Re: MCM Holdings, LLC  
Proposed Wireless Telecommunications Tower Facility  
288 Simpaug Turnpike (Parcel 12-29), Redding, Connecticut  
Docket 517

Intervenor Villamizar Testimony:

I am and have been a Verizon Wireless customer for many years residing at 235 Simpaug Turnpike and have found their service to be satisfactory. The only location that am aware of in West Redding where Verizon's cell coverage fades out but does not drop my call is on the corner of Side Cut Road and Route 53 and lasts a few seconds which I don't see as an issue. I have not had a problem making or receiving calls anywhere else in West Redding and, thus, it would seem that the data presented from Verizon on need from 2014 may no longer represent the current situation in West Redding.

I am and have been the owner of the property at 235 Simpaug Turnpike since 1998 and did give a representative of either MCM or Cellco or Allpoints Technology Corporation on behalf of either MCM or Cellco or both a tour of the property relative to the possibility of erecting a cell tower which unfortunately I do not have a record of the date but I am sure that Cellco and/or MCM do.

Respectfully submitted,

JoAnn Villamizar
