultural properties of the Mashantucket Pequot Tribe within the defined APE for this project.

However, we further understand that there will be moderate ground disturbance associated with the construction of this project. If in the event that archaeological or cultural artifacts are inadvertently discovered, our office would like to be notified. Additionally, if human remains were to also be inadvertently disturbed, we ask that proper protocols be followed, including (if applicable) consulting NAGPRA guidelines.

Thank You!

Michael Kickingbear Johnson
Deputy THPO,
Mashantucket Pequot Tribal Historic Preservation

Subject: Reply to Proposed Tower Structure (Notification ID: 231311) - Email ID #7775635
Date: Tuesday, July 06, 2021 3:22:08 PM

Dear Deborah M Leonardo,

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this email is to inform you that an authorized user of the TCNS has replied to a proposed tower construction notification that you had submitted through the TCNS.

The following message has been sent to you from Deputy THPO Elaine Thomas of the Mohegan Indian Tribe in reference to Notification ID #231311:

TCNS# 231311- Our office has completed research for the proposed telecommunications facility project located at 92 Greens Farms Road, Westport, Connecticut. We received the New Tower Submission Packet that was provided to us on July 1, 2021 for this project and the Area of Potential Effects-Direct Effects, (APE-DE). We have reviewed the Preliminary Archaeological Review prepared for this project and understand that the APE-DE is impacted by intensive modern disturbances that contain cutting and filling, and that the pedestrian survey concluded the APE-DE contains wetlands. We concur that no further archaeological testing is recommended for this project.

Based upon these findings, it is the opinion of the Mohegan THPO that this undertaking as proposed should have No Adverse Effect on historic properties, or properties of traditional religious and cultural significance to the Mohegan Tribe.

In addition, in the event that a concentration of artifacts or culturally modified soil deposits (including trash pits older than 50 years) should be encountered at any time during ground disturbing activities, all work must stop until a qualified archaeologist views the finds and makes a preliminary evaluation. If warranted, further archaeological work in the discovery area should be performed. Although unlikely, if human remains are encountered all work must stop in the immediate vicinity of the discovery until the County Coroner and a qualified archaeologist evaluate the remains.

Thank you for the opportunity to research this project in accordance with the National Historic Preservation Act.

Best Regards,
Elaine Thomas
The Mohegan Tribe
Deputy Tribal Historic Preservation Officer ethomas@moheganmail.com

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the Federal Communications Commission. Please submit a 1 page cover letter with the TCNS Number, Project Name, City, County, State, Project Type, Height of tower, Land use, Explanation of ground disturbance, Geographic Coordinates in decimal degrees, and Contact information including individuals name, address, phone, fax, and email.

2. Deputy THPO Michael e Johnson - Mashantucket Pequot Tribe - 110 Pequot Trail Mashantucket, CT - mejohnson@mptn-nsn.gov; mturnbull@mptn-nsn.gov - 860-396-7575 - electronic mail

If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

3. Deputy THPO Elaine Thomas - Mohegan Indian Tribe - Cultural and Community Programs Dept 13 Crow Hill Road Uncasville, CT - ethomas@moheganmail.com - 860-862-6393 - electronic mail and regular mail

4. Program Manager Sequahna Mars - Narragansett Indian Tribe - (PO Box: 350) Wyoming, RI - Sequahna@yahoo.com; Nithpotcns@gmail.com - 401-419-2959 - electronic mail and regular mail

If the applicant/tower builder receives no response from the Narragansett Indian Tribe within 30 days after notification through TCNS, the Narragansett Indian Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Narragansett Indian Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

5. THPO Edith Leoso - Bad River Band of Lake Superior Tribe of Chippewa Indians - (PO Box: 39) Odanah, WI - thpo@badriver-nsn.gov; THPOAsst@badriver-nsn.gov - 715-682-7123 - electronic mail

If the applicant/tower builder receives no response from the Bad River Band of Lake Superior Tribe of Chippewa Indians within 30 days after notification through TCNS, the Bad River Band of Lake Superior Tribe of Chippewa Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Bad River Band of Lake Superior Tribe of Chippewa Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

6. THPO Marvin DeFoe - Red Cliff Band of Lake Superior Chippewa Indians of Wisconsin - 88455 Pike Road, HWY 13 Bayfield, WI - Marvin.DeFoe@redcliff-nsn.gov; Edwina.Buffalo-Reyes@redcliff-nsn.gov - 715-779-3700 (ext: 4242) - electronic mail

Exclusions: Boozhoo, we do not have the Red Cliff Portal site online anymore and apologize for the inconvenience.

If you have a project that has already been paid for or would like to voluntarily pay for, please email documents for project review to THPO@redcliff-nsn.gov. This address is only to be used by Consultants who are voluntarily paying for projects.

If you have any questions, please contact Marvin Defoe, THPO Manager at (715) 779-3700 Ext. 4244 or Edwina Buffalo-Reyes, THPO Assistant at (715) 779-3700Ext. 4243.

7. THPO Melinda J Young - Lac du Flambeau Band of Lake Superior Chippewa Indians - Tribal Historic Preservation Office (PO Box: 67) Lac du Flambeau, WI - ldfthpo@ldftribe.com - 715-588-2139 - electronic mail
Exclusions: Effective Immediately:

Please send all submissions through email until further notice. Effective 3/23/2020

Please email all submissions to ldfthpo@ldftribe.com

Thank you

8. Dr. Brice M Obermeyer - Delaware Tribe of Indians of Oklahoma - 1 Kellog Drive Roosevelt Hall, Room 212 Emporia, KS - bobermeyer@delawaretribe.org; sbachelor@delawaretribe.org - 620-341-6699 - electronic mail
Exclusions: The Delaware Tribe of Indians areas of interest include our aboriginal territories (circa 1600), known locations of historic Delaware settlements, routes of removal and forced migration, and all lands of Delaware aboriginal title ceded by treaty to the United States. If you are receiving this notification, then your project falls within these areas of interest and we ask that you provide us with a cover letter describing the project and its location (including the project coordinates) as well as a topographic map showing the project location. If an archaeological survey has already been performed in preparation for the project, please send a copy of that as well. Additionally, we may request a biological assessment of culturally significant treaty resources which may be affected by the proposed undertaking.

We are only interested in consulting on projects that involve ground disturbance that is planned to take place in both undisturbed and previously disturbed contexts. We are not interested in consulting on collocations or projects that involve no ground disturbance. If your project does involve ground disturbance or you do not receive a response from us within 30 days of submitting the above project information, then we have no objection to the project. However, if any archaeological resources or human remains are disturbed at any point in the project planning or construction, we ask that the project be halted until we can be notified of the inadvertent discovery and can

determine the most appropriate course of action. If your company would like a formal written response from the Delaware Tribe concerning the potential impact of your project to culturally and religiously significant sites, please contact Brice Obermeyer at bobermeyer@delawaretribe.org to request such a response.

In order to better facilitate consultation throughout our areas of interest we have three regional tribal historic preservation offices. While our Tribal Headquarters remains in Oklahoma, our Eastern Office in Pennsylvania is the point of contact for all consultation within our Eastern Region which includes the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. If your project exists in any of these states, please contact Susan Bachor with the above project information at the following e-mail address. Our eastern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Susan Bachor, DTHPO Special Assistant
Eastern Office
P.O. Box 64
Pocono Lake, PA 18347
(610) 761-7452 sbachor@delawaretribe.org

Our Midwestern office in Minnesota is the point of contact for all consultation within our Midwestern region which includes the states of West Virginia, Ohio, Indiana, Michigan and Illinois. If your project exists in any of these states, please contact Larry Heady with the above project information at the following e-mail address. Our Midwestern office prefers to receive digital submissions and the project information can be submitted by e-mail.

Larry Heady, DTHPO Special Assistant
Midwestern Office
1929 E. 6th Street
Duluth, MN 55812
(262) 825-7586
lheady@delawaretribe.org

Our main office in Emporia, Kansas is the point of contact for all consultation within our Western Region which includes the states of Oklahoma, Kansas and Missouri. If your project exists in any of these states, please contact Brice Obermeyer with the above project information at the following e-mail address. Our Main Office prefers to receive digital submissions and the project information can be submitted by e-mail.

Dr. Brice Obermeyer, DTHPO Director,
Main Office
1 Kellogg Circle Roosevelt Hall,
Rm 212 Emporia State University
Emporia, KS 66801
(602) 341-6699
bobermeyer@delawaretribe.org

We, at the Delaware Tribe Historic Preservation Office, along with our Chief and Tribal Council remain committed to protecting the cultural and physical integrity of our historic sites, traditional cultural properties, sacred sites, objects of cultural patrimony, and most importantly, the remains of our Ancestors. We look forward to working with you on our shared interests in preserving and protecting Delaware heritage within our areas of interest.

If the applicant/tower builder receives no response from the Delaware Tribe of Indians of Oklahoma within 30 days after notification through TCNS, the Delaware Tribe of Indians of Oklahoma has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder,

however, must immediately notify the Delaware Tribe of Indians of Oklahoma in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

9. SHPO Cara Metz - Massachusetts Historical Commission - 220 Morrissey Boulevard Boston, MA - cara.metz@sec.state.ma.us - 617-727-8470 - electronic mail

10. Deputy SHPO Jeffrey Emidy - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - jeffrey.emidy@preservation.ri.gov - 401-222-4134 - regular mail

11. SHPO Edward F Sanderson - Rhode Island Historic Preservation & Heritage Comm - Old State House 150 Benefit St Providence, RI - rgreenwood@preservation.ri.gov - 401-222-4130 - electronic mail

12. SHPO Karen J Senich - Connecticut Commission on Culture and Tourism - One Constitution Plaza Hartford, CT - karen.senich@ct.gov - 860-256-2753 - electronic mail

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above contact information is no longer valid, please contact the FCC by emailing tenshelp@fcc.gov. The following information relating to the proposed tower was forwarded to the person(s) listed above:

Notification Received: 05/10/2021
Notification ID: 231311
Excluded from SHPO Review: No
Tower Owner Individual or Entity Name: Tarpon Towers II
Consultant Name: Deborah M Leonardo
Street Address: 567 Vauxhall Street Extension
Suite 311
City: Waterford
State: CONNECTICUT
Zip Code: 06385
Phone: 860-663-1697

Email: dleonardo@allpointstech.com

Structure Type: MTOWER - Monopole

Latitude: 41 deg 7 min 25.3 sec N

Longitude: 73 deg 20 min 41.6 sec W

Location Description: 92 Greens Farms Road

City: Westport

State: CONNECTICUT

County: FAIRFIELD

Detailed Description of Project: The proposed facility will include a 124 foot tall monopole tower within a new 35 foot by 64 foot gravel based fenced equipment compound. An access drive and underground electrical and telephone service will extend from Greens Farms Road.

Ground Elevation: 5.9 meters

Support Structure: 37.8 meters above ground level

Overall Structure: 37.8 meters above ground level

Overall Height AMSL: 43.7 meters above mean sea level

If you have any questions or comments regarding this notice, please contact the FCC using the electronic Help Request form located on the FCC's website at:

https://url.emailprotection.link/?bh_dSvtE3hQyoIY6lBJh3Q6vpall7LBo_Nz8pvJ9GleA_7ir-Lvx4vllWmpLQFC63NcUnLhQsP1baT9lWAVrtacfs6rkK4j_8zMZylQEyf8yaNDzPm2HukXosv6wasiyk

You may also call the FCC Support Center at (877) 480-3201 (TTY 717-338-2824). Hours are from 8:00 a.m. to 6:00 p.m. Eastern Time, Monday through Friday (except Federal holidays). To provide quality service and ensure security, all telephone calls are recorded.

Thank you,
Federal Communications Commission

APT Project No.: CT445200

Prepared For: Tarpon Towers II
8916 77th Terrace East, Suite 103
Lakewood Ranch, FL 34202

Site Name: CT1024 - Westport

Site Address: 92 Greens Farms Road, Westport, Connecticut

Date of Investigation: 05/03/2021

Field Conditions: **Weather:** cloudy, low 60's
Soil Moisture: dry to moist

Wetland/Watercourse Delineation Methodology¹:

- Connecticut Inland Wetlands and Watercourses
 Connecticut Tidal Wetlands

Municipal Upland Review Area: **Wetlands:** 75 feet **Watercourses:** 75 feet

The wetlands inspection was performed by²:

Matthew Gustafson, Registered Soil Scientist

Enclosures: Wetland Delineation Field Forms & Wetland Inspection Map

This report is provided as a brief summary of findings from APT's wetland investigation of the referenced Study Area that consists of proposed development activities and areas generally within 200 feet.³ If applicable, APT is available to provide a more comprehensive wetland impact analysis upon receipt of site plans depicting the proposed development activities and surveyed location of identified wetland and watercourse resources.

¹ Wetlands and watercourses were delineated in accordance with applicable local, state and federal statutes, regulations and guidance.

² All established wetlands boundary lines are subject to change until officially adopted by local, state, or federal regulatory agencies.

³ APT has relied upon the accuracy of information provided by Tarpon Towers II regarding the location and limits of the Study Area for the purposes of identifying wetlands and watercourses.

Poison Ivy (Toxicodendron radicans)	Garlic Mustard* (Alliaria petiolata)
Reed Canarygrass* (Phalaris arundinacea)	Silky Dogwood (Cornus amomum)
Japanese Knotweed* (Polygonum cuspidatum)	

* denotes Connecticut Invasive Species Council invasive plant species

GENERAL COMMENTS:

The Subject Property consists of an approximately 1.86-acre parcel developed as a residency adjacent to Interstate 95. The area proposed for the wireless telecommunications facility is located in a mature upland forested area in the western portion of the Subject Property. Access to the Facility would travel through mature upland forest south of Greens Farms Road for approximately 150 feet and would consist of an approximately 12-foot-wide gravel access. The project area in general is dominated by moderately aged second growth upland and wetland forested areas heavily influenced by anthropogenic factors including Interstate 95 and the old, abandoned route for Greens Farms Road. The surrounding land-use consists primarily of residential development.

Two wetland areas were identified and delineated proximate to the project area consisting of an isolated depressional wetland system (Wetland 1) and an intermittent stream system with narrow bordering forested wetlands (Wetland 2).

Wetland 1 is a very small, narrow, and isolated wetland feature formed in a small topographic depression. This wetland system exhibits high levels of human disturbance, both historically from the proximate construction of Interstate 95, as well as on-going disturbances associated with the proximity to this transportation corridor (as evident by disturbed soil profiles, prolific refuse material, and high densities/dominance of invasive plant species).

Wetland Delineation Field Form

Wetland I.D.:	Wetland 2	
Flag #'s:	WF 2-01 to 2-14	
Flag Location Method:	Site Sketch <input checked="" type="checkbox"/>	GPS (sub-meter) located <input checked="" type="checkbox"/>

WETLAND HYDROLOGY:

GENERAL COMMENTS:

The Subject Property consists of an approximately 1.86-acre parcel developed as a residency adjacent to Interstate 95. The area proposed for the wireless telecommunications facility is located in a mature upland forested area in the western portion of the Subject Property. Access to the Facility would travel through mature upland forest south of Greens Farms Road for approximately 150 feet and would consist of an approximately 12-foot-wide gravel access. The project area in general is dominated by moderately aged second growth upland and wetland forested areas heavily influenced by anthropogenic factors including Interstate 95 and the old, abandoned route for Greens Farms Road. The surrounding land-use consists primarily of residential development.

Two wetland areas were identified and delineated proximate to the project area consisting of an isolated depressional wetland system (Wetland 1) and an intermittent stream system with narrow bordering forested wetlands (Wetland 2).

Wetland 2 consists of a channelized intermittent watercourse with narrow bordering forested wetland areas that are seasonally saturated and occasionally flooded. The regulatory boundary of the intermittent stream system generally starts at a 72-inch reinforced concrete pipe culvert with the watercourse flowing to the east, parallel to Interstate 95. This wetland system exhibits high levels of human disturbance, both historically from the proximate construction of Interstate 95, as well as on-going disturbances associated with the transportation corridor (as evident by road sand deposition and bank erosion due to flashy hydrology from the highway's stormwater runoff).

TOWAIR Determination Results

*** NOTICE ***

TOWAIR's findings are not definitive or binding, and we cannot guarantee that the data in TOWAIR are fully current and accurate. In some instances, TOWAIR may yield results that differ from application of the criteria set out in 47 C.F.R. Section 17.7 and 14 C.F.R. Section 77.13. A positive finding by TOWAIR recommending notification should be given considerable weight. On the other hand, a finding by TOWAIR recommending either for or against notification is not conclusive. It is the responsibility of each ASR participant to exercise due diligence to determine if it must coordinate its structure with the FAA. TOWAIR is only one tool designed to assist ASR participants in exercising this due diligence, and further investigation may be necessary to determine if FAA coordination is appropriate.
