**Re: Cellco Partnership d/b/a Verizon Wireless – Proposed Telecommunications Facility
11 Chamberlain Road, East Windsor, Connecticut**

Dear «Salutation»:

Cellco Partnership d/b/a Verizon Wireless (“Cellco”) will be submitting an application to the Connecticut Siting Council (“Council”) on or about October 26, 2023, for the construction of a new telecommunications facility in the Town of East Windsor, Connecticut.

Cellco currently maintains antennas and related equipment on an existing water tank at the above referenced location (the “Property”). The existing water tank, however is not structurally capable of supporting Cellco’s proposed facility modifications, prompting Cellco to pursue the development of a new tower site to replace its existing water tank facility.

The proposed new facility would be located in the northeast portion of the Property. At this location, Cellco proposes to construct a 120-foot monopole tower within a 50’ x 50’ fenced compound (100’ x 100’ leased area). Cellco would install up to twelve (12) panel-type antennas and twelve (12) remote radio heads on an antenna platform at a height of 115 feet above ground level (“AGL”). A radio equipment cabinet, backup battery cabinet and a diesel-fueled backup generator will be located within the facility compound, near the base of the tower.

Vehicular access to the Broadbrook Relo Facility would extend from Chamberlain Road along a new gravel access driveway to the compound. Electric and fiber optic service would extend from existing service along Chamberlain Road. Site plan drawings for the proposed facility are attached for your review. The location and other features of the proposed facility, including tower height, are subject to change under the provisions of Connecticut General Statutes § 16-50g et seq. and 47 U.S.C. § 1455e.

State law provides that owners of record of property which abuts a parcel on which a facility is proposed to be located must receive notice of the submission of this application. This notice is directed to you either because you may be an abutting landowner or as a courtesy notice.

If you have any questions concerning the application, please direct them to either the Connecticut Siting Council or me. My address and telephone number are listed above. The Siting Council may be reached at its New Britain, Connecticut office at (860) 827-2935.

Very truly yours,
