Subject: RE: #510

Good afternoon, Don.

The Siting Council (inclusive of its members and staff) is not a party or intervenor to this proceeding. It does not submit exhibits into the record of matters pending before it nor does it assist parties and intervenors in the creation and/or submission of exhibits into the record of matters pending before it. Furthermore, the records you seek below do not exist and the Council has no obligation to create records upon a Freedom of Information Act request. Of course, you may conduct your own research on the topics of interest using the existing records available at our office and on our website.

Also, if you are not satisfied with the responses to your interrogatories from the other parties and intervenors, you may either submit a motion to compel or follow up on the interrogatories you asked that are relevant to the proceeding when you cross examine the applicants and other parties and intervenors.

I hope this is responsive to your inquiry. If you have any further questions, please feel free to contact me at your convenience.

Thanks. Have a great day.

Melanie

Greetings Melanie,
This request is occasioned in part because the answers to one of my interrogatories were not complete.

I would like to obtain information as to the following two items:

1. Zone, Lot Sizes and Ownership

Based upon the decisions of the Siting Council since 1/1/00, I would like to learn of all positive siting decisions for a new cell tower that involved all of three elements, sites in residential zones, sites that were less than four acres and sites which were owned and occupied by a homeowner or a tenant of a homeowner.

2. Approval History

Based upon the decisions of the Siting Council since 1/1/00, I would like to learn the total number of new cell towers approved by the Siting Council and the total number that were denied by the Siting Council.

Is that something the Siting Council staff could prepare for me and, if there is a charge for that service, what would it be? If my 1/1/00 date poses a unique problem, I am flexible as to that. If this is something the Siting Council staff will not or could not undertake, kindly tell me if there is a formal filing to be made that might generate such information. Finally, if staff cannot or will not do this, kindly advise as to your thinking of the best means for me to obtain or develop this information.

Most likely this is an unusual request. I of course think it could be relevant to the decision of the Siting Council for #510. In all events, I thank you for your professionalism and responsiveness.

Don Bergmann #510 Intervenor 32 Sherwood Dr. Westport CT 06880 203 226 8712
