RESPONSES OF CELLCO PARTNERSHIP D/B/A VERIZON WIRELESS TO
INTERROGATORIES FROM INTERVENOR DINO TREVISANI

On November 8, 2023, the Intervenor, Dino Trevisani issued Interrogatories to Cellco Partnership d/b/a Verizon Wireless (“Cellco”), relating to Docket No. 517. Below are Cellco’s responses.

Question No. 1

Is there a possibility of a light having to be installed at the top part of the tower sometime in the future? If no, what assurances that this won’t be mandated by some government body sometime in the future.

Response

Response to be provided by Message Center Management (“MCM”).

Question No. 2

In the event that the tower cause adverse effects on the wildlife or human health, does MCM or Verizon have adequate reserves and or insurance coverage to address potential repercussions to the impacted community? Is there any financial remedy to a potential collapse of my honeybees?

Response

Cellco objects on the grounds that questions regarding health effects related to RF emissions are outside the scope of the Council's jurisdiction in this proceeding. Notwithstanding its objection, Cellco directs Mr. Trevisani to the information provided on pp. 17-18 and in Attachment 7 of the Application. Cellco has demonstrated that the proposed facility will comply with the Maximum Permissible Exposure safety standards adopted by the Federal Communications Commission.

Question No. 3

The tower height is stated as 150 feet. What is the actual height of the tower relative to the road on Marchant and Simpaug?

Response

Response to be provided by MCM.

Question No. 4

Do you have any pictures of the balloon without tree leave coverage?

Response

Response to be provided by MCM.

CERTIFICATE OF SERVICE

I hereby certify that on the 20th day of November 2023, a copy of the foregoing was sent,
via electronic mail, to:
