**Re: Proposed Telecommunications Facility  
11 Chamberlain Road  
East Windsor, Connecticut**

On behalf of Verizon Wireless, All-Points Technology Corporation, P.C. ("APT") performed an evaluation of the potential effects on historic resources associated with the proposed development of a wireless telecommunications at the referenced project site. The Facility would include a 120-foot tall, steel monopole.

APT completed an independent review of the National Register of Historic Places ("NRHP") and SHPO files to determine if any listed sites, or sites eligible for listing, are located proximate to the Site. The results of our review revealed that no such resources are located within one-half mile of the site.<sup>1</sup> A cultural resource screening map is provided as an attachment to this memorandum.

As part of its obligations for compliance with the National Environmental Policy Act ("NEPA"), Verizon Wireless will be submitting required documentation to the State Historic Preservation Office ("SHPO") for this agency's review and determination. The SHPO submission will be prepared by a qualified architectural historian that meets criteria developed by the Secretary of the Interior. That process has not yet been initiated.

Based on our research and the cultural resource screening map, it is APT's opinion that the proposed Facility is not likely to have an effect on cultural resources in the area.

Sincerely,

A handwritten signature in black ink that reads "Brian Gaudet". The signature is written in a cursive style with a prominent initial "B".

Brian Gaudet  
Project Manager
