**Attention:** **Mr. Cory Samples**

**Subject:** **Phase I Environmental Site Assessment**  
**ARX Wireless, LLC Site - East Lyme (CT0471)**  
**306 Flanders Road**  
**East Lyme, New London County, Connecticut**  
**ECA Project No. 25-000172**

Dear Mr. Samples:

Environmental Corporation of America (ECA) is pleased to provide this report of our Phase I Environmental Site Assessment.

ECA has performed these services, in general conformance with the scope and limitations of ASTM Practice E1527-21, for the subject property. Any exceptions to, or deletions from, this practice are described in Section 2.4 of this report.

This assessment has not revealed evidence of recognized environmental conditions in connection with the subject property. Based on the findings, further assessment of the subject property is not warranted at this time.

ECA appreciates this opportunity to provide you with these professional services. If you have any questions regarding this report, please call us at (770) 667-2040.

Sincerely yours,  
Environmental Corporation of America

#### APPENDICES

- Appendix A Figures
- Appendix B Photographs
- Appendix C Historical Research Documentation
- Appendix D Regulatory Records Documentation
- Appendix E Interview Documentation

## **1.0 EXECUTIVE SUMMARY**

ECA was retained by ARX Wireless, LLC to conduct a Phase I Environmental Site Assessment of the subject property in accordance with ASTM E1527-21. ARX Wireless, LLC proposes the construction of a telecommunications facility within a proposed 3,600 square-foot lease area. The proposed lease area would be accessed by a proposed approximate 300-foot long by 30-foot wide access and utility easement. The subject property location is shown in [Appendix A](#).

### **Findings and Opinions**

Evidence of recognized environmental conditions or business environmental risks was not identified in connection with the subject property during the course of the assessment. It is ECA's opinion that there has been no material impact to the subject property.

### **Conclusions and Recommendations**

This assessment has not revealed evidence of recognized environmental conditions in connection with the subject property. As a result, further assessment is not warranted at this time.

## **2.0 INTRODUCTION**

### **2.1 Purpose**

The purpose of this assessment was to identify "recognized environmental conditions", as well as "business environmental risks" in connection with the subject property by means of record reviews, site reconnaissance, interviews, and preparation of this report.

A *recognized environmental condition* is defined by the ASTM E1527-21 standard as (1) "the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) under conditions that pose a material threat of a future release to the environment."

A *controlled recognized environmental condition* is defined by the ASTM E1527-21 standard as "a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place to implementation of required controls (for example, activity and use limitations or other property use limitations)."

A *historical recognized environmental condition* is defined by the ASTM E1527-21 standard as “a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).”

A *de minimis condition* is defined by the ASTM E1527-21 standard as a condition related to a release “that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.”

A *business environmental risk* is defined by the ASTM E1527-21 standard as “a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of commercial real estate.”

This Phase I Environmental Site Assessment has been conducted in accordance with the American Society for Testing and Materials (ASTM) Standard E1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. Per the ASTM standard, this assessment was “intended to permit a *user* to satisfy one of the requirements to qualify for the *innocent landowner, contiguous property owner, or bona fide prospective purchaser* limitations on CERCLA liability (hereinafter, the “*landowner liability protections*,” or “*LLPs*”): that is, the practice that constitutes “*all appropriate inquiries* into the previous ownership and uses of the *property* consistent with good commercial and customary standards and practices.”

## **2.2 Detailed Scope of Services**

The following scope of work was performed to fulfill the project purpose:

- A *Records Review* was conducted to include an evaluation of the physical setting of the subject property (geology, soil and groundwater conditions, topography, database searches, and public records review. Information was sought from sources of environmental records and those regarding historical use. ECA retained Environmental Data Resources, Inc. (EDR) to conduct the database search of the applicable local, tribal, State, and Federal databases, as well as other sources, as needed or required by the ASTM standard. The appendices contain the pertinent information obtained and utilized in our records review. [Section 7.0](#) of this report discusses the results of our records review.

- A *Site Reconnaissance* was conducted to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the subject property. [Section 5.0](#) contains a discussion of observations made during our site reconnaissance.
- *Interviews* were conducted to assess the potential for recognized environmental conditions in connection with the subject property. Parties interviewed included individuals familiar with the subject property such as the past and present owners, operators, and occupants of the subject property (if any), and state or local government officials. [Section 6.0](#) of this report contains the results of our interviews and a review of any information provided to us. Information provided by the user is discussed in [Section 4](#) and responses to our interview questions are documented in [Appendix E](#).
- *Additional items* that are not included within ASTM E1527-21 were considered, including floodplains, wetlands/waters, asbestos, lead-containing paints, mold, and radon.
- This *Report* was prepared to document the results of our inquiry as well as our findings, opinions, and conclusions. The appendices contain figures, photographs, and other supporting documentation.

### **2.3 Significant Assumptions**

Unless indicated otherwise herein, we assume that the user of this report seeks to qualify for one of the LLPs to CERCLA liability. ECA has not tried to independently verify the information provided by the parties interviewed or information gathered from other sources in the process of this assessment. ECA has relied on the information as true, accurate, and complete, unless we had reason to suspect otherwise.

### **2.4 Deviations**

Unless otherwise noted, ECA has not deviated from or deleted any requirements of the ASTM E1527-21 standard. Also, ECA was under no client-imposed constraint.

### **2.5 Limitations and Exceptions**

ECA performed no subsurface investigation as part of this assessment and removed no on-site vegetation. Therefore, it is possible that evidence of regulated substances not encountered during our site inspection exists below grade or beneath vegetation, pavement, or structures which may cover portions of the subject property. No sampling or testing of materials was conducted unless specified herein.

This report contains our evaluation of information gathered at the time of our assessment. Subsequent changes in site conditions, available information, or subsequent releases which result in material impact to the subject property were not considered in this study.

During the site visit, ECA visually and physically observed the subject property (by sight and smell) and accessible structures on the subject property to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles and in conformance with Section 9 of ASTM Practice E1527-21.

## **2.6 Special Terms and Conditions**

This assessment was performed in accordance with generally accepted methods and practices of the profession. The conclusions are based on “reasonably ascertainable” information and are not to be considered scientific certainties. The intent of this study was to identify environmental concerns that would be obvious to an environmental professional exercising due diligence and is not intended to represent an exhaustive research of all potential hazards that may exist. Unless addressed specifically herein, special terms and conditions in relation to this project are not included in this assessment.

## **2.7 User Reliance**

This Phase I Environmental Site Assessment is addressed to, prepared for, and may be relied upon by ARX Wireless, LLC (user). The report is considered Proprietary Information and the findings contained herein shall not, in whole or in part, be disseminated or conveyed to any other party, nor used or relied upon by any other party, without written notification from ARX Wireless, LLC, to ECA. In that case, ECA will issue a letter of understanding to the third party for their signature and will provide a copy of this report to the third party as directed by ARX Wireless, LLC for a processing fee. Notwithstanding, anything to the contrary herein, any third-party reliance is limited to the agreed upon scope of work by and between ECA and ARX Wireless, LLC.

# **3.0 SITE DESCRIPTION**

## **3.1 Location and Legal Description**

<b>Parent Parcel ID Number(s)</b>	31.3-7
<b>Address</b>	306 Flanders Road, East Lyme, New London County, Connecticut
<b>Subject Property Dimensions</b>	3,600 square-foot lease area and an approximate 300-foot long by 30-foot wide access and utility easement
<b>Latitude, Longitude (lease center)</b>	41° 21' 48.4" N 72° 12' 38.2" W

A legal description of the subject property was not provided. However, a Site Vicinity Plan is included in [Appendix A](#).

### **3.2 Subject Property and Vicinity General Characteristics**

The subject property consists of an overgrown area at the back of a restaurant parking lot and paved and gravel-covered portions of the parking lot. The subject property is located on a larger parent tract which is occupied by a paved parking lot, Smokey O-Grady's restaurant, and wooded land in an area generally characterized by commercial development, multi-family residential development, and the East Lyme Cemetery.

### **3.3 Current Use of the Subject Property**

The proposed lease area is currently occupied by an overgrown area at the back of a restaurant parking lot and includes a portion of the gravel-covered parking lot, a pile of gravel or concrete material, and several concrete jersey barriers. The proposed access and utility easement is occupied by paved and gravel-covered portions of a restaurant parking lot. A shallow stormwater drainage basin occupies a portion of the proposed lease area and extends northward from the proposed lease area.

### **3.4 Descriptions of Improvements on the Subject Property**

With the exception of a paved parking lot within the eastern portion of the proposed lease area and the majority of the proposed access and utility easement, ECA did not observe any improvements on the subject property during the site reconnaissance.

### **3.5 Current Uses of Adjoining and Surrounding Properties**

ECA performed a visual inspection of adjoining properties from the subject property boundaries and along public right of ways. The following table identifies the adjoining properties and surrounding areas uses:

<b>Direction</b>	<b>Adjoining Use(s)</b>	<b>Surrounding Use(s)</b>
North	Smokey O'Grady's, Barry's Cleaners & Launderers, The Parcel Center, Moe's Smoke Shop, and wooded and/or grassed land	Commercial development with multi-family residential development to the northwest
South	Ace Home Center	New Frontage Road and commercial development
East	Smokey O'Grady's, Flanders Road, and East Lyme Commons (commercial strip mall)	Commercial development, wooded land, and Interstate 95
West	Wooded land and East Lyme Cemetery	East Lyme Cemetery and wooded land

Notable adjoining property uses are further identified on the Site Vicinity Plan in [Appendix A](#).

## **4.0 USER PROVIDED INFORMATION**

It is ECA's understanding that ARX Wireless, LLC is considering developing a wireless telecommunications facility at the subject property. ECA was retained to provide this Phase I Environmental Site Assessment to identify recognized environmental conditions in connection with the subject property prior to the real estate transaction.

In accordance with Section 6 (User's Responsibilities) of ASTM E1527-21, the client is responsible for providing the following information. ARX Wireless, LLC provided ECA personnel with the site location and site contact information. ECA also requested information within the following sections. See [Appendix E](#) for a copy of the user questionnaire, if provided.

### **4.1 Title Records**

ECA has not been provided with a chain-of-title for the subject property. However, ECA will review and comment on such if provided to us. ECA may have been informed of, or discovered through interviews, general information regarding prior ownership of the subject property. If so, such information is discussed in Sections [5.4](#) and [7](#). However, this should not be construed to be a title search as normally conducted by a title professional.

### **4.2 Environmental Liens or Activity and Use Limitations**

It is ECA's understanding that the user has not discovered any environmental liens or Activity and Use Limitations (AULs) on the subject property. Research for such liens or AULs is normally conducted by a title professional.

### **4.3 Specialized Knowledge**

ECA questioned the user regarding available information concerning the subject property and the pending transaction. Specialized knowledge of environmental issues was not provided to ECA. The results of these inquiries are discussed herein as appropriate.

### **4.4 Commonly Known or Reasonably Ascertainable Information**

The user did not provide other information commonly known in the community or reasonably ascertainable regarding the subject property that would indicate a recognized environmental condition.

#### **4.5 Valuation Reduction for Environmental Issues**

ECA has not been informed of any reduction in the value of the subject property below the fair market value. If there has been a reduction, the user should consider this in light of the information reported herein, try to identify an explanation for the reduction, and document this evaluation.

#### **4.6 Reason for Performing Phase I**

It is ECA's understanding that the user has requested this assessment to qualify for one of the landowner liability protections (LLPs) to CERCLA liability. ECA also assumes that there may be other business-related reasons for requesting this assessment that we are unaware of and have not specifically been addressed.

#### **4.7 Other**

No additional information regarding the subject property was provided by the user.

### **5.0 RECORDS REVIEW**

#### **5.1 Standard and Scope of Work-Specific Environmental Record Sources**

Environmental Data Resources, Inc. (EDR) was retained to provide a database search of the applicable record sources, as required by the ASTM standard. Federal, State, local, and tribal environmental databases were reviewed to obtain information that might identify recognized environmental conditions in connection with the subject property.

Regulated and non-regulated facilities identified on the federal, state, local, and tribal databases located within the standard ASTM search distances of the subject property along with information obtained from the various regulatory databases, are included on the EDR report in [Appendix D](#). If considered warranted, ECA may have also reviewed agency files for additional environmental information on listed facilities that are considered likely to represent a recognized environmental condition.

The subject property parent tract and multiple additional facilities were identified on the databases searched within the standard ASTM search distances of the subject property. If a mapped facility was considered a potential environmental exposure to the subject property, it is tabulated below. Otherwise, based on factors such as distance, presumed or documented groundwater flow direction, relative topography and/or current regulatory status, the listings identified by EDR are not considered recognized environmental conditions. Additional information pertaining to the listed facilities are included in the EDR Radius Map report in Appendix D.

Facility Name & Address	Database(s)	Approximate Location	Comments
<i>306 Flanders Road</i>	CT SPILLS	Target Property (TP) Parent Tract	Not a recognized environmental condition based on minimal amount of reported release and regulatory closure status (see additional discussion below)
BARRYS 1 HR CLRS OF NEW LONDON <i>308 Flanders Road</i>	EDR Hist Cleaner	Located approximately 80 feet north of the proposed access and utility easement at its closest point (located approximately 265 feet northeast of the proposed lease area at its closest point)	Drycleaner has been present at this location since at least 1997; No violations or releases reported; Facility lies upgradient from the proposed lease area and western portions of the proposed access/utility easement; There is potential for undocumented releases to have occurred and to have impacted groundwater; Impacted groundwater would likely migrate in a westerly direction from the facility, though the specific direction in relation to the subject property is unclear; However, although there is potential for impacts to groundwater beneath portions of the subject property to have occurred, based on distance from the proposed lease area, where groundwater may be encountered during tower foundation excavations, the facility is not considered a recognized environmental condition (see additional discussion below)

Facility Name & Address	Database(s)	Approximate Location	Comments
BROOKS PHARMACY 216 BROOKS PHARMACY # 21 324 Flanders Avenue	CT MANIFEST, RCRA-SQG, FINDS, ECHO, NY MANIFEST	Located approximately 725 feet north-northeast of the proposed lease area at its closest point	The EDR Report listings for "Brooks Pharmacy" at this address (currently Walgreens Pharmacy) indicates that the facility was a small quantity generator of hazardous wastes, including silver and ignitable waste, between at least 2002 and 2007; no associated violations or evaluations were identified. Based on the distance from the subject property and lack of documented releases and/or violations, the listings associated with "Brooks Pharmacy" are not considered to be recognized environmental conditions.

The subject property parent tract, addressed as 306 Flanders Road, was identified on the CT SPILLS database. ECA obtained the available regulatory file information for the listed release from the Connecticut Department of Energy and Environmental Protection (CT DEEP); a search for the release event (Case ID: 96-06153) on the CT DEEP Document Search Portal identified three documents detailing a spill that occurred in November 1996. A review of the EDR Report listing, a CT DEEP Emergency Incident Field Report, and a CT DEEP Release Report indicated that a spill of approximately 9 gallons of fuel oil occurred behind the Flanders House Bar/Restaurant (currently Smokey O'Grady's restaurant). The release was reported to have impacted the gravel parking lot and spread to a larger surrounding area due to rain; the area was diked by hand to keep the spill in proximity of the release source and the Flanders Fire Department responded and deployed sorbent pads to contain the spill. Subsequently, Shire Corp. was retained to clean up the spill, including the removal of impacted soil and sorbent pads and vacuuming of contaminated stormwater puddles. The CT DEEP Release Report indicated that the contractor arrived within 1 hour of being called to clean the site and concluded that the site was "completely cleaned." Based on the minimal impact of the reported release, swift clean up, and regulatory closure status of the release, the listing associated with the subject property parent tract is not considered to be a recognized environmental condition.

BARRYS 1 HR CLRS OF NEW LONDON, addressed as 308 Flanders Road and located approximately 80 feet north of the subject property at its closest point, was identified on the EDR Hist Cleaners database. A review of the EDR Report listing indicated that "Barrys Cleaners" or "Barrys 1 Hr Clrs of New London" has operated at this facility between at least 1997 until 2014. Based on our site reconnaissance, this facility is still operating to the current day.

Dry cleaning operations are known to utilize solvents, including chlorinated solvents such as tetrachloroethylene (PERC). PERC is a dense non-aqueous phase liquid (DNAPL) that is more dense than water and is extremely mobile and persistent in the environment. Releases of PERC to the environment are very common at facilities where this chemical was used due to PERC's ability to migrate through concrete floors. The dry cleaning facility lies upgradient from the proposed lease area and western portions of the proposed access/utility easement; as such, there is potential for undocumented releases to have occurred and to have impacted groundwater. Impacted groundwater would likely migrate in a westerly direction from the dry cleaning facility, though the specific direction in relation to the subject property is unclear. Although there is potential for impacts to groundwater beneath portions of the subject property to have occurred, based on the distance from the proposed lease area, where groundwater may be encountered during tower foundation excavations, the facility is not considered to be a recognized environmental condition.

Sometimes facilities are identified that cannot be mapped based on the information in the databases (called orphan or unmappable sites). This list in the EDR report was reviewed and ECA identified no such facilities to be of concern on and/or near the subject property.

### **5.1.1 Vapor Encroachment**

Incidents involving chemicals of concern (COC) were not identified in the EDR Environmental Database Report within the critical distance (up to 100 feet cross gradient from the nearest property line) of the subject property. Based on this information, a vapor encroachment condition (VEC) can be ruled out.

## **5.2 Additional Environmental Record Sources**

Additional environmental record sources were not reviewed in this assessment. ECA contacted the local fire, health, and building departments for additional information on the subject property. Information obtained is included within [Section 7.3](#) of this report.

## **5.3 Physical Setting**

### **5.3.1 Subject Property Topography, Hydrology, Geology, and Soil Conditions**

<b>Item</b>	<b>Description</b>	<b>Source</b>
Site Elevation	53 feet NAVD88 (at lease center)	Client provided survey/ 1-A
Interpreted Surface Slope	West-southwest at the proposed lease area	USGS Topographic Maps

Item	Description	Source
Influencing Hydrologic Features	Pattagansett River is located approximately 1,815 feet west-southwest of the proposed lease area at its closest point	USGS Topographic Maps, National Wetlands Inventory, Aerial Photography
Soil Type	Agawam fine sandy loam, 0 to 3 percent slopes (29A) and Udorthents-Urban land complex (306)	NRCS
Soil Type Description	The Agawam series consists of very deep, well drained soils formed in sandy, water deposited materials. The Udorthents-Urban land complex consists of moderately well drained to excessively well drained soils that have been disturbed by cuffing or filling, and areas that are covered by buildings and pavement.	USDA Soil Series Description
Physiographic/Geologic Location	New England Physiographic Province	USGS
Depth to Groundwater	More than 80 inches	NRCS

### 5.3.2 Flooding and Wetland Potential

Item	Information	Source
FEMA FIRM Panel	09011C0477J dated August 5, 2013	
Flood Zone Designation	X	FEMA
Special Flood Hazard Area	No	
Wetlands (subject property)	None mapped	
Wetlands (within a 300-foot radius)	None mapped	
Streams (within a 300-foot radius)	None observed	
Drains (within a 300-foot radius)	Three roadside stormwater drains were observed along Flanders Road to the east of the subject property; the drains were located approximately 50 feet east, 160 feet north-northeast, and 200 feet southeast of the eastern end of the subject property at its closest point	National Wetlands Inventory, USGS, Aerial Photography, and/or Site Reconnaissance
Ditches (within a 300-foot radius)	None observed	
Other Surface Waters (within a 300-foot radius)	An existing shallow stormwater drainage basin occupies and adjoins the northern portion of the proposed lease area	

At the federal level, the U.S. Army Corps of Engineers (USACE) has been given primary responsibility for regulating jurisdictional waters and wetlands. In order for the USACE to have jurisdiction over wetlands, certain wetland characteristics must be present. The delineation of possible wetlands was not within the scope of this assessment.

#### 5.4 Historical Use of the Subject Property and Adjoining Properties

Per the ASTM standard, “all obvious uses of the subject property shall be identified from the present, back to the subject property’s first developed use, or back to 1940, whichever is earlier.” ECA has reviewed the following sources of information to determine the historical uses and activities on and adjoining the subject property:

Historical Source	Source Reviewed?	Source
Topographic Maps	Yes	USGS
Aerial Photographs	Yes	Google Earth, Historicaerials.com
Sanborn/Fire Insurance Maps	No	N/A
City Directories	No	N/A
Landowner Interview	No	N/A
Antenna Structure Registration	No	N/A
Previous Phase I Environmental Site Assessment (ESA)	No	N/A
Other	No	N/A

##### 5.4.1 Historic Topographic Maps

Year	Apparent Subject Property Use	Adjoining Property Uses
1938	Shading not indicative of property usage	Apparent buildings and/or residences (black polygons), roads, and a cemetery
1958	Cleared and/or agricultural land (white shading)	Apparent buildings and/or residences (black and unshaded polygons), roads, and a cemetery

##### 5.4.2 Historic Aerial Photography

Year	Apparent Subject Property Use	Adjoining Property Uses
1957	Grassed and/or agricultural land	Grassed and/or agricultural land, apparent residential development, Flanders Road, and a cemetery

<b>Year</b>	<b>Apparent Subject Property Use</b>	<b>Adjoining Property Uses</b>
1970, 1974	Grassed and/or agricultural land with an apparent driveway along the eastern end of the proposed access and utility easement	Same as previous with an apparent residence and/or commercial building on the parent tract and apparent commercial development in the surrounding areas; an apparent commercial building and parking lot adjoin the subject property to the south
1985, 1991	Grassed and/or cleared land with a parking lot along the eastern portion of the proposed lease area and along the majority of the proposed access and utility easement	Same as previous with an apparent restaurant on the parent tract; apparent commercial hardware facility and parking lot adjoining the property to the south depicted in the 1991 aerial photograph
2002, 2005, 2010, 2015, 2020, 2024	Wooded, grassed, and/or cleared land with a parking lot along the eastern portion of the proposed lease area and along the majority of the proposed access and utility easement	Same as previous with an apparent dry cleaning facility adjoining the subject property to the north depicted in the 2002 aerial photograph

#### **5.4.3 City Directories**

Based on the historically limited development of the subject property and relatively recent commercial development of the surrounding area, historical city directories are not expected to be available and/or useful in determining historic uses. Therefore, a review of city directories was not conducted for the subject property.

#### **5.4.4 Sanborn Fire Insurance Maps**

Based on the historically limited development of the subject property and relatively recent commercial development of the surrounding area, Sanborn fire insurance maps are not expected to be available and/or useful in determining historic uses. Therefore, a review of Sanborn fire insurance maps was not conducted for the subject property.

#### **5.4.5 Other Historic Use Information**

Based on the historically limited development of the subject property, ECA relied on the previously discussed historical resources for information concerning the subject property and surrounding area. Additionally, after reviewing the land use history obtained using the above referenced sources, a review of the other standard sources of historic use information was not considered necessary to satisfy the ASTM standard.

#### **5.4.6 Summary of Historic Uses**

Based on the review of the historic information sources listed above, it appears that the subject property was occupied by grassed and/or agricultural land prior to at least 1957 until sometime between 1957 and 1970, when an apparent paved driveway associated with a residence and/or commercial building was developed along the eastern end of the proposed access and utility easement. Sometime between 1974 and 1985, the majority of the subject property appeared to be cleared and further developed in association with apparent commercial development on the subject property parent tract; at this time, a parking lot was developed along the eastern portion of the proposed lease area and along the majority of the proposed access and utility easement. Sometime between 1991 and 2002, the western portion of the proposed lease area returned to an overgrown area. The subject property has been occupied by an overgrown area within western portions of the lease area and a parking lot/driveway within eastern portions of the lease area and the entire proposed access and utility easement since that time. The historic sources reviewed did not indicate a recognized environmental condition in connection with past uses of the subject property.

The historic uses of the subject property may have included agricultural operations, which typically include the routine use of pesticides. Pesticides may contain lead, arsenic, and/or other additional compounds of concern. ECA cannot entirely rule out that the former agricultural use has not included the use of pesticides. However, based on a review of the historic sources, there is no obvious evidence of the bulk storage or mixing of pesticides in the subject property area. Additionally, there is no obvious evidence that the potential prior application of pesticides would currently represent a threat to human health or the environment. Therefore, the historic use of the subject property for agricultural purposes is not considered a recognized environmental condition.

ASTM Standard E1527-21 requires the review of historical use resources at five-year intervals back to 1940 or first developed use, unless the subject property use has remained unchanged at longer intervals. ECA was unable to reasonably ascertain historical sources either back to 1940 or first developed use, at five-year intervals, or between land use changes at longer intervals, for the

subject property. Therefore, a *data failure* occurs relative to the standard requirements. However, based on the prior subject property uses identified, ECA does not consider the *data failure* to be a *significant data gap*.

## 6.0 SITE RECONNAISSANCE

### 6.1 Methodology and Limiting Conditions

The objective of ECA's site reconnaissance was to obtain information, by visually and physically observing the subject property and vicinity (by sight and smell), which could likely lead to the identification of recognized environmental conditions in connection with the subject property. The site reconnaissance was performed by Ms. Mary Davis on February 15, 2025.

### 6.2 General Site Setting

The subject property consists of an overgrown area at the back of a restaurant parking lot and paved and gravel-covered portions of the parking lot. The subject property is located on a larger parent tract which is occupied by a paved parking lot, Smokey O-Grady's restaurant, and wooded land in an area generally characterized by commercial development, multi-family residential development, and the East Lyme Cemetery.

#### 6.2.1 Site Observations

Photographs were taken of noteworthy areas of the subject property and vicinity and are included in Appendix B. The locations where the photographer was standing are indicated on the Site Vicinity Plan in Appendix A. Site observations are summarized in the following table and discussed in further detail below, if applicable.

Item	Observed	Description
Storage Tanks (UST, AST)	Yes	Two large storage tanks, both of which appeared to contain propane and hold a volume of at least 100 gallons, were observed to the northwest of Smokey O'Grady's restaurant on the parent tract, approximately 55 feet north of the proposed access and utility easement; obvious evidence of a release was not observed
Drains, Pits, Cisterns, Cesspools	No	NA
Odors, Pools of Liquid, Ponds, Lagoons	No	NA
Drums	No	NA

Item	Observed	Description
Hazardous Materials/Waste and Petroleum Products	No	NA
Unidentified Substance Containers	Yes	An apparent used cooking oil container was observed to the northwest of Smokey O'Grady's restaurant on the parent tract, approximately 55 feet north of the proposed access and utility easement; obvious evidence of a release was not observed
PCBs (and related equipment)	No	NA
Stained Soil or Pavement	No	NA
Stressed Vegetation	No	NA
Solid Waste	No	NA
Unnatural Fill or Grading	Yes	A pile of gravel and/or concrete material was observed within the proposed lease area; a dirt berm was present at the western end of the parent tract parking lot between the parent tract and the adjoining cemetery; neither is an environmental concern
On-Site Septic Systems	No	NA
On-Site Potable Water	No	NA
Wastewater	No	NA
Wells	No	NA
Other Notable Observations	Yes	An existing shallow stormwater drainage basin occupies and adjoins the northern portion of the proposed lease area; concrete jersey barriers were observed along the western end of the parent tract parking lot within and adjoining the proposed lease area; a closed storage shed was observed to the northwest of the adjoining restaurant, approximately 60 feet north of the proposed access and utility easement; obvious evidence of a release was not observed within or in the vicinity of the subject property

ECA notes that portions of the proposed lease area were covered with snow during the site reconnaissance such that a clear view of the entire ground surface was not possible. The presence of snow cover is considered a limiting condition. However, within visible areas ECA did not observe obvious evidence of petroleum products or hazardous materials, such as staining, leaking, odors and/or stressed vegetation, within or adjacent to the subject property. Considering the use of

the snow-covered portions of the subject property, the limiting condition is not an environmental concern for the subject property. Observations made during the site reconnaissance were not indicative of the presence of a recognized environmental condition.

### **6.3 Offsite Observations**

In the areas surrounding the subject property, ECA observed commercial development, Flanders Road, and the East Lyme Cemetery. Offsite observations were not indicative of a recognized environmental condition. ECA was only able to observe the general use of the surrounding properties; therefore, there could be recognized environmental conditions that were not discovered.

## **7.0 INTERVIEWS**

ECA interviewed the following parties to determine if they had specialized knowledge of the subject property that might indicate recognized environmental conditions. The interviews are documented in [Appendix E](#).

### **7.1 Interview with Owner**

ECA attempted to contact Ms. Geraldine O'Shannon, a representative of the subject property landowner. However, as of the issuance of this report, ECA has not received a response. The lack of owner interview information is considered a data gap, as defined in ASTM E1527. However, based on the historic use of the property ascertained through site observations and historic resources reviewed, the lack of owner interview information is not considered a 'significant' data gap. Should pertinent information be obtained, which either supports or disproves ECAs findings, ECA will forward the information in an addendum.

### **7.2 Interview with Site Manager or Occupants**

There was no site manager or occupant available for interview. As a result, ECA did not interview the site manager or occupants during the course of this assessment.

### **7.3 Interviews with Local Government Officials**

Local and state agencies, such as environmental health departments, fire departments, and building and planning departments are contacted to identify any current or previous environmental related concerns, such as hazardous substance use, storage, and/or unauthorized releases that may have impacted the subject property.

Agency Name	Date Contacted	Contact Method	Response
Flanders Fire Station	01/20/25	Records Inquiry via Email	ECA received an email response from the Flanders Fire Station on January 20, 2025 indicating that the records inquiry was redirected to the East Lyme Fire Service.
East Lyme Fire Service	01/20/25	Records Inquiry via Email	ECA received an email response on January 23, 2025 from Mariah Knight, a representative of East Lyme Fire Services, indicating that no record of underground storage tanks were identified for this location. Other components of the records inquiry were not addressed.
Connecticut Department of Energy & Environmental Protection (CT DEEP)	01/20/25	Online Freedom of Information Act Request	At the time of this report, a response had not been received.

ECA regulatory agency interviews are available for review in [Appendix E](#), if received at the time of this report. If pertinent information is received that indicates a potential for environmental concern after the completion of this report, it will be forwarded under a separate cover.

#### 7.4 Interviews with Others

ECA did not interview other parties regarding the subject property during the course of this assessment.

#### 8.0 FINDINGS AND OPINIONS

Evidence of recognized environmental conditions or business environmental risks was not identified in connection with the subject property during the course of the assessment. It is ECA's opinion that there has been no material impact to the subject property.

#### 9.0 CONCLUSIONS AND RECOMMENDATIONS

ECA has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the subject property. Any exceptions to, or deletions from, this practice are described in [Section 2.4](#) of this report.

This assessment has not revealed evidence of recognized environmental conditions in connection with the subject property. As a result, further assessment is not warranted at this time.

## **10.0 DEVIATIONS**

Unless otherwise noted, ECA has not deviated from or deleted any requirements of the ASTM E1527-21 standard. Also, ECA was under no client-imposed constraint.

## **11.0 ADDITIONAL SERVICES**

No other additional services were requested by the user.

## **12.0 REFERENCES**

Selected documents that have been referred to in this report are provided in the Appendices, as appropriate. Other documents or information used in this assessment are retained in ECA's project files and can be provided upon request from the client.

## **13.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS**

The Environmental Professional for this assessment was Ben Salter. Ms. Mary Davis conducted the site reconnaissance. Daniel Risman authored this report.

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312.

Ben Salter  
Principal Scientist

ECA has the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. ECA has developed and performed all appropriate inquiries in general conformance with the standards and practices set forth in 40 CFR Part 312.

Daniel Risman  
Project Scientist

Ben Salter  
Principal Scientist

## **14.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS**

ECA utilizes only personnel experienced in performing Environmental Site Assessments for work of this kind. A senior project principal oversees the execution of the work and reviews and signs all reports. Résumés of the environmental personnel signing this report are available upon request.

REPORT OF PETROLEUM OR CHEMICAL PRODUCT DISCHARGE, SPILLAGE OR RELEASE

1. When did the incident occur? date 11/26/96 time 10:30  
month day /year

2. Where did the incident occur? FLANDERS House

306 FLANDERS RD EAST LYME  
06333

3. How did the incident occur? (Describe the cause) WHILE REELING  
UP DELIVERY HOSE THE ELECTRIC BUTTON STUCK  
ON, THE HOSE WENT AROUND THE REEL & OPENED  
UP THE FILL HANDLE

4. Under whose control was the chemical or petroleum product at the time of the incident?

Name: CHARLES BURDICK

Mailing address and street: 108 MAIN ST.

Town: IVORYTON State: CT Zip 06442 Telephone 860-767-8462

5. Who is the owner of the property onto which the spill occurred?

STEVE CARPENTERI

If this is a corporate property or property owned jointly who represents the owner?

Corporate property  Property owned jointly

Name: STEVE CARPENTERI

Mailing address and street: 306 FLANDERS RD.

Town: EAST LYME State: CT Zip 06442 Telephone 860-739-7084

6. When was the incident verbally reported to the Department of Environmental Protection?

Date 11/26/90 time 11:00  
month / day / year

7. Who reported the incident and who were they representing?

Name: CHARLES BURDICK

Mailing address and street: 108 MAIN ST

Town: Ivoryton State: CT Zip 06442 Telephone 860-767-8402

8. What were the chemicals or petroleum products released, spilled or discharged? Give an exact description of each of the materials involved in the incident, including chemical names, percent concentrations, trade names, etc. If the chemicals are Extremely Hazardous substances or CERCLA hazardous substances they must be identified as such and include the reportable quantity (RQ). Please attach a Material Safety Data Sheet (MSDS) for each chemical involved.

FUEL OIL (NO. 2), 3. NA 1993, PG 111

COMBUSTIBLE LIQUID

9. What were the quantities of chemicals that were releases, spilled or discharged to each environmental medium (air, surface water, soil, groundwater)? [NOTE: Connecticut General Statutes requires the reporting of any amount of any substance or material released to the environment].

NINE (9) GALLONS WENT

THROUGH METER

10. Did any of the chemical travel beyond the property line? [NOTE: materials that enter the ground water are considered to have gone beyond the property line.]

NO.

11. What actions were taken to respond to and contain the release, spill or discharge?

THE AREA WAS LIGHTLY DIKED BY  
HAND TO KEEP SPILL IN AS CLOSE  
PROXIMITY TO THE SOURCE A POSSIBLE.

THE FIRE D.O.T. & D.E.P. WERE NOTIFIED  
AS WELL AS A PERMITTED CLEAN UP  
CONTRACTOR WAS CALLED TO SITE. \*

THE CONTRACTORS RESPONSE TIME WAS LESS  
THAN 1 HOUR FROM WHEN CALLED TO  
ARRIVAL ON SITE

12. What actions are being taken to prevent reoccurrence of an incident of this type?

BOTH ELECTRIC SWITCHES HAVE BEEN REPLACED  
ON THE TRUCK WITH NEW BACKING PLATE SO  
AS NOT TO HAPPEN AGAIN

Attach additional sheets if necessary.

13. Were there any injuries as a result of the incident? If so, list the names of exposed individuals, their addresses, phone numbers and describe their injuries.

Name: N/A

Mailing address and street: \_\_\_\_\_

Town: \_\_\_\_\_ State: \_\_\_\_\_ Zip \_\_\_\_\_ Telephone \_\_\_\_\_

Attach additional sheets if necessary.

14. What is the appropriate advice regarding medical attention necessary for exposed individuals?

N/A

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

15. Are there any known or anticipated health risks, acute or chronic, associated with the release of this chemical or medical advice that should be communicated?

N/A

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

16. Was the incident completely cleanup by the time this report was submitted? If not, what are the anticipated remedial actions and their duration?

COMPLETELY CLEANED

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

17. CERTIFICATION. I hereby affirm that the foregoing statement is true to the best of my knowledge.

**INSPECTOR'S REPORT:** DEP responded to report of a fuel spill behind the Flanders House. The spill occurred after filling the fuel tank. The driver stated that the hose reel on the delivery truck malfunctioned causing the hose and nozzle to spin around the reel. The nozzle apparently opened up spilling fuel to the gravel parking lot. A heavy rain had just occurred spreading the fuel to a large area. Flanders FD responded and deployed sorbent pads in an effort to contain the spill.

*CP Burdick hired Shire Corp. to cleanup the spill. Soil and sorbs were removed. A vac truck removed the puddled fuel and contaminated stormwater.*

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

## EXECUTIVE SUMMARY

### STANDARD ENVIRONMENTAL RECORDS

#### ***Lists of Federal RCRA generators***

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/16/2024 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<b>BROOKS PHARMACY #21</b> EPA ID:: CTR000501940	<b>324 FLANDERS AVE</b>	<b>NNE 0 - 1/8 (0.101 mi.)</b>	<b>B4</b>	<b>17</b>

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 09/16/2024 has revealed that there are 3 RCRA-VSQG sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 4 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there is

## EXECUTIVE SUMMARY

1 UST FINDER site within approximately 0.25 miles of the target property.

**CT CPCS:** A list of Contaminated or Potentially Contaminated Sites within Connecticut. This list represents the "Hazardous Waste Facilities," as defined in Section 22a-134f of the Connecticut General Statutes (CGS). The list contains the following types of sites: Sites listed on the Inventory of Hazardous Waste Disposal Sites; Sites subject to the Property Transfer Act; Sites at which underground storage tanks are known to have leaked; Sites at which hazardous waste subject to the RCRA; Sites that are included in EPA's (CERCLIS); Sites that are the subject of an order issued by the Commissioner of DEP that requires investigation and remediation of a potential or known source of pollution; and Sites that have entered into one of the Department's Voluntary Remediation Programs.

A review of the CT CPCS list, as provided by EDR, and dated 07/25/2024 has revealed that there are 8 CT CPCS sites within approximately 0.5 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### ***EDR Exclusive Records***

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical

## EXECUTIVE SUMMARY

Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Target 306 FLANDERS RD.  
Property EAST LYME, CT

CT SPILLS S103156941  
N/A

**Actual:** 50 ft.  
**SPILLS:**  
Name: Not reported  
Address: 306 FLANDERS RD.  
City,State,Zip: EAST LYME, CT  
Year of Database: 1996  
Case Number: 9606153  
Who Took Spill: 912  
Assigned To: Torres, Neil  
Report Date: 11/26/1996  
Report Time: 12:00:00 AM  
Date Release: 11/26/1996  
Time Responded: 12:00:00 AM  
Corrective Action Taken: Other (INVESTIGATING), and Investigated  
Cause Info: Hose Failure  
Media Info: Ground Surface  
Release Type: petroleum  
Reported By: KEVIN  
Phone: 860 0000000  
Representing: Self  
Terminated: YES  
Recovd (Total): 0  
Total (Water): 0  
Facility Status: Closed  
Continuous Spill: False  
Released Substance: #2 FUEL OIL  
Qty: ~ 20.00 (Gallons)  
Emergency Measure: Not reported  
Water Body: Catch Basin  
Discharger: BURDICK OIL  
Telephone: Not reported  
Responsible Party: Not reported  
RP Address 1: Not reported  
RP City,St,Zip: ESSEX, CT 06426  
Historic: False

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D005
Waste Description:	Barium
Waste Code:	D007
Waste Description:	Chromium
Waste Code:	D009
Waste Description:	Mercury
Waste Code:	D010
Waste Description:	Selenium
Waste Code:	D011
Waste Description:	Silver
Waste Code:	D013
Waste Description:	Lindane (1,2,3,4,5,6-Hexa-Chlorocyclohexane, Gamma Isomer)
Waste Code:	D016
Waste Description:	2,4-D (2,4-Dichlorophenoxyacetic Acid)
Waste Code:	D018
Waste Description:	Benzene
Waste Code:	D024
Waste Description:	M-Cresol
Waste Code:	D026
Waste Description:	Cresol
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	P001
Waste Description:	2h-1-Benzopyran-2-One, 4-Hydroxy-3-(3-Oxo-1-Phenylbutyl)-, & Salts, When Present At Concentrations Greater Than 0.3% (Or) Warfarin, & Salts, When Present At Concentrations Greater Than 0.3%
Waste Code:	P042
Waste Description:	1,2-Benzenediol, 4-[1-Hydroxy-2-(Methylamino)Ethyl]-, (R)- (Or) Epinephrine

Waste Code:	P075
Waste Description:	Nicotine, & Salts (Or) Pyridine, 3-(1-Methyl-2-Pyrrolidinyl)-,(S)-, & Salts
Waste Code:	P081
Waste Description:	1,2,3-Propanetriol, Trinitrate (R) (Or) Nitroglycerine (R)
Waste Code:	U002
Waste Description:	2-Propanone (l) (Or) Acetone (l)
Waste Code:	U035
Waste Description:	Benzenebutanoic Acid, 4-[Bis(2-Chloroethyl)Amino]- (Or) Chlorambucil
Waste Code:	U044
Waste Description:	Chloroform (Or) Methane, Trichloro-
Waste Code:	U058
Waste Description:	2h-1,3,2-Oxazaphosphorin-2-Amine, N,N-Bis(2-Chloroethyl)Tetrahydro-, 2-Oxide (Or) Cyclophosphamide
Waste Code:	U122
Waste Description:	Formaldehyde
Waste Code:	U129
Waste Description:	Cyclohexane, 1,2,3,4,5,6-Hexachloro-, (1alpha, 2alpha, 3beta, 4alpha, 5alpha, 6beta)- (Or) Lindane
Waste Code:	U150
Waste Description:	L-Phenylalanine, 4-[Bis(2-Chloroethyl)Amino]- (Or) Melphalan
Waste Code:	U154
Waste Description:	Methanol (l) (Or) Methyl Alcohol (l)
Waste Code:	U188
Waste Description:	Phenol
Waste Code:	U205
Waste Description:	Selenium Sulfide (Or) Selenium Sulfide Ses2 (R,T)
Waste Code:	U240
Waste Description:	2,4-D, Salts & Esters (Or) Acetic Acid, (2,4-Dichlorophenoxy)-, Salts & Esters (Or) Dichlorophenoxyacetic Acid 2,4-D
Waste Code:	U279
Waste Description:	U279

[Click Here for FRS Facility Detail Report:](#)

**Environmental Interest/Information System:**  
 A suite of Web-based applications designed to allow the Connecticut Department of Environmental Protection (DEP) staff to harmonize environmental interest information from disparate systems into a single agency-wide data repository (known as CFI). The Site Information Management System (SIMS) provides tools for identifying and resolving duplicate data, querying data (using both tabular and geospatial methods), and viewing and maintaining documents associated to the data.  
 The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## STANDARD ENVIRONMENTAL RECORDS

### *Lists of Federal NPL (Superfund) sites*

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 09/25/2024	Source: EPA
Date Data Arrived at EDR: 10/01/2024	Telephone: N/A
Date Made Active in Reports: 10/23/2024	Last EDR Contact: 01/02/2025
Number of Days to Update: 22	Next Scheduled EDR Contact: 04/07/2025
	Data Release Frequency: Quarterly

#### NPL Site Boundaries

EPA Region 10	
Telephone 206-553-8665	

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/25/2024	Source: EPA
Date Data Arrived at EDR: 10/01/2024	Telephone: N/A
Date Made Active in Reports: 10/23/2024	Last EDR Contact: 01/02/2025
Number of Days to Update: 22	Next Scheduled EDR Contact: 04/07/2025
	Data Release Frequency: Quarterly

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Data Release Frequency: No Update Planned

## ***Lists of Federal Delisted NPL sites***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 09/25/2024

Telephone: 703-603-8704  
Last EDR Contact: 12/18/2024  
Next Scheduled EDR Contact: 04/07/2025  
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 09/25/2024  
Date Data Arrived at EDR: 10/01/2024

Data Release Frequency: Quarterly

## ***Lists of Federal CERCLA sites with NFRAP***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 09/25/2024	Source: EPA
Date Data Arrived at EDR: 10/01/2024	Telephone: 800-424-9346
Date Made Active in Reports: 10/23/2024	Last EDR Contact: 01/02/2025
Number of Days to Update: 22	Next Scheduled EDR Contact: 04/21/2025
	Data Release Frequency: Quarterly

## ***Lists of Federal RCRA facilities undergoing Corrective Action***

### **CORRACTS: Corrective Action Report**

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 09/16/2024	Source: EPA
Date Data Arrived at EDR: 09/17/2024	Telephone: 800-424-9346
Date Made Active in Reports: 12/06/2024	Last EDR Contact: 12/12/2024
Number of Days to Update: 80	Next Scheduled EDR Contact: 03/31/2025
	Data Release Frequency: Quarterly

## ***Lists of Federal RCRA TSD facilities***

### **RCRA-TSDF: RCRA - Treatment, Storage and Disposal**

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 09/16/2024	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/17/2024	Telephone: (888) 372-7341
Date Made Active in Reports: 12/06/2024	Last EDR Contact: 12/12/2024
Number of Days to Update: 80	Next Scheduled EDR Contact: 03/31/2025
	Data Release Frequency: Quarterly

## ***Lists of Federal RCRA generators***

### **RCRA-LQG: RCRA - Large Quantity Generators**

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/16/2024	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/17/2024	Telephone: (888) 372-7341
Date Made Active in Reports: 12/06/2024	Last EDR Contact: 12/12/2024
Number of Days to Update: 80	Next Scheduled EDR Contact: 03/31/2025

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

## RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

## *Federal institutional controls / engineering controls registries*

### LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 07/15/2024	Source: Department of the Navy
Date Data Arrived at EDR: 07/17/2024	Telephone: 843-820-7326
Date Made Active in Reports: 10/09/2024	Last EDR Contact: 11/13/2024
Number of Days to Update: 84	Next Scheduled EDR Contact: 02/17/2025
	Data Release Frequency: Varies

### US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 07/24/2024	Source: Environmental Protection Agency
Date Data Arrived at EDR: 08/08/2024	Telephone: 703-603-0695
Date Made Active in Reports: 08/15/2024	Last EDR Contact: 11/15/2024
Number of Days to Update: 7	Next Scheduled EDR Contact: 12/02/2024
	Data Release Frequency: Varies

### US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 07/24/2024	Source: Environmental Protection Agency
Date Data Arrived at EDR: 08/08/2024	Telephone: 703-603-0695

Data Release Frequency: Quarterly

## ***Lists of state- and tribal hazardous waste facilities***

SHWS: Inventory of Hazardous Disposal Sites

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

## ADDITIONAL ENVIRONMENTAL RECORDS

### *Local Brownfield lists*

#### US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Next Scheduled EDR Contact: 04/07/2025  
Data Release Frequency: Quarterly

### US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

## **Other Ascertainable Records**

### **RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated**

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Number of Days to Update: 94      Next Scheduled EDR Contact: 03/31/2025  
Data Release Frequency: Quarterly

## EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013      Source: Environmental Protection Agency  
Date Data Arrived at EDR: 03/21/2014      Telephone: 617-520-3000

Number of Days to Update: 88      Next Scheduled EDR Contact: 02/10/2025  
Data Release Frequency: No Update Planned

## 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017      Source: Environmental Protection Agency

## SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 10/15/2024

Next Scheduled EDR Contact: 03/10/2025  
Data Release Frequency: Annually

## RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Data Release Frequency: Varies

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501

Data Release Frequency: Varies

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

## PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST\_HANDLING\_INSTR), Non-hazardous waste description (NON\_HAZ\_WASTE\_DESCRIPTION), DOT printed information (DOT\_PRINTED\_INFORMATION), Waste line handling instructions (WASTE\_LINE\_HANDLING\_INSTR), Waste residue comments (WASTE\_RESIDUE\_COMMENTS).

## PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

## PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset, as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

## PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

## UST FINDER RELEASE: UST Finder Releases Database

US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

Date of Government Version: 06/08/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 10/31/2023	Telephone: 202-564-0394
Date Made Active in Reports: 01/18/2024	Last EDR Contact: 11/06/2024
Number of Days to Update: 79	Next Scheduled EDR Contact: 02/17/2025
	Data Release Frequency: Semi-Annually

## UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

## SEH: List of Significant Environmental Hazards Report to DEEP

The Significant Environmental Hazard Statute is intended to identify and abate short-term risks associated with specific environmental conditions identified in the statute. After abatement of short-term risks (meaning abatement of the significant environmental hazard condition), there may still be potential long-term risks associated with the release. However, a significant environmental hazard can be considered abated under the statute even though potential long-term risks may not have been addressed.

## EDR HIGH RISK HISTORICAL RECORDS

### ***EDR Exclusive Records***

#### **EDR MGP: EDR Proprietary Manufactured Gas Plants**

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

#### **EDR Hist Auto: EDR Exclusive Historical Auto Stations**

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

### AHA Hospitals:

**Subject:** RE: Records Inquiry for Proposed Telecommunications Project at 306 Flanders Road, East Lyme, CT

Good morning,

I received your email request regarding 306 Flanders Rd; this is in East Lyme, CT. Currently, there is a bar/restaurant establishment there, so I was just confused about a telecommunications facility being placed there. Is this a tower-type thing or a new building or transformers?

Respectfully,

**Mariaha Knight**

Administrative Assistant  
Town of East Lyme Fire Services

**Subject:** Records Inquiry for Proposed Telecommunications Project at 306 Flanders Road, East Lyme, CT

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

My name is Daniel Risman and I am an employee of the Environmental Corporation of America. I am currently completing a Phase I Environmental Site Assessment on behalf of ARX Wireless, LLC regarding a proposed telecommunications facility at the following property in East Lyme, Connecticut:  
Account Number: 007229  
Property Address: 306 FLANDERS RD  
Owner Name: ESMERELDA LLC  
PID: 5445  
Approximate Project Area Coordinates: (41° 21' 48.4" N, 72° 12' 38.2" W) OR (41.363444, -72.210611)

As such, I would like to request East Lyme Fire Service electronic records or information for the following areas of concern for the subject property or properties in the immediate vicinity of the subject property, if available.

- Petroleum Products
- Hazardous Materials Release or Chemical Spills
- Underground Storage Tanks
- Groundwater and/or Drinking Water Well Contamination
- Responses to Emergency Situations and/or Environmental Concerns

Thank you for your assistance with this assessment. Please let me know if you require any additional information.

Sincerely,

Daniel Rismann  
Environmental Corporation of America (ECA)
