RE: **DOCKET NO. 511** – Barrett Outdoor Communications application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 200 East Main Street Rear, Stratford, Connecticut.

Dear Attorney Regan:

The Connecticut Siting Council (Council) requests your responses to the enclosed questions no later than September 22, 2022.

Please submit an original and 15 copies to the Council's office and an electronic copy to siting.council@ct.gov. In accordance with the State Solid Waste Management Plan and in accordance with Section 16-50j-12 of the Regulations of Connecticut State Agencies, the Council requests all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

Please be advised that the original and 15 copies are required to be submitted to the Council's office on or before the September 22, 2022 deadline.

Copies of your responses are required to be provided to all parties and intervenors listed in the service list, which can be found on the Council's website under the "Pending Matters" link.

Any request for an extension of time to submit responses to interrogatories shall be submitted to the Council in writing pursuant to §16-50j-22a of the Regulations of Connecticut State Agencies.

Sincerely,

Melanie Bachman
Executive Director

MB/RM/lm

c: Service List dated August 18, 2022

Docket No. 511
New Cingular Wireless PCS, LLC
Pre-Hearing Interrogatories

General

1. What is the estimated cost of AT&T's equipment, including installation?
2. How would the cost of AT&T's installation/co-location at the proposed site be recovered?

Site Search

3. When did AT&T commence a site search for the proposed service area? Identify the approximate center and radius of AT&T's site search area.
4. What other alternatives did AT&T examine besides the proposed site? Identify the alternative locations and the reasons for their rejection.

Coverage/Capacity

5. Referring to the AT&T Radio Frequency Analysis Report behind Tab 4 of the Application, Attachments 2, 3, and 4 are not legible. Provide a legible copy.
6. Provide a propagation model for existing 1900 MHz service and a propagation model for existing and proposed 1900 MHz coverage.
7. Referring to the AT&T Radio Frequency Analysis Report, p. 4, Table 1, list the "Main Roads" that would be covered by the facility.
8. Would the site provide capacity relief at adjacent AT&T facilities? If yes, identify the facilities and the frequencies and sectors at or near exhaustion that would benefit from capacity relief.
9. What is the lowest height at which AT&T's antennas could achieve its wireless service objectives from the proposed facility?
10. Are there any FirstNet subscribers in Stratford/Bridgeport that would be served by AT&T's installation?

Backup power

11. Referring to Application Site Plan C1, identify the generator fuel storage capacity and estimated generator runtime before it would require refueling.
12. Would the backup generator be managed to comply with Regulations of Connecticut State Agencies Section 22a-174-3b?
13. Would a battery backup (if applicable) be used by AT&T to provide uninterrupted power? How long could the battery backup alone supply power to the facility?

Public Safety

14. Pursuant to CGS §16-50p(a)(3)(G), identify the safety standards and/or codes by which equipment, machinery or technology that would be used or operated at the proposed facility by AT&T.
15. Would AT&T's equipment support text-to-911 service? Is additional equipment required for this purpose?
16. Would AT&T's antennas comply with federal E911 requirements?
17. Would AT&T's installation comply with the intent of the Warning, Alert and Response Network Act of 2006?
